The old reliable kind that keeps on giving service year after year through summer's suns and winter's snows.

OUR CAR LOAD BUYING means adequate stock and lowest prices.

Let us show you the difference between RUBBEROID and ordinary kinds.

There are several different weights of RUBBEROID, made for various requirements, but all of one quality.

## RESISTO

The lower priced roofing—fine where heavy duty is not required.

A benefit social for Russian relief was given last Saturday in grange hall by Finnish residents of the valley. A large number attended and a good round sum was collected and forwarded.

Many orchardists have finished picking and delivering to warehouses. Given another week many more will have delivered their fruit if warehouses can continue receiving, but congestion is now the common condition and cars cannot be secured as needed. The big Apple Growers Association warehouse has received daily between 7,000 and 8,000 boxes, other warehouses in proportion, and one can readily figure the time necessary to keep warehouse space clear for incoming fruit.

Odell grange announces a dance at the local hall for Friday, tomorrow, night.

Shippers Worried Tuesday  
Appeals of apple shippers for an increased allotment of refrigerator cars,

in order that as much of the heavy tonnage as possible might be moved to points of distribution before the impending railway strike goes into effect, have been unavailing. Tuesday shipping received but 14 cars. Nine reefers were dispatched to points on the line of the Mt. Hood R. R. Co. and five were loaded at the big warehouses locally. Apple men expressed serious alarm at the situation. Preparations are being made to convert all available space in the city into frost proof storage.

# LUMBER MILLS ADVANCE PRICES

During the past year and a half lumber values have dropped until the bed rock level of the past summer was reached, at which time mill prices were below the cost of production. That the low point is past and that prices are now advancing has been shown to us very clearly in recent quotations. Several weeks ago shingles and lath made marked advances. Last summer we sold shingles for \$3.25 which we must now sell at \$4.50; lath which during the summer were \$5.25 now sell for \$6.50. Latest quotations to us from the mills show advances throughout the entire lumber list ranging from one to ten dollars per thousand. Prospects for a big building year the country over in 1922, have stimulated the demand in eastern markets. Retail yards are already starting to place orders for spring stocks. The increased demand is naturally reflected in the prices at western mills. Most of the advance we are absorbing but when present stocks are exhausted we shall be forced to follow the wholesale market.

We pass this information on to you in the hope that it may save you money. If you need lumber this fall, we advise buying now while the price is down.
