- Mt. Hood Motor Co.
- R. J. McIsaac, Parkdale.
- Consolidated Mercantile Co., Odell.
- W. E. Chown, Mosier.
- Heights Tire Shop.

CULL APPLES SELLING \$100 TON NEW JERSEY

According to A. Freeman Mason, formerly of Hood River, but now in charge of the Experiment Station in New Jersey, who was here last week visiting friends, apples are being sold to mincefactories in that state for \$100 a ton. The crop is very light in the east, and many farmers are loading the apples loose in box cars and shipping them to the mincefactories. This includes all grades, from the best to the culls, just as they come from the orchard, without packing or sorting. Mr. Freeman says he cannot understand the talk of comparatively low prices and limited demand in the east, or why the buyers are so cautious about bidding for the fruit, as the eastern markets must depend upon the west this year for their apples. The high prices being paid there by the canners and mincefactories is an indication that western box apples should meet with a ready sale at good prices.

Mrs. Carl to Lecture October 10
Mrs. Linnie Carl, social educator of national experience, will be at the high school auditorium Monday night, October 10, at 8 o'clock. Mrs. Carl has a pleasing manner and is said to be one of the finest speakers on the platform today. She is a talented impersonator and reader and those who fail to hear her will certainly miss a treat.

St. Mark's Entertains

An enjoyable evening was spent by the members of St. Mark's church last Monday, at the home of Mr. and Mrs. J. W. Crites, in honor of Bishop Paddock and Rev. G. G. Hoisholt, who has just completed his first year as rector here. Addresses were made by the Bishop and Mr. Hoisholt and plans for the future were discussed. Mrs. W. G. Snow outlined an interesting program for the work of the Woman's Auxiliary for the winter and a number of coming events were announced. Next Sunday Rev. Oberholzer, of Tacoma, educational secretary for the diocese of Olympia, will visit St. Mark's Sunday school and in the afternoon will address the teachers on the "Christian Nurture" series of lessons now in use. Mr. Oberholzer will also preach at the service at 7:30 in the evening. October 14 Mrs. Crandall, of The Dalles, secretary of the Woman's Auxiliary for the District of Eastern Oregon, will be the guest of the women of the parish at the home of Mrs. Kanaga, for the purpose of reporting to them on the meeting of the Synod held recently in Salt Lake. During the last week in October Mrs. Edna Billers, widow of the late Bishop of South Dakota, will visit Hood River in the interest of the Church Service League. A luncheon will be given in Mrs. Billers' honor and all the women of the church given an opportunity to meet her and hear her speak.

All films left with us up to 4 o'clock p.m. are out the following day at 4 p.m. In at four out at four.—Slocum-Dannerberg Co.

The Story of Our States

By JONATHAN BRACE
XVII.—OHIO

THE Northwest Territory, of which Ohio is a part, was a bone of contention between Spain, France and England. Spain's claim was based on the voyage of De Soto up the Mississippi river. France, through the explorations of La Salle from the north and the early entry of French priests from Canada, considered this territory theirs. As for England, she rested her claims on the discovery of North America by the Cabots, and in the charter granted to Virginia included all the country lying to the West.

The French were the first to get a foothold in Ohio, but the English pioneers, who shortly began to drift westward, firmly established their settlements in the fertile Ohio valley. After a long period of warfare, in which the Indians played a leading part, the Northwest Territory was finally ceded to the United States by the Treaty of Independence in 1783. And Virginia and other states, which had laid claim to portions of this region turned over their rights to the federal government.

The government of the Northwest Territory was formally created by the ordinance of 1787. People from the East migrated into this territory in such numbers that by 1803 Ohio was taken into the Union as the seventeenth state. The fourth largest state in size of population, Ohio has 24 electoral votes for President, while in area, with its 41,040 square miles, it ranks only thirty-fifth, which shows how densely it is populated. It is noted as the state of Presidents. President Harding makes the seventh Ohioan to fill the presidential office.

The name Ohio is derived from the Iroquois word O-hee-yo, meaning "beautiful river." It was first applied by the Indians of the Five Nations to what we now call the Allegheny river, one of the chief tributaries of the Ohio. Gradually the name came to include the whole river, sometimes even being applied to the Mississippi. Later it was confined to the river between Pittsburg and Cairo, and appropriately the first state formed on its northern bank was named after it. Ohio is often called the Buckeye State from its large number of horsechestnut trees.

The Story of Our States

By JONATHAN BRACE
XVIII.—LOUISIANA

THE discovery of Louisiana dates back to the beginning of the sixteenth century, when the Spanish explorers, Alvarez de Pineda and De Soto sailed up the Mississippi. In 1682 La Salle descended the Mississippi and took possession of the entire valley in the name of the French king, Louis XIV. In his honor this region was named Louisiana. French colonies soon sprang up, including New Orleans, which was founded in 1718.

An interesting chapter of Louisiana was the formation of the Company of the West by a financial schemer named John Law. This company ostensibly was to exploit the new colony and held out to speculators an alluring get-rich-quick scheme. In 1763 France ceded Louisiana east of the Mississippi to England, and, by secret treaty, New Orleans and the western territory went to Spain. Spanish rule proved unendurable to the inhabitants and the restrictions over the navigation of the Mississippi led to hostilities between the northern American settlements and Spain. This situation, however, was brought to a peaceful termination by Spain relinquishing her rights to this territory to France and the purchase in 1803 by the United States from France of the entire Louisiana territory.

The southern portion of this acquisition was organized as the territory of Orleans and in 1812 was admitted as the eighteenth state of the Union, with an area of 48,500 square miles. As the Louisiana coat-of-arms has a pelican in its center, the state is often called the Pelican State.

"Star Brand Shoes are Better"

WHY?

ARE THEY BETTER

Here are Five Outstanding Reasons

- Sole Leather Counters**
The counter in a shoe is not seen but it is one of the parts that receives the most strain and stress and determines the life of a shoe. Star Brand Shoes don't skimp in quality. Sole Leather Counters of the very highest quality are used.
- Full Vamp**
Not cut off under tip. This is one of those hidden places where Star Brand Shoes lead in quality. They are full vamp shoes—that means, no tearing or ripping of vamp, easy repairing of tip when worn, more comfort and longer wear of shoe.
- Full Grain One Piece Oak Innersole**
Do you know that many work shoes are cheapened by split insoles or inferior grain insoles. Here again Star Brand Shoes lead with solid full grain oak insoles.
- Oak Soles of the Highest Quality**
are cut from the best part of the leather by our own workmen. The largest and finest size files are used. The weakest point in other shoes—the sole—is made the strongest in Star Brand Shoes.
- Work Shoe Specialization**
The large modern factory where nothing but work shoes are made by the most expert operators. It's the extra care and attention, the close inspection at every stage of manufacture, that makes Star Brand Shoes better.
