

10% greater power

The energy of a storage battery is generated by the action of the solution on the "paste" of the plates.

By a special formula a superior "paste" of greater energy value and cohesive qualities has been compounded for Columbia plates.

Standard size Columbia Storage Batteries easily generate 10% greater power and likewise give 10% more service. The type for Dodge cars costs only \$38.00, exchange price. The size which fits 80% of all cars costs only \$24.65, exchange price.

(All prices f. o. b. San Francisco, Calif.)

Rd. 1, Box 136, tel. 42 Odell
Hood River, Ore.

OIL EDITOR RESORTS TO TECHNICAL EXCUSE

C. C. Crew, secretary of the Commercial Club, declares that Phil S. Patchin, assistant to the president of the Standard Oil Company, of California, is a prizewinner at making excuses. Recently the oil company printed a blossom number of the bulletin it issues as a house organ. A panoramic view of the Hood River valley was shown. But the caption under the cut read: "Panoramic view of Hood River valley orchards, Salem, Oregon, where blossomtime festivals are held annually, is about seventy miles, over a paved highway, from Portland."

Mr. Crew thought the caption a little misleading, and so wrote to the oil publication. He has just received this reply:

"We beg to acknowledge and thank you for your letter of April 18, concerning the legend under a panoramic view of Hood River valley, which appeared in the Standard Oil Bulletin for March."

"As you say, we do, indeed, know that Hood River is distinct in itself and some 120 miles from Salem. We do not wish a controversy to ensue from our effort to inform our readers about Oregon, but if you will examine the title carefully, you will observe that it is not as inaccurate as one would believe from a hasty reading. You will see a period after the word 'orchards,' and you will observe that the word 'Salem,' opens a new sentence which deals with that town."

"It might have been clearer, but it is not inaccurate."

MRS. NEFF'S FUNERAL HERE LAST FRIDAY

News was received here Wednesday of last week of the death at Reedville of Mrs. Elizabeth Kenny Neff, wife of W. E. Neff. Mrs. Neff was a sister of W. Ross Winans. She was the youngest of nine children of E. W. Winans, local pioneer aged 97 years, who now resides at Reedville. All her brothers and sisters survive. Funeral services were held Friday afternoon from Asbury Methodist church, Rev. Gabriel Sykes officiating. Interment followed at the Knights of Pythias cemetery.

Elizabeth Kenney Neff was born on May 28, 1864. She was married to William E. Neff in Portland June 15, 1887, coming to Hood River the same day and establishing their home until 1907, when they moved to Cornelius, thence to Reedville, Ore. Mrs. Neff became a Christian in 1888, uniting with the United Brethren church at Cornelius in 1912.

The following poem, as a tribute to his sister, and entitled, "Farewell Flowers," was written by W. Ross Winans:

We bring for thee, dear Sister ours,
'Ere thou art laid to rest,
With loving hearts sweet farewell flowers

To lay upon thy breast;
Wild roses and forget-me-nots—
Now thou art called to die,
Shall grow upon thy burial lots
To say our last goodbye.

Thou art not dead—but sleeping,
More beautiful to rise,
In Heaven there's no more weeping
Nor sorrowful goodbyes:

Then meet us on that mystic strand,
On Jordan's distant shore
As each member of our band
Crosses to return no more.

Refrain
Sister, thy life was like thy mother's,
Patient, loving, kind and true,
Husband, father, sisters, brothers
Lovingly remember you;

In the twilight shadows falling,
While we miss thee from our home,
Sister, thou art calling, calling,
Calling, calling us to come.

Gill Wasco Manager

F. M. Gill, of Dufur, has been appointed field manager of the Oregon Growers' Cooperative Association at The Dalles, succeeding J. H. Frazier, who is no longer connected with the cooperative concern. Mr. Gill will not only act in a sales capacity but will advise growers as to spray applications and cultural methods. The association this year will place a salesman on the road in northwestern states, securing orders for less than carlots of fruits and produce.

GUN CLUB NEWS

The shooting match held at Portland last Sunday, and participated in by the Hood River, Portland and McMinnville teams, was an easy victory for the Hood River team, they annihilating 446 of the little tar saucers while Portland could claim only 413 and McMinnville 412 out of the 500. The individual scores of the Portland team are not available, but the scores of the Hood River and McMinnville teams follow, each man shooting at 50 targets.

Hood River—Marshall, 48; Foreman, 47; Ingram, 46; Button, 46; Frank, 45; Fred Rand, 44; Davenport, 44; Dumbolt, 43; Vogt, 42; Loughery, 41. Total, 446.

McMinnville—Christensen, 47; Callara, 46; W. Martin, Sr., 45; Hibbs, 45; Pink, 45; Jacobson, 43; Thompson, 40; Houck, 36; McCann, 33; Cockerhan, 32. Total, 412.

W. L. Marshall and A. Christensen were the winners of the high gun trophies in their respective teams, while the Hood River team as winning team was presented with a fine silver trophy cup.

Next Sunday is the regular prize shoot at the local traps and the club would like to see a large number present.

Rhodes Gets \$7,000 Check

The county last week paid to O. H. Rhodes \$7,000, the sum awarded by a jury in Wasco county circuit court as damages accruing from construction of the Mount Hood Loop Highway across his place in the Odell district.

LOCAL FOLK ARE EATING MUSHROOMS

Hood River folk with a bent toward the epicure are now feasting on mushrooms. Several edible varieties of the fungi are found here in the spring months. The sponge mushroom, found in abundance in orchards, where the spores thrive on old rotten apples, is a favorite here. Other varieties are found in lowland fertile spots. Numerous boys of the town are adding to their savings accounts by the harvest of the fungi.

During the fall of the year, following the early rains, mushrooms are more plentiful over the mid-Columbia than in the spring months. In some sections fungi, varieties of which reach a very large size, are harvested in commercial quantities by Japanese. Utilizing strawberry crates for containers, the Orientals ship considerable quantities of the mushrooms to California metropolitan points.

LAUNDRY MEN TO BE TENDERED LUNCHEON

Members of the Oregon Laundry Owners Association, expected here to the number of 200 today from Willamette valley and southern Oregon points and Portland, will be greeted by the Commercial Club and A. F. Adams and W. A. Schaffner who will tender them a luncheon at the Columbia Gorge Hotel. The junketing laundry men will come here by automobile over the Columbia River Highway. Following the luncheon and a tour of blooming areas of the valley orchards, they will proceed to The Dalles for a two-day convention of the organization there.

A feature of the luncheon will be the presentation to the visitors of Newtown apples of last season's crop.

To all whom it may concern: Anybody holding an account against Mrs. Ann E. Hays will address her daughter Mrs. W. J. Pritchard, Administrator, Sherwood, Ore. Box 113. 11/27

Get More Money For Your Fruit

You can average higher prices for your fruits by selling them at public sale than in any other way. And the selling cost will be lower. In addition, you get your money within twenty-four hours after sale. Write for full information today.

80 Acres

Five miles from Lyle on graveled road, 10 acres fenced, 5 in bearing orchard, 8 more tillable, balance pasture and timber. Small house and barn. Price \$500. \$350 cash, balance one year.

Geo. A. Snider, Lyle, Wn.

For County Assessor

To the Republican voters of Hood River County:

In seeking your support as nominee for county assessor, it behooves me to acquaint you with some of my life story with its relation to a residence in Hood River county.

I have lived for twenty years in the Upper Valley. Have always stood for the best in schools and roads. I was one of the organizers of the Upper Valley Federal Farm Loan Association. Have passed on applications for practically all the loans now outstanding. They aggregate \$65,000.

My knowledge of conditions render me fully competent for the office.

E. C. MILLER

Piston clearances /

4/1000 of an inch when cold
1/1000 of an inch under fire

An automobile engine having a 4" bore will have when cold a clearance between its pistons and cylinders of approximately 4/1000 of an inch. When the same engine has been heated to operating temperature, this clearance will have decreased 75%, or to 1/1000 of an inch.

Likewise, a main crankshaft bearing having a clearance of about 1 1/2/1000 of an inch when cold, will show a decrease in this clearance at operating temperature to less than 1/2/1000 of an inch.

All oils lose viscosity, that is, they become lighter in body when subjected to the heat of engine operation.

An analysis of Zerolene shows that the differences in its body at the various engine temperatures, from cold to operating temperature, follow in close relation the decrease in bearing clearances.

The right body at all operating temperatures

For this reason Zerolene oils have at all engine temperatures exactly the required body to splash and flow freely into the fast-moving, small-clearance bearings to provide an adequate film of lubricant.

Because of their "oiliness," Zerolene oils cling to bearing surfaces, and at the same time offer in themselves a minimum of resistance to the engine power going to the driving wheels. For this reason they give perfect lubrication and permit the development of the maximum power, speed and gasoline mileage of the car.
