Glenn B. Hunt, who is now with the Standard Oil Co. at La Grande, is here visiting friends.
Mrs. B. L. Clark and children are in Kellogg, Ida., visiting her mother, Mrs. M. H. Brown.
Do not wait. Make your appointment to-day for your Christmas Photos, at the Deitz Studio. 211f
10-in. and 4 ft. wood, gravel and general hauling. Phone McEae Transfer, 2314, evenings. 211f
See Howell Bros., Fourth and Columbia Streets, when you want a good job of repairing on your automobile. 211f
The Uptegrove sale of household goods and farm implements, advertised for December 26, has been changed to Saturday, December 3.

Douglas Mularkey, editor of the Redmond Spokesman, en route to Portland, stopped here last week for a visit with friends.
Miss Opal Callison, who for the past year has been in charge of the books at the Hood River Garage, has returned to Pendleton.
It's an ill wind that blows nobody good. E. E. House says that this is fine bowling weather.
The barn of C. S. Hunter, in the Odell district, collapsed Monday. A spray rig and apple grading machine were ruined.
The weather was too much Monday night for the City Dads. They dared not encounter the severe elements and the council meeting for that night was postponed for better weather.
City Recorder Howe reports that the snowstorm changed the architectural style of his chickenhouse. Formerly he had a gable roof. Now he has a flat roof.
The local correspondents of Portland papers have been in a bad position this week. Boreas has sat tight as a censor, and with wires down news has been breaking fast, but none could be sent to the outside world. The reporters were all dressed up with no place to go.
Have you seen the East Side grade lately? If so you are keener of vision than most of those who have tried to find where the old cut rambles around the Hood river gorge. The ditches have completely filled the road, and Roadmaster Nichols is wondering how to begin breaking it out.
The old shed at the Shelley feedyard, at the corner of First and State streets, is a heap of debris and snow. It collapsed Sunday night. A number of vehicles under the shed, and a truck belonging to Night Marshal M. B. Webster, were badly damaged.
A stranger shoveler on Monday got a thrill from his work and incidentally created some excitement at the Iroquois building. The man walked atop the snow that had settled on a skylight. Down he went, with an avalanche of snow and sleet. The man was not injured. The skylight was ruined.
We need no golf links here, according to C. J. Calkins. Indeed, according to Mr. Calkins, Hood River needs nothing in the way of recreation to give its men exercise. He declares that the men of Hood River the past five days have had enough exercise at the business end of snow shovels to last them for years and years.
The weight of the snow was too much for the old shed on the east side of the old McDonald hardware store, now owned by E. A. Franz. It went down Tuesday. L. S. Ienberg, ever ready to turn a bad happening into something good, is using the cave-in to advertise his Argo hotel. "We have just held our winter opening," he says.
Local folk missed their Sunday Portland papers last Sunday. It was said to have been the first time since general delivery was made of the Portland dailies here that local folk had found it necessary to forego their Sunday Oregonians. With wires down, Hood River people have not yet learned how the 1925 fair election resulted. The Disarmament conference is proceeding with local folk all unaware of the action of the delegates. Local folk are also eager to know the extent of the snow storm.
The Baptist Church
Sunday school opens at 10 a. m. sharp, followed by a morning service. Sermon will be on "Signs of Christ's Coming." At 6:30 the B. Y. P. U. will meet. Subject discussed, "The Creation" or Moses and Modern Science. At the night service, the subject will be "Pass It On." Prayer meeting Wednesday at 7:30. Subject to be decided on at the Sunday morning service. C. R. Delepine, Pastor.

SNOWFLAKES

The Hood River Gun club's turkey shoot, scheduled for Sunday, has been postponed indefinitely.
It's an ill wind that blows nobody good. E. E. House says that this is fine bowling weather.
The barn of C. S. Hunter, in the Odell district, collapsed Monday. A spray rig and apple grading machine were ruined.
The weather was too much Monday night for the City Dads. They dared not encounter the severe elements and the council meeting for that night was postponed for better weather.

KEEP WARM

LEGION WILL GIVE A DANCE TONIGHT

Because of the weather conditions the Volunteer Fire Department, the members of which had scheduled their 17th annual ball for tonight, turned over the Pythian hall to the American Legion for a dancing party. The Legion members, it is expected, will be hosts to a large crowd of merry-makers.
The firemen have postponed their annual dance until the evening of December 26.
Storm General in Northwest
Reports that have come in from the outside world, while rather vague and indefinite, indicate that the snowstorm that has paralyzed the Hood River valley, was general over all the northwest. The last telegraphic communication from Portland was received Sunday afternoon by way of Seattle and Spokane. Since then wires have been out. Sunday the O.-W. R. & N. line had a wire working intermittently.
The heaviest damage in the vicinity of Portland, according to reports, was from ice. A silver hawk prevailed, fairly moving telephone, and telegraph and electric light wires. To the east of The Dalles the rail line may be quickly cleared. The snow, however, is deep, but the topography of the country will not permit of the heavy slides of rocks that is causing the O.-W. R. & N. Co. so much trouble west of here.
Monday night the engineer of the locomotive driving the rotary snow plow reported that the drifts of snow on the rail line in the Lindsay creek vicinity were up to the top of the telephone poles.
Sunday an O.-W. R. & N. passenger train was wrecked near Celilo.

THREE CASUALTIES FROM SNOW STORM

A. G. Brady and Theodore Mulkey, loggers who were lost Sunday while en route from a camp of the Oregon Lumber Co. on the upper west fork of Hood river, were brought to the Cottage hospital Tuesday night, both suffering from badly frozen feet. Five companions passed the night lost in the wilds without injury. The men's legs, it is said, will be saved.
A Japanese rancher, whose name has not been learned, fell 400 feet Tuesday from an irrigation ditch into the Hood river gorge near Blancher station. He lost his footing on the slippery snow while walking into a settlement to get supplies. Ranchers on the opposite side of the river heard his cries but were unable to reach him. A large posse of whites and Japanese tried vainly to dig a trail up the river to the injured man. He was finally rescued by a fellow Japanese rancher, who descended by means of ropes. His injuries were miraculously limited to a lacerated face and a badly bruised shoulder.
Railway officials reported yesterday that no trains will run between here and Portland for a week, due to slides on both sides of Wyeth. It is reported that a boat from Portland would bring mail and provisions, but no one is able to secure definite information. A train from the east may be expected considerably sooner. Wire communication has been established with the outside world by way of Spokane, but only long delayed messages have been received to date.
County officials began breaking valley roads yesterday with a cleat. With ranchers unable to deliver cream to the creamery, the butter supply is running low. A meat famine will prevail unless supplies are received soon.
A new slide of gigantic proportions occurred on the Highway between here and Mosier yesterday. Scores of enormous slides cover the Highway between here and Bonneville. It is not anticipated that the road will be opened before spring.

THE HOUSE OF PERSONAL SERVICE

Near East Children Starve
Under the shadow of Mt. Ararat I saw 14 orphanages filled with beautiful, happy children saved from death by the Near East Relief. Because our orphanages are packed to the doors I saw hundreds of others in the streets of Erivan just outside these same orphanages' doors. The children inside were happy, those outside were aged from suffering, gaunt from hunger, naked or if they were clothed at all their gaunt and bloated little bodies were covered with the most unspeakable sores.
I saw the splendid efforts being made to save these children and came back thrilled with the purpose to tell Oregon of the wonderful service given the stricken people of the Near East by our relief workers.
The above was part of the message brought by J. J. Handsaker, state director of the Near East Relief to the state conference at Portland recently.
Mr. Handsaker announced a program calling for the collection of food, clothing and funds from every county with a special emphasis on the Christmas offering from Sunday schools.
Snow Postpones Wedding
The snow storm will result in postponement of the wedding of Miss Annamae Chipping and Archibald Kingsley, of Portland, scheduled for Saturday night, unless train service is restored. Wedding plans called for an elaborate social event, and many Portland guests were expected here.
Mr. Kingsley, according to last reports received here, was caught on a snowbound train while en route here last Saturday evening for a week end visit.
How Starvation Creek Was Named
History repeats, according to O. W. McEntee, engineer of a locomotive that has been used here this week in driving a rotary snowplow clearing the O.-W. R. & N. track. Mr. McEntee, who was a guest at the Mt. Hood hotel, was a fireman on a locomotive drawing a train that was snowbound at Starvation creek, 10 miles west of here in 1884.
"We were held there for four weeks," said Mr. McEntee, "and our supplies ran so short that we certainly ate heartily when we were once released. We named that stream, now a landmark on the Columbia River Highway, Starvation creek."
News of Mrs. Bone Anxiously Awaited
The many friends of Mrs. Noah W. Bone have been anxiously awaiting news of her condition. Before the wires went out Saturday a message was received here stating that Mrs. Bone who had been taken to a Portland sanitarium, was very low. Her husband, Mr. and Mrs. C. R. Bone and Mrs. J. C. N. Clarke had been called to Portland by her serious condition.
During December and January we will do shop work on our own products, Buick, Chevrolet, Bean Sprayer and Cletracs at \$1 per hour. This is your chance to get mechanics that understand your car at a real bargain. Hood River Garage.
