SCHOOL FIRE DRILLS

If you have poked fun at school fire drills you felt ashamed of yourself on reading an account of the fire at the Holladay school in Portland Monday. Five hundred youngsters marched safely from the structure, which burned fiercely over their heads. They reached safety in some 60 seconds.

This incident should cause us to congratulate ourselves on the recent local fire prevention activities. Jay Stevens the other day gave our adult population a fire talk that was a revelation to many, a revelation that may prevent fire loss here. Reels of moving pictures were shown the kiddies Monday. In each school a junior fire department is being organized. Let all of us enter into this new work with the seriousness that it merits.

Multnomah county had one mighty good reason for clearing the Columbia River Highway. It seems queer that none of the spellbinders thought to advance it. Portland has been the place of residence this winter of many unemployed men. It has been necessary to care for many through charitable organizations. Why should it not have been better to have allowed the men to maintain self respect and earn their living clearing the ice drifts on the Highway?

F. H. Blackman has made a record as an efficient, conscientious county commissioner. The duties of commissioner are rather arduous and oftentimes monotonous. There is much of work and little of pay, except in the regard of his fellow citizens. Mr. Blackman has been induced by friends to become a candidate for reelection. He deserves the support of the county's solid citizenry for his past record.

Better Fruit, of which Hood River is proud, for it was born here, continues to make progress. The magazine, devoted to the development of the great northwest fruit industry, comes forth this month in a new dress. A new design, showing an apple, with a new type style, appears on the cover page.

Congress, judging by press reports, will follow the demand of public opinion from every part of the country and continue the three per cent restrictive immigration law another year.

Officers were beginning to think last week end that modern times might have produced a Flying Dutchman of the air.

The only successful way to fight influenza is not to fight at all. Go to bed and keep quiet.

THE WEATHER

L. M. Baldwin played the part of "first robin of the season" in the local motoring world. Mr. Baldwin was apprehended by Speed Officer Wood while driving without his chauffeur's permit. The thoughtlessness cost him \$25 when he faced Justice of the Peace Othank.

Mr. Baldwin says he was caught unaware. He was working on the lawn, garbed in an old suit, preparing for spring gardening when neighbors and relatives arrived and his wife suggested a spin. The party hurried away in the car and the driver's license was left in the pocket of a coat hanging on a rack at home.

According to stories told by residents here shopping last week, the Indian colony to the east of the city is divided in two camps over claims of infallibility in weather prognostications. Recently when a snowfall was followed by a warm chinook a squaw announced to white friends that they might prepare garden plots; that spring was at hand.

Her statement was adjudged as untrue and extremely embarrassing to fellow tribesmen, who gave out the statement that the winter season of the mid-Columbia had been marked by the fall of but 15 snows, when all signs pointed to a total of 15 before the rock piles and dog tooth violets would lift their pretty heads from Columbia River Highway copes.

White friends, who have been following the alteration of the snow piles, express the belief that the snow prophets have the best of the argument. The 100th day of continual east wind and low temperature, except for a short period of an occasional day when the temperature rose to above freezing, prevailed Friday. The total snowfall has reached 11 feet and three inches.

"I have been here around 40 years," said Edna Locke last week. "and I have never seen a winter as severe as this."

Although a chill east wind continued to blow and the ground was covered with a grizzly thin blanket of snow, local folk were attracted Saturday by the chatter of robins. Scores of red breasts have arrived and seem cheerful, despite lingering winter. The birds appear ready to set about spring house building. Overtime indicates the arrival of the birds indicates that spring days and west winds are close at hand.

BLACKMAN WILL BE A CANDIDATE

F. H. Blackman, incumbent, has been persuaded by friends to seek the nomination for reelection to the office of county commissioner. Mr. Blackman, formerly of Washington, where he served in a similar county capacity before coming here, resides on a Pine Grove orchard place.

Caughy-Hunter The wedding of Miss Mabel Hunter, daughter of Mrs. Sarah Hunter, of the Odell district, and Ralph S. Caughy, orchardist of the district, was solemnized yesterday, Rev. W. B. Boddy officiating. The wedding occurred at the study of Mr. Boddy.

Mr. and Mrs. Caughy left immediately for Portland on a honeymoon trip.

JUDGE CASTNER IS PROPOSED BY G. A. R.

Canby Post, G. A. R., is promoting the candidacy of Judge Geo. R. Castner for commandership of the Department of Oregon at the election to be held at the June state encampment to be held at Newport. The local Post Saturday unanimously adopted a resolution requesting their comrade to allow his name to go before the state meeting.

"We, his Post comrades," the resolution reads, "take pleasure in presenting his name and respectfully ask his support."

Judge Castner, who with his wife is now visiting in Los Angeles, was formerly county judge here. He is a past commander of the local Post. Judge Castner served in Company H, 12th Michigan Infantry. He has resided here since 1884. He has attended a number of national encampments and delegate from the Oregon department.

VERY HEAVY LOCAL EXPORT TONNAGE

More than a half of the approximate 500,000 boxes of apples that have been shipped by direct water route, via the Panama Canal, to England this season from Portland and Seattle, have been furnished by the Apple Growers Association and Dan Wulfe. The Association's direct water tonnage will reach 150,000 boxes. Eight cargoes have already gone forward. The final shipment of the season is now being assembled in Portland for loading on the Gothic Star, due to sail Saturday.

Dan Wulfe Co. has shipped 124,000 boxes of apples, assembled from Hood River, White Salmon and Underwood. Most of the company's tonnage, however, was composed of Hood River Newtowns. The Oregon Growers' Cooperative Association furnished considerable tonnage for direct export.

Local shippers express themselves as pleased with the direct water handling of Newtowns, which, it is declared, have invariably arrived in good condition. It has been clearly demonstrated, according to P. F. Clark, that Oregon Newtowns can be handled successfully through the Panama Canal. He says that prices on the export stocks have been very satisfactory.

LOUISE LOVELY IS TO BE HERE SOON

Frank Hurst, personal manager of Louise Lovely, noted screen star, who in addition to the popularity on the silver screen has made a name for herself as a lecturer, was here Monday arranging for presentation of Miss Lovely and a company on March 29 and 30. Miss Lovely, who has appeared on the Orpheum stage and who has lectured on various chautauqua circuits, will accompany her picture, "Life's Greatest Question." She will put on a little comedy, "A Day at the Studio," which shows exactly how moving pictures are made. A camera man accompanies the company, and members of the audience will be called on to pose.

Miss Lovely begins a week's showing at the Rivoli theatre in Portland Sunday. Sunday afternoon she will deliver an address from the pulpit of one of Portland's leading churches. She is scheduled to talk before the Portland Chamber of Commerce and various other organizations. It is anticipated that she will address the Woman's club while here.

Mr. Hurst, a veteran of the show business, paid Hood River a first visit in 1884, when he came here to bill the town for the old W. Cole circus, which was appearing in Portland.

GROWERS MAKE MOST OF GOOD WEATHER

With cold, clear weather prevailing, orchardists of the valley have never been busier than at the present time. Weather conditions since last November have prevented any winter pruning, and many growers are overhauling power rigs, getting ready for the season's first applications of spray. Owners of strawberry tracks, as soon as the soil permits, will begin setting plants.

Indications are that growers will make heavy investments this season in power spray rigs of newer types. Because of lack of power in applying spray material, orchardists last season, it is said, resulted in heavy losses in many orchards. High powered pumps, experiment station experts declare, are needed in forcing the spray materials into the topmost branches of the trees.

Holman & Samuel Celebrate Birthday

The Sanitary Market and Grocery when the public Tuesday in honor of their second year in business. The market has made rapid advancement during the past year. The shop has been enlarged, making it one of the largest in town. A large number of people were served at luncheon during the day and the firm gave 50 pounds of Preferred Stock coffee to the first 50 names drawn. Each person entering was requested to register. Drawings were held at 10 a. m., 3 p. m., and 7 p. m.

The donors for the day were the following: Allen & Lewis Company, coffee; Tru Blu Biscuit Co., cookies; U. S. Bakery, Franz cakes; Log Cabin Baking Co., cookies; Parker House rolls and a birthday cake; Hood River Bakery, buns; Hood River Creamery, butter and fresh buttermilk; Swift & Co., boneless pickled pig feet; Pacific Fruit and Produce Co., fresh tomatoes.

Association Mails Checks

Checks aggregating an approximate \$200,000 have been mailed out by the Apple Growers Association the past week. The distribution, which also includes final returns on pear pools, all of which have been closed, was made on the following basis on apples: Arkansas Blacks Delicious, Hyde Kings, Jonathans, Oregon Reds, Red Checks, Rome Beauties, Winter Bananas, Winesaps, Spitzenburgs, and Orleys, \$1.20 per box on extra fancy; \$1 on fancy and 80 cents on C-grade; Newtowns, 90 cents per box, and all other varieties, 70 cents.

Returns are now coming in with reasonable regularity," says General Manager Stone, "and another distribution will be made within a short time."

A dance will be given Saturday at Underwood. Good music. All invited.

GUN CLUB MEMBERS SHOOT FROM BONFIRE

At the regular shoot for the prizes last Sunday the clay busters of the Hood River Gun club again showed their loyalty by a good attendance at the traps, and although a blinding bonfire threw a little cheer on the occasion, the weather was far from pleasant. While the shivers ran down the line the boys piled up the following scores:

Table with 3 columns: Name, Shot, Broke, Pct. Includes names like Dumboltan, Foreman, Haviland, Loughery, Frank, Cogt, Pooley, Davenport, Button, Bishop, Poland, Moller, Boyd, Poe.

The Vogt championship belt had easy traveling, Foreman carrying it away with a 42-42 run on the traps. A meeting of the club will be held in the telephone building next Friday evening, at 7.30 p. m.

FRENCH FORTUNE IS PLEDGED TO BANK

The private fortunes of the French families, estimated to be considerably in excess of \$500,000 will be thrown in the hands of the French families of the Dalles, the doors of which were closed Thursday morning, according to a statement made Saturday afternoon by O. B. Robertson, state bank examiner.

"Under ordinary circumstances I would hesitate in my official capacity to make a statement such as I shall now make pertaining to the French & Co. bankers, but I do not consider the case an ordinary one. I firmly and sincerely believe that this institution will reopen for business within a period of 10 to 15 days and perhaps sooner."

"I base my conclusions on the fact that the stockholders of the bank represent heavy financial interests in other lines, and they have turned over to me outside assets aggregating approximately one-half million dollars with instructions that I negotiate a loan against these assets in a sufficient sum to liquidate all of the slow and doubtful paper under criticism by the state banking department. There is nothing to prevent putting the institution in first-class shape provided a loan can be obtained on the securities to which I have above referred, and I feel quite positive it can be done."

"It is really a pleasure to me to state that the French families are willing and anxious to sacrifice their private fortunes for the purpose of preventing a loss to their depositors. In view of their attitude in the matter I feel that the depositors should refrain from making permanent banking connections in other quarters, for after this bank reopens with the bad and doubtful assets eliminated, it will be an institution thoroughly worthy of the support and patronage of its old clients."

O. B. Robertson, "State Bank Examiner."

THUN CITES DELAY IN ROAD CONSTRUCTION

Louis Thun, member of the board of commissioners of Skamania county, Washington, who was here Monday on business, says that Underwood and White Salmon people are now endeavoring to hasten construction the remainder of the new grade of the North Bank Highway between Underwood and Hingen.

"Contract is let," says Mr. Thun, "but the S. F. & S. R. Co., the line of which is paralleled by the new grade, has demanded a \$25,000 bond to guarantee them from loss in case of damage resulting from blasting over the rail line. This procedure has delayed the work, and an element of Goldendale citizens is now seeking to secure the funds allotted for the local work in order to apply it on the east end of the highway. This move to strengthen prospects for sale of bonds which it is proposed to issue for construction of a bridge across the Columbia just east of The Dalles."

New Auto Firm on Heights

Keenan & Williams is the name of a new automobile sales and service firm that has leased from Morse & Sparks a building on the Carmichael building, Twelfth street. The men, who have had experience in the automobile business in White Salmon, will open their new place soon with a full display of cars.

ANNUAL K. OF P. CONVENTION SOON

The annual district convention of Knights of Pythias lodges of the mid-Columbia will be held here next Tuesday evening, with Waucoma Lodge acting as host. Delegates will be present from Waucoma, The Dalles, Dufer and Cascade Lodges.

If weather conditions are good, it is anticipated that the attendance will be the largest ever present at a district convention. With the Columbia River Highway open between here and the Waucoma county points, the Pythians of the neighboring towns will motor here.

The Baptist Church

Next Sunday morning, topic, "A Flower, a Tower, and the Ladder," drawn from both by our Lord. At night, by request, the subject, will be "How Can Jesus Be God?" Sunday school at 10 a. m. Classes for all ages and a splendid corps of teachers.

Young Peoples' Society at 8.30 p. m. subject, "The Talents." Prayer meeting Wednesday, 7.30 p. m.; half an hour with Romans to follow the devotional meeting.

C. R. Delipino, Pastor.

A dance will be given Saturday at Underwood. Good music. All invited.

THE SAFEST PLACE TO TRADE IS AT See Our Window Display THE PARIS FAIR The Store of Biggest Values NEMO, GOSSARD AND AMERICAN LADY CORSETS

DR. KERR COMING SUNDAY EVENING

President W. J. Kerr, of Oregon Agricultural College, is to be the speaker at the Sunday Evening club which meets at Riverside church next Sunday evening.

The club is doing Hood River a very substantial service in bringing the notable man to the city who appears from time to time upon its platform. No one is held in higher esteem in this community than President Kerr for all the work he has done for all of the agricultural interests of the state and doubtless a large congregation will be out to greet him when he comes to the city Sunday evening.

Peculiar Accident on Highway

Two motor trucks participated in a peculiar accident on the Columbia River Highway Tuesday when a stretch of pavement near Herman creek caved in. The surfacing dropped about five feet. An investigation showed that the fill had been placed on an old plank. The work had been done by allowing the entire roadbed to break through. The cave-in is only a few feet across and the road was blocked only temporarily.

Junior Fire Departments Organized

Junior fire departments are being organized by the pupils of each of the city's schools. The departments will function in eliminating fire hazards at the school buildings and in conducting a general fire prevention campaign in the communities.

"Saving the Nation" Reels Shown

A large crowd was present at the Asbury Methodist church Sunday evening to witness reels, depicting results of vice attendant on the liquor evil. A lecture was given in connection with the picture.

Auxiliary St. Patrick Party

The Women's Auxiliary of the American Legion will host the St. Patrick's party at Library hall Saturday afternoon, March 18. All members are urged to bring their new members on this date, as they will be accepted without initiation fee. It is anticipated that the occasion will be one of the pleasantest in which the Auxiliary has ever participated. A lunch will be served and a program arranged.

WOMAN'S CLUB NEWS

The Woman's Relief Corps Wednesday afternoon of last week entertained at a silver tea in celebration of the Washington Birthday season. The illness of many members, suffering with mild attacks of influenza, interrupted plans somewhat. An impromptu program was given. Mrs. S. E. Bartness read an article on the discovery of Washington's lost diary. Mrs. J. C. Meyer gave a recitation. The meeting was closed with singing of The Star Spangled Banner.

The Relief Corps now has a membership of 175, only one other woman's organization, the Woman's club, having more members.

Miss Anne M. Lang, of The Dalles, for three years treasurer of the Oregon chapter of the Daughters of the American Revolution, and for five years prior to that a member of the state board, was elected state regent of the fraternity at the convention in Portland last week. Miss Lang is well known in Hood River.

FOR SALE

- For Sale—1918 Chevrolet touring for \$150.00 Motor just overhauled. In first class mechanical condition paint and tires in fair condition. Battery at service station. Half down and easy terms. See Joe Hayward at M. H. S. Co. m2
