### A. A. CORRECTS MISTAKEN FIGURES

The Hood River Anti-Asiatic Association has written to the Dearborn Independent, Henry Ford's paper, asking the correction of a glaring error in valley statistics on inroads of Japanese land owners. In an article dealing with Japanese aggression on the Pacific coast and published in a current number of the weekly paper, it is stated that 92 per cent of the valley fruit products are furnished shipping concerns by Japanese; and that the Orientals are acquiring new land at the rate of 50,000 acres per year. The association, while thanking the Independent for its zeal in urging measures that will prevent further Japanese colonization, points out that but 116,000 boxes of apples, eight per cent of the total receipts of the Apple Growers Association are furnished by Japanese growers. It is also cited to the newspaper that the valley has but 13,000 acres of bearing orchard, with but 10,000 additional tillable acres in the entire district.

### Samuel's White Leghorns

After two years of adequate preparation, I am now equipped to supply Hood River folk, desiring to enter the chicken business or who wish to re-place pens of inferior stock with birds of a known reputation for laying, with a limited number of day-old chicks.

My White Leghorns originated from the Hanson strain of Corvallis. The hens have sufficient weight to make them admirable meat fowls and coupled with this is a general average egg production that is second to none.

You are invited to call and see my flock by appointment. Now booking orders. March and April chicks 17 1/2 cents each; later delivery, 15 cents each. Do not delay placing orders, as my limit will soon be reached.

### LITTLE BOY DIES FOLLOWING SCALDS

Funeral services for little three-year old Albert Herman Franz, son of Mr. and Mrs. Bruno Franz, who succumbed Sunday night to burns sustained when he tripped backwards Saturday into a pan of hot water, were held Tuesday afternoon at the Anderson chapel. The services were conducted by the Christian Science church. Interment followed at Idlewild cemetery.

Mrs. Franz had prepared the water for mopping a floor. The little boy, a bright youngster beloved by all the neighbors, was playing at the time in another part of the house. The mother left her work for a moment. The little boy apparently had entered the room, walking backward, and had fallen into the pan of scalding water without seeing it.

### FACETIOUS REMARKS TAKEN SERIOUSLY

Editor Glacier: Two weeks ago your paper carried the report of a meeting of the Commercial club in which was contained a discussion as to the relative merits of trucks and rail lines as public carriers. The discussion arose from a talk given by that important official of the O. W. R. & N. Co., commonly and affectionately known as "Fred," in which he urged fair treatment of the railways.

Your reporter quoted me, accurately no doubt. However, he made me appear in the light of a critic of the railroads, failing to get the spirit of my remarks, through no fault of his. I was really speaking in a spirit of levity and was trying to get a "rise" out of Mr. Fredrick. It is true I did have a small claim against the railroads but while it has taken some little time to collect it on account of necessary forms, I have had such fine treatment by the agent and the freight clerks
