

# Welcome Parkdale and Mt. Hood

Thursday is your day in Hood River—and we look forward to a pleasant visit from you all before the "eats."

Make our store headquarters. We are going to "doll up" a bit and bring out the best we have for your approval and selection if you care to shop some.

Otherwise—you know you're just as welcome to browse around all you like.

Many exceptional values are offered in Harvest necessities. We are doing our share to lower your cost of production this year.

### NINTH SCHOOL FAIR SATURDAY

The ninth annual industrial school fair of this county will be held at the high school Saturday. With the annual county fair, scheduled to take place simultaneously, cancelled for this year, indications point to record heavy exhibits, according to County School Superintendent, Gibson, who has spent much time this summer in encouraging the children of all school districts in the preparation of club and individual displays. Mr. Gibson says that the work of the youngsters in numerous districts is nothing short of wonderful. The two boys and two girls winning first place in club exhibits and the members of the successful canning team at Saturday's fair will be given free trips to the state fair at Salem. It is anticipated that much of the garden, vegetable and grain products of the youngsters will be utilized in Hood River county's display at the state fair, which will be assembled by Percy L. Manser, secretary of the Hood River County Fair Board, and rushed to the capital by automobile truck.

### WHITE SALMON

F. S. Baker and family spent Sunday in Hood River. After an absence of 18 years, J. R. Ziegler and family, of Underwood, spent the week end in the Yakima valley. Mr. Ziegler, who was in town Wednesday says the development of the Yakima country in the 18 years is most surprising. The hay, grain and fruit crops in that section are large. It is reported that the Cox Lumber Co., operating near Appleton has taken an option on the Swan-Hamann sawmill site on Burdoin and will erect a mill and box factory. The flume is to be rebuilt. Last Thursday evening Mr. and Mrs. Ripper and Mr. and Mrs. Arthur Lewis entertained about 25 of their friends at the Ripper home. The Ripper home was beautifully decorated for the occasion and cards and dancing were enjoyed. Card honors fell to Mrs. G. A. Reed and Dr. K. H. Putney. The hostesses served their guests with a very appetizing lunch. Ira E. Hyde has returned from a trip to Yakima and Wenatchee where he looked over the apple situation. He found no high prices had yet been paid for fruit in that section. He says: "Investigation proves purchases in the above mentioned districts have not been made at the high prices reported. Certain interests are said to have reported these high sales without orders at those prices, evidently hoping to start the eastern buyer out at higher prices than his judgment dictated. The easterner did not bite but the grower's idea of prices was magnified and authority at Wenatchee now advises that of the 16,000 cars now to be harvested, hardly 2,000 cars have been sold, where fully half of them should have been definitely contracted. "Several of the most responsible buyers in Yakima and Wenatchee—some of them growers—are offering for Spitz, Newtown and Winesap, extra fancy, \$1.75; fancy, \$1.50; C grade, \$1.25, and are not anxious to buy at that. Delicious, \$2.65 to \$2.75, extra fancy; \$2.25 to \$2.50, fancy; and \$2 for C grade. Winter Banana, \$2.55 to \$2.75, extra fancy; \$2.25 for fancy; and \$1.75 for grade and as low as \$1.50 in a few instances. J. E. Smithson, of Hood River, manager of Oregon-Washington Telephone Co., was a White Salmon visitor Wednesday. Paul McKereher has returned from the east where he looked over the apple market. Everywhere he found little demand and buyers waiting. He had a few propositions made him at prices somewhat lower than any growers here would be willing to take. The truck driven by Ezra Kiser, in hauling crushed rock on the Snowden highway, went over into the canyon Thursday morning while trying to negotiate the turn at the Paradise Flat rock crusher, and crashed down 50 feet to the bottom. Mr. Kiser sustained a fractured arm and his fingers of his hand are also badly hurt. E. Weldon, of Husum, reports his flock of 92 White Leghorn hens, Tancred strain, average 211 eggs each the past year, from September 1, 1920, to August 31 of this year. This was their first laying year and in spite of high feed and low egg prices, each hen made him a net profit of two dollars. Mr. Weldon expects to increase his flock to 500 next year. Attorney George R. Wilbur, of Hood River, while in town Monday for a conference with directors of the White Salmon Irrigation project, reported preliminary arrangements progressing along as fast as could be expected. "Such preliminaries are necessarily slow," said Attorney Wilbur, "but we are pegging away and should soon have water for the fertile land to be included within the White Salmon Irrigation district."

The 1921 session of the legislature at the request of a great number of growers and shippers of the state changed the law so that the horticultural division of the State Department of Agriculture could issue certificates of inspection covering the grade and condition of fruits and vegetables. It is provided these certificates prima facie evidence in any court of the state, and provided that a fee sufficient to cover the cost of such inspection should be charged. There has been a strong demand for Federal Bureau of Markets inspection at the shipping point of fruits and vegetables, and at last this year arrangements were completed for co-operation between the United States Bureau of Markets and the State Department of Agriculture so that we are able to use a certificate of inspection similar in form to that used by the United States Bureau of Markets, and practically identical with that used in several other states including Idaho and California. M. F. S. Kinsey, of the United States Bureau of Markets was detailed to help supervise the inspection work in this state and Idaho in order to secure uniformity in this service with other parts of the United States. N. P. Railway Co. Boosts Berries W. H. Ormsby, traveling freight agent of the Northern Pacific Railway Co., of Portland, who was here Tuesday soliciting apple tonnage for his line, stated that his company had pioneered in establishing markets for the Hood River Clark Seedling strawberries. Mr. Ormsby was guest of C. O. Huelat at the Tuesday Lunch club meeting. "As is well known," said Mr. Ormsby, "the Hood River berry goes largely into the Montana and Dakota districts. Our line was largely instrumental in the early days in aiding the growers here in exploring the perfect-keeping, firm berries. We have found our activities have resulted in good to us and to the berry growers."

Club to Consider Arbuckle Case Mrs. William Munroe, president of the local club, who was in Portland Saturday, when the Oregon Federation of Women's Clubs adopted a resolution deprecating the recent Arbuckle incident in San Francisco, stated that the case of moving pictures would come before the local Woman's Club at its initial meeting for the season Wednesday afternoon, September 28. "While I haven't discussed the Arbuckle matter with other members of our organization," says Mrs. Munroe, "I, for one, feel the general problem of the motion picture show to be a serious one. As to the San Francisco episode I consider it a blot on contemporary times." Manager Kolstad, of the Liberty theatre, announces that "Crazy as a Marry," an Arbuckle film, scheduled for Hood River this week, had been cancelled. Bob Bruce Loses Whiskers Bearded like a pard, an expedition of the Educational Film corporation arrived in town from the region of Mount Adams. They looked so tough and hard-boiled when they entered the diner at Castle Rock, Wash., that, although the feed car was closed, the crew immediately proceeded to give them service. Joe Smith Marba, who was a dancing comedian in Cohan and other musical shows until he started out as a film actor this summer, looked so like a desperado that the colored waiters fumbled the silverware and the dishes every time they got near him. Robert Bruce, head of the expedition, shed fully three pounds of straw-colored whiskers in the first barberhop he struck on arriving in Portland. The expedition will have to go to the coast for the final scenes in the scenario being filmed.—Oregonian. Mr. Bruce, formerly White Salmon orchardist, is well known here.

N. P. Organizer Coming Announcement has been made through Park Grange that an organizer for the Non-Partisan League is scheduled to address valley audiences within the next few weeks. While the Grange states that its members are taking no stand in the matter of the league, it is announced that the speaker will be given a hearing. Amusement Co. Organized The Hood River Amusement Co. has been incorporated here by the following persons, J. H. Ferguson, Vera M. Kolstad and E. C. Smith. A capital stock of \$50,000, divided into 500 shares of a par value of \$100 each, is announced. Under management of A. S. Kolstad the concern will operate the new Rialto theatre. The Liberty theatre is already under its management. Tree Bears, Apples and Pears F. P. Zweigert, member of the clerical force of Kelly Bros. store, has been exhibiting a Wolf River apple, which weighs 33 ounces, and several 11-ounce d'Anjou pears, all grown on the same tree in his back yard. A scion of the Wolf River apple was grafted into a branch of the pear tree. Mr. Zweigert says that one of the apples is more than enough for a single pie at his home.

### FALL BORDEAUX MUST BE APPLIED

(By M. D. Armstrong) The grower needs to plan more carefully for and to execute more thoroughly than ever before, the application of the Bordeaux spray this fall. Practically every orchard in the Lower Valley and the larger percentage in the Upper Valley require this spray. To be efficient this spray must be on the trees before much rain has fallen. Already with the first rain the spores of this disease are beginning to fly about. From now on these spores will be disseminated just in proportion to the amount of any weather that we have, and with continuous days of damp weather will begin to grow into the bark. Therefore, the sooner the trees are covered with spray the better will be the protection. Thorough spraying will kill any spores that have not germinated and grown into the bark and will kill others as they are washed and scattered on the limbs. One good plan is to begin the spraying before the crop is fully harvested unless the orchard is small. This can easily be done if enough help is provided, or a little extra time put in, and thus the spraying is nearly accomplished by the time the picking is finished. Early varieties which have been picked can be sprayed at once and this much put out of the way. A very important thing is to have everything ready, machine in working order and material on hand and prepared, so that any odd time can be made use of in applying the spray. The time can be slackened and the vitriol dissolved though they should not be mixed together till ready to spray. The formula of 6 pounds of bluestone to 50 gallons of water is used. Trees must be sprayed the top and every limb covered. Care must be taken to clear through the tree and to wet the inside of the limb on the opposite side of the tree. The thick brushy trees and all their leaves require a great deal of spray. Some have no equipment to do the spraying when they would like and need to make special arrangement to have it done in time. On the other hand some growers who have equipment can be induced to help their neighbors who they can. This is a community problem and should be looked upon as such. Neighbors working together will solve this problem which will result in their mutual benefit. Plan to get this spray on, and then get it on.

### WOMAN'S CLUB NEWS

After a vacation of nearly four months the Hood River Woman's Club will hold its first meeting of the club year at Library hall, Wednesday, September 28. The president, Mrs. Wm. Munro, has planned a very active year and the members are assured some very interesting afternoons. The first afternoon, which the president wishes to make a home coming event, is in charge of Mrs. L. W. Bishop. Following the usual business meeting reports will be given by Mrs. Munroe and Mrs. C. H. Gastner of the annual meeting of the State Federation of Women's Clubs held at Pendleton last June. Mrs. E. J. Nicholson has prepared an interesting paper. Mrs. Wm. H. Metcalf, accompanied by Miss Sara Hines and Mrs. Floyd D. Numaker, will furnish the musical numbers. Mrs. Hartwig and Mrs. Link have charge of the decorating. After the program there will be a social hour during which the social committee will serve. It is hoped all members may attend.

Notice of School Meeting Notice is hereby given to the legal voters of School District No. 5 of Hood River County, State of Oregon, that a school meeting of said district will be held at school house, on the 10th day of October, 1921, at 8 o'clock in the afternoon for the purpose of discussing the budget hereinafter set out with the levying board, and to vote on the proposition of levying a special district tax. The total amount of money needed by the said school district during the fiscal year beginning on June 30, 1921, and ending June 30, 1922, is estimated in the following budget and includes the amounts to be received from the county school fund, state school fund, elementary school fund, special district tax, and all other moneys of the district:

BUDGET	
Estimated Expenditures	
Personal Service:	
1 Principal.....	\$1,125.00
1 Teachers.....	3,750.00
1 Janitors.....	675.00
1 Clerk.....	40.00
Total.....	\$ 5,620.00
Material and Supplies:	
Furniture (desks, chairs, stoves, etc.)	\$ 332.00
Fuel.....	400.00
Light.....	200.00
Total.....	\$ 932.00
Construction:	
Water System.....	\$ 850.00
Total.....	\$ 850.00
Assessments (Highways, Roads, Streets, Bridges):	
Water Tax.....	\$ 13.54
Total.....	\$ 13.54
Indebtedness:	
Bonded, and interest thereon.....	\$1,500.00
Warrant, and interest thereon.....	7,565.00
Total.....	\$ 9,065.00
Insurance:	
Total.....	\$ 476.00

Estimated Receipts:	
From county school fund during the coming school year.....	\$2,500.00
From state school fund during the coming school year.....	350.00
From elementary school fund during the coming school year.....	1,700.00
Total estimated receipts not including proposed tax.....	\$ 4,550.00
Recapitulation:	
Total estimated expenses for the year.....	\$16,966.54
Total estimated receipts not including proposed tax.....	4,550.00
Balance, amount to be raised by district tax.....	\$12,416.54
Dated this 12th day of September, 1921.	
Attest: John C. Duckwall, District Clerk.	
H. S. Galligan, Board of Directors.	

### MIDDLE FORK DISTRICT IS VOTED

Ranchers of the Upper Valley community in the vicinity of Parkdale by a vote of 53 to 9 have voted to convert the Middle Fork Irrigation Co., operated as a joint stock company, into a bonded irrigation district. Directors of the new district were named as follows: C. C. Walton, Isaac Beal and C. E. McIntosh. The Middle Fork Irrigation District is the third to be formed in the valley. Next to the East Fork District, which covers the East Side orchards and ranches of the Lower Valley, it includes the largest acreage of the fruit section, a total of approximately 5,000 acres lying under the system. Every grower should see the "Small Growers Model," Cutler grader now being displayed at the Mt. Hood Motor Co. show room. Requires small amount of space to operate and small amount of cash to buy. j2001t

### HOOD RIVER IRRIGATION DISTRICT

Notice is hereby given that the Assessment Roll for 1921 has been completed and is in the hands of the Secretary and that the board will sit as a board of equalization at the office of the board on Tuesday, October 4, 1921, at 2 o'clock p. m. By order of the Board of Directors. F. Fenwick, Secretary.

Notice of Budget Meeting The following budget has been prepared by the Budget Committee of Hood River Irrigation District as a budget of expenditures for the year 1922 and as a basis for the 1922 assessment:

Interest on Bonds.....	\$ 9,496.32
Manager's Salary.....	1,500.00
