

In order to better serve the interests of our customers and friends we wish to announce that we have arranged with the

## Mount Hood Motor Co.

to act as Sales Agents for

### "Friend" Sprayers

in the Hood River territory.

This will give down town representation with machines on exhibition at all times, together with repair parts and accessories quickly available. With cooperation of effort we can thus assure the very best service to all users of "Friend" Sprayers, for which we are now distributors and headquarters for the entire Northwest.

## HOOD RIVER SPRAY COMPANY

### Winter Pear Trees

Experts say that Winter Pears should be planted by Hood River growers who expect the best future profits. We have the trees.

Bosc, D'Anjou, Winter Nellis, standard winter varieties. We also have Bartletts and all the commercial apple varieties, peaches and cherries. All home garden fruits.

### Ideal Fruit and Nursery Co.

Aug. Guignard, Mgr., Tel. 5832

### Independent Berry Growers

It is none too soon for you to make preparations for your approaching harvest.

Crates and Harvest Supplies will be supplied to independent growers by us.

We will participate fully in this season's market deal, and expect to handle our product from a broader scope than usual because of the increase in independent tonnage. Come in and talk over your prospects with us.

### Hood River Produce Exchange

Phone 1934

### EVERYTHING ELECTRIC

Our bakery is equipped with the latest electrical apparatus, sanitary and so constructed as to make possible the making of

### Better Bread at a minimum of cost.

We really want to please the people of Hood River. First, last and always it will be our effort to sell you products of quality.

We invite the closest inspection. Call and see us in the Bartmess Building on Oak Street. Our location is as convenient as could be secured in the city. Take home for lunch some of our breads, pies, cakes or pastries. Buns and rolls a specialty.

### BRADLEY'S BAKERY

ASK YOUR GROCER FOR OUR BREAD AND YOU'LL GET IT

#### The Baptist Church

At the morning service the sermon will be on "The Saints." At night, by request, on "What is the Mission of the Church in the World." The text will be, "You are the Light of the World." The B. Y. P. U. at 6:30. Subject, "The Crossing of the Red Sea, and Miriam." Prayer meeting Wednesday at 8 p. m. The class of Mrs. Bennett will give a social Friday

evening. C. R. Delepine, Pastor.

#### First Forest Fire Seen

The season's first forest fire, burning on a wooded cove just west of White Salmon, attracted attention the first of the week. It is not anticipated that the fire will cause any damage. Use derbrush and ground litter remain too wet for it to spread to any great extent.

### FINAL APPLE CAR TO MOVE TODAY

Except for a single car, the Apple Growers Association has shipped the last of its 1921 apple tonnage, reaching 1,293,000 boxes. Next to the last car went forward Tuesday. The last will leave today. Total shipments of all fruit last season, including strawberries, cherries and pears, reached 1,841 carloads. The cooperative agency is now getting its warehouses in shape for strawberries. This crop, from present indications will not begin to roll in carload quantities until about June 10, a week later than normally. The Association has just forwarded to growers checks, aggregating \$240,000, in a cash distribution. Further distributions will reach about \$200,000. This may be forwarded to growers at one time in the final returns. However, in case collections on Nogatowns are delayed, all other varieties may be cleaned up before finals are made on this variety.

### CREAMERY DISPLAY ATTRACTS ATTENTION

No display in a series of home products exhibits being made by the First National Bank has created greater interest than one showing Oregon butter, product of the Hood River Creamery. The vari-colored cartons, declared one of the handsomest designs of a butter carton in the northwest, have been neatly arranged with a background painted by P. L. Manser. Cards show the comparative per capita bank deposits of six representative dairy sections and six grain and fruit districts. The dairying population has a much larger wealth, as indicated by the bank deposits.

The Hood River Creamery, a cooperative concern, has become one of the valley's most solid institutions, and sales of cream bring in all-the-home income to nearly every orchard home. Before the creamery was launched, most orchardists, even, purchased their butter and dairy products. Now Hood River supplies her own butter and shipments are being made to other towns.

A considerable business is done in pasteurized cream and buttermilk made from whole milk by culture processes. Manager W. M. Black, backed by a board of progressive fruit growers and ranchers, is planning a further development of the creamery. One of the cards prepared by Mr. Manser bears the following: "Contented cows make contented home, thrifty trees, thrifty plants and bumper crops."

C. C. Crew collaborated with Mr. Manser in making the exhibit. The display is especially attractive at night, electric bulbs having been placed to simulate the rising sun.

### GUN CLUB NEWS

H. S. Dumbolt and A. P. Davenport returned last week from Walla Walla, where they participated in a trap tournament staged by the Walla Walla Gun Club. Mr. Dumbolt, shooting at 50 pigeons, scored 519. Mr. Davenport's score was 529.

The fourth regular prize shoot of the Hood River Gun Club last Sunday brought out a number of the scatter-gun enthusiasts and considering the way the wind was blowing the boys were smashing the little tar hawks in a way that would do justice to any club, and some fine scores were made, especially by Davenport who topped the bunch with a clean score. The scores made were as follows, all the boys shooting at 25 targets.

| Class      | Score | Per Cent |
|------------|-------|----------|
| Davenport  | 25    | 100      |
| Dumbolt    | 25    | 100      |
| Frank      | 23    | 92       |
| Loughery   | 23    | 92       |
| Karr, Fred | 23    | 92       |
| Button     | 20    | 80       |
| Vogt       | 20    | 80       |
| Pooley     | 17    | 68       |

| Class    | Score | Per Cent |
|----------|-------|----------|
| Haviland | 20    | 80       |
| Bishop   | 18    | 72       |

| Class      | Score | Per Cent |
|------------|-------|----------|
| Road, Carl | 23    | 92       |
| Thompson   | 17    | 68       |

The Vogt championship belt was captured from Road by Davenport's clean score of 25 straight. Sunday, May 7, the boys go to Portland to shoot a three cornered match with the Portland and McMinville teams at the Everding traps of the Portland club.

#### White Salmon Prospects Fine

M. L. Dean, of Wenatchee, ex-chief of horticulture of Washington, now secretary of the state horticultural society, who was a recent visitor at White Salmon, had the following encouraging statement to make on fruit culture:

"Prospects for a good fruit crop this year are bright. I find a sort of pessimistic idea among people as to marketing conditions this year, which, I believe, is a wrong way to look at it. To support this theory we have but to recall conditions of two or three years ago when New York and other eastern states had bumper crops, yet the northwest based apples brought good prices. Those who grow good quality apples will have good market. The essential point with fruit growers is to increase yield of the orchard, and to grow a smaller percentage of low-grade fruit.

"It costs as much to cultivate, prune, spray and thin a crop of small apples as the large extra fancy, and when the small apples are placed on the market the price is always the minimum. We must increase the yield of our orchards to secure better profit. In Wenatchee five years ago the yield an acre was about 500 boxes. With fertilizers, those orchards have increased their yields to 1,000 and 1,200 boxes an acre."

Expert lath and ignition work. Hood River Garage.

#### Indoor Street Carnival

Snakes, fortune tellers, daws—coming!

There'll be Mabel, the snake charmer, and two real gypsy fortune tellers who read palms, peer into crystals, and all that. Then there'll be "Little Jim," the foot-high Hawaiian dwarf, and Sadie, the fat lady, "a dumber better things that can't be explained on paper."

There'll be candy, chewing gum, popcorn, ice cream, hot daws, and all the delicacies that a real honest goodness street carnival affords—right in the basement of Riverside church. Prizes at 8 p. m. Come and bring your grandmother and the kiddies.

This is Gift Book week at the library. Give a book. Leave it at the library. Good fiction especially desired.

"We believe ZEROLENE is the most efficient lubricant made for the modern automobile engine. If it were possible to make a better oil than ZEROLENE this company would make it."

The President of the Standard Oil Company (California), author of the statement quoted above, is right in believing that Zerolene is the best motor oil made. The lubrication engineers of this company have proved it repeatedly, by means of thousands of dynamometer and road tests of Zerolene and competing oils.

The reasons for Zerolene's superiority are: First, that the Standard Oil Company (California) possesses resources of crude oil and of manufacturing equipment and personnel that are unsurpassed in the entire petroleum industry. Second, that the engineers and chemists of this company have, from the beginning, been given carte blanche to make full use of these exceptional resources, and to spend all the time and money needed to develop a lubricant ideally suited to the needs of the modern internal combustion engine.

At the President's request, we are undertaking to tell the motorists of the Pacific Coast the story of Zerolene. We shall do this by means of a series of signed statements in the public press. These statements will set forth in plain language the requirements of an efficient motor lubricant, and the detailed reasons why Zerolene meets these requirements perfectly.

HOLMAN & SAMUEL Phone 1811

when you sell your fruits through regular channels. For you can positively get more money over a season by sending your fruits to us to be sold at public sale. Why? It's perfectly simple and logical. We get from 250 to 300 buyers to bid for your fruits every day and sell them to the highest bidder, while through ordinary sales channels there are only a small fraction of that number of buyers offered the commodity. A percentage of our sales is to retailers, who can afford to pay higher prices than if they had to sell to another middleman. Further, we return to the seller every single cent obtained for his fruit (less our small selling commission), and this fact he can verify from prices in the New York Daily Fruit Reporter. Everything we do is done in the spot light. Added to the greater profit on his goods, the seller gets the additional benefit when dealing with us of receiving his money 24 hours after sale. There are other equally important reasons for selling your fruits through us, whether you have a large or small shipment. Write for interesting booklet "More Dollars for Fruit Growers."
