

Get More Profits by Clearing More Land!

Measure the Profit of Your Stump Land—Cleared!

PLAN right now to clear off more land before planting—and after harvest, too. Use the "off-seasons" to provide for bigger profits on future crops. One crop usually pays the entire cost of clearing and leaves a profit besides. All following crops are clear profit.

The great land-clearing movement that swept the country in 1920 is even stronger in 1921—farmers the country over are clearing more land this year than ever before.

The modern way is to use dynamite for blasting out stumps and boulders, for this method is very rapid, reasonable in cost and leaves the land in good condition for cultivation. The majority of farmers use

STUMPING POWDERS
Du Pont and Repauno Brands
(Pacific Northwest Products)

which have done and are doing highly efficient and economical work in the clearing of hundreds of thousands of acres. See our dealer for Du Pont Stumping Powders. Write for free book, "Developing Logged-off Lands."

WASCO FAIR TO HAVE HOOD DAY

Cash premiums of \$35,000 will be distributed at the Wasco county fair to be held at The Dalles this week. Indications are that the fair will be one of the biggest ever held in the city. The fair grounds opened for the reception of displays Wednesday and no exhibits will be received after that day. Judging will be done Friday.

Each morning during the fair there will be a parade featuring cowboys and cowgirls, led by "Ted" Soudemeyer. Prizes will be given for the most effective costumes. Seventeen riders and 20 racing horses have been obtained for the rodeo. Friday will be Hood River county and Sherman county day. Most of the business houses in The Dalles will be closed during the day to give The Dalles men a chance to entertain the visitors.

BOWLING NEWS

Hood River bowling fans were treated to two hair-raising finishes by the Blue Diamond team Sunday afternoon, when the Hood River boys defeated the Portland City league leaders, the Longshoremans, two games to one, in the first of five scheduled league matches to be rolled on the Blue Diamond alleys.

After the visitors had received a gift of the first game in a horrible contest, 828 to 775, and had started off with a lead in the first half of the next, the locals came to life with a vengeance and piled up the doubles, threes and fours, and a seven in a row, winding up the game with a magnificent 984 score, having rolled 885 in the last half of the game.

The third game was a see-saw affair, not settled till the last frame was rolled, the locals finally winning out by 16 pins, largely owing to Alva Sherrell's "roddies," and Green's turkey at the finish. House got high single game, 225, and high three games, 877. Nordstrom's 203 and 543 was high for the visitors. The Longshoremans highly praised the local alleys and their treatment from the boys. The highway trip was new to most of them and the ideal weather gave them a wonderful first trip. Next week Monday at 8 o'clock the locals tangle with the Kelly Olympian bunch.

Detailed scores for Sunday's games:

Longshoremans			
Eagen	179	183	146
Eckerlein	138	165	171
Nordstrom	162	178	203
Hahn	171	179	161
Blasich	178	180	154
	828	885	835
Blue Diamonds			
Sherrell	132	170	203
Annala	108	180	166
Green	154	206	146
Poe	167	203	138
House	154	225	198
	775	984	851

The new handicap list for October is now posted. The ratings are handled differently from last year. Instead of the complicated figuring, dividing bowlers by five points, all men are divided into four classes, A, B, C, and Novice. Women are in three classes, A, B, and Novice.

Both A classes are scratch. For the men, Class B gets 12 handicap; Class C, 25, and Novice, 35 handicap per game. For the women, Class B gets 12 points, and Novices, 25 points handicap per game. These handicaps apply to the daily prizes, and form a basis for league membership.

The prize list went into effect Saturday, Zack Annala winning the men's prize with a score of 248, and Mrs. DeWitt winning the women's silver spoon with the fine score of 107, which is, incidentally, the women's single game record to date for the season.

To Mrs. F. H. Kingdon and Mrs. George Mellon goes the honor of breaking the first alley records of the season, when they hung up 237 for single game and 827 for three games, women's doubles. The former records, made by Mrs. DeWitt and Mrs. Peters in the spring tournament, were 258 and 731.

Women's Auxiliary Meeting

Women's Auxiliary to the American Legion held its monthly meeting Saturday. Plans for the December bazaar were discussed. The relief committee plans to send Thanksgiving boxes to ex-service men in a Portland hospital. Mrs. Harold Herchner, president of the Unit, goes to Kansas City the last of this month as one of six state delegates to the national Legion convention.

Hood River people are invited to spend a pleasant evening at the Auxiliary card party Friday evening at the Lotus Grille. Tables can be reserved for Bridge, Five Hundred or Whist. The committee promises good eats and a good time.

Sinnott to Distribute Seeds

Congressman Sinnott has notified the Glacier that he will make distribution of government seeds allotted to him this year through the papers in his district as this method has proved so successful for several years in getting same into the hands of those who most desired them. There will be several thousand more seeds allotted to each member of congress this year than there were last year. Congressman Sinnott will send a package of seeds to any constituent writing directly to him at Washington, after they are ready for distribution; some time after the first of the year.

Prisoners' Families Seek Aid

The families of Tamp Osburn and Henry Morley, who were each recently sentenced to 30 days in jail and assessed a fine of \$100 on bootleg charges have appealed to the county court for aid. They declare they lack support with the heads of the families incarcerated. The Morley family resided in Skamania county, Washington, until the husband was arrested and sentenced. They moved here immediately. The local court has no power to return them, and the two families will probably become county charges. The men are serving out their time in the Wasco county jail at The Dalles.

Will Open Cafeteria

L. M. Bentley is engaged in making a new entrance into the Lotus Grille from the stairway leading to the Mt. Hood Annex. The improvement will add greatly to the appearance of the fine large dining room and will be an entrance readily seen by patrons, especially strangers. The former grille will be turned into a cafeteria and operated by Chas. Gunn, chef of the Mt. Hood Hotel.

INSPECTOR SOUNDS WARNING TO GROWERS

The following letter has been sent growers by Fruit Inspector Armstrong:

You doubtless realize how important the control of anthracnose is getting to be in the production of clean orchards and apples in this valley. The control of this disease will never be obtained until orchard owners will prevent new infection from getting started. To do this the Bordeaux spray must be on the trees before the spores, which are the seeds of the disease, have germinated and grown into the bark of the tree. These spores commence to fly about as soon as a good rain has wet up the old cankers, and will germinate and grow into the bark of the tree or through the skin of the apple when the weather continues moist for several days at a time. The August spray of Bordeaux prevents these early infections, but unless a spring spray has been put on, it should be followed by a fall spray of greater strength to withstand the winter rains. If your orchard has received neither of the early sprays it is very important that Bordeaux spray be put on just as soon as possible, and I wish to urge that you use every means to get it on as fast as the apples come off. Spray machines and material should be ready and every opportunity taken to spray such trees as have been picked. With large orchards a little extra help will be much worth while, if the spraying can be accomplished while the picking is being done. However, this work must not be left to inexperienced men. With the smaller orchards a little extra time will insure the same thing. The future welfare of your orchards is very important, as well as that of your immediate crop.

Help to get a thorough control of the disease this fall by early after-harvest spraying, and by urging and assisting your neighbors to do likewise. Plan to get it on and then get it on.

Yellow varieties which received the August spray should be picked as soon as possible to avoid any possibility of red spotting in case of excessive rain.

The Experiment Station reports that the spring applications of Bordeaux and Bordeaux oil look very promising for the control of anthracnose, and if so will help to solve this problem. However, more will be determined as to this before it is time for this spray in the spring.
