CREAMERY REFRIGERATOR IS TEMPORARY

T. E. Hayden, representative of the Edwards Ice Machine & Supply Co., of Seattle, has been here the past week installing a two-ton ice machine at the plant of the Hood River Creamery. The refrigerated rooms of the concern were formerly cooled by ice hauled from the plant of the Apple Growers Association. The equipment will be used temporarily. The creamery is planning the early construction of a new plant, the present quarters having been outgrown. When the new structure is completed the machinery just purchased will be turned in on refrigerator equipment of larger capacity. The directors of the creamery will hold a meeting soon and reach a definite conclusion as to the construction of the new plant. A lot at the corner of Sixth and Columbia streets has already been purchased. A concrete building is proposed.

Spinach Being Dehydrated

The Wasco county plant of The Dalles King Food Products Co. has started the season's run of dehydrating spinach. An approximate 150 tons of fresh spinach will be received by the plant in the next two weeks, according to Manager C. C. Rowan. Crows now aggregate 175, and more are needed. The spinach is received in lug boxes immediately after cutting. It is put through an interesting process of washing that leaves the greens absolutely clean. For every 12 pounds of fresh spinach one pound of the dehydrated product is secured. The product is in keen demand among eastern hotels.

Why Suffer From Rheumatism?

Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment, which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism.

Auto Owners—When in want of a tube or a tire either Fabric or Cord, call at 109 4th st. just north of Consolidated store Hood River to see them you will buy them. a20t

Notice to Creditors

BIG UPPER VALLEY TRACTS EXCHANGED

One of the most notable land deals recently closed in the Upper Valley involves the exchange of a 168-acre tract by Timothy Newell to W. J. Filz. Mr. Filz has transferred to Mr. Newell a tract of 163 acres. The place acquired by Mr. Filz, who is associated with his brother-in-law, Cecil Hickey, in the stock business, will be devoted to stockraising. It has 125 acres under cultivation. Plenty of adjacent range land is available. The place was developed by A. Millard, eastern capitalist, who sold it to W. J. Furnish, of Portland, Mr. Newell acquiring it in a land deal several years ago.

Mr. Newell on closing the exchange of property at once sold his 153 acres, the old homestead of A. Leroux, pioneer Frenchman, to his son, Walter Newell. The property, it is declared, has an ideal soil drainage, and has never suffered any frost damage. Peach trees, during the extreme cold of 1919, escaped injury, while orchards of this species in other sections of the valley were badly damaged. Young Mr. Newell will begin at once to develop it, specializing in peaches and cherries.

ASSOCIATED OIL WINS IN CONTEST

In a contest last Friday afternoon with a Studebaker Light Six automobile, driven by Mark Cameron, Associated Gasoline gave better mileage than Standard Oil. A Standard Oil Company product. The car was started from in front of Bennett Brothers with each gasoline. A half gallon of the fuel was used. The Red Crown was purchased from the Columbia Service Station. The car was driven to Sonny and return as far as Ruthton hill grade, a total distance of 8.4 miles for the Red Crown. The Associated Gasoline was bought from the tank of Boyd Sumner at the top of Ruthton hill. The same distance was covered, with the Studebaker, but it made 9.1 miles on the latter fuel, the engine dying near the Oregon Nature Lover's clubhouse.

Three weeks ago contests were held, the Standard Oil winning then over Associated and Union Oil Company products. Mr. Cameron, local Associated distributor, however, declined to enter the contest then for the reason, he says, that the contestants would not agree to the use of gasoline as drawn from the pumps of service stations.

SIMSON BROADCAST STATION WORKING

Lloyd Simson, naval radio operator during the war, has installed a radio broadcasting station here. His set is located toward the top of the gorge on State street. His messages and concerts have been received in Portland, The Dalles, central Oregon and adjacent Washington. Mr. Simson plans later on installing a higher power broadcasting set which will make his messages and concerts available in a radius of 1,000 miles. Mr. Simson is working with the local American Legion Post and will install a radio receiving set at the base camp for the annual Mount Hood Climb in July.

NEW STATE MADE MAP COMPREHENSIVE

One of the most comprehensive maps of Oregon recently seen here was displayed by F. H. Gilham, representative of the Head-Merney Map Co., an Oregon corporation, of Portland. The maps, which indeed are a careful survey of every community of the state, are made in Portland. They are on paper manufactured in Oregon. The map gives a comprehensive idea of Oregon's highway system, having been originally devised for highway purposes. All other information, however, is carried in detail. Mr. Gilham says that the maps formerly were manufactured on a small scale only for use of county and city officials. It has been decided to make them in large numbers and retail them at a nominal cost.

Hoover Fined For Assault

J. S. Hoover, a young man residing at the west edge of the city, was fined \$50 and costs Thursday by Justice of the Peace Onthank on a charge of assaulting J. W. Copper, an aged neighbor. It was stated, it was stated, had complained repeatedly that Hoover's chickens were eating his garden products. Failing to get action he took down his gun and threatened to shoot the fowl when Hoover appeared, took the gun from the old man and gave him a beating, cutting a severe gash on his face. Justice Onthank in addition to inflicting the heavy fine, gave Hoover a sharp lecture.

Cabbage Maggots Beaten

Corrosive sublimate 1 to 1,000 (one ounce to 12 gallons of water) applied to cabbage, broccoli, and similar plants will practically prevent root maggot injury. It is applied three days after planting and at 10-day intervals till four applications are on. A dust of arsenate of lead, one part to nine of sifted wood ashes, air slacked lime, or similar dust, and lightly on plants, subject to flea beetle injury will materially lessen insect damage. Repeat the dose every two weeks till the plants begin to mature fruit.—O. A. C. Experiment Station.

Collins Buys Fine Hog

Geo. W. Collins, Underwood rancher, here Friday, announced that he had just received from Fred D. Entermille, prominent swine man at Baker, a registered boar, "Collin's Liberator," with which he had a herd of purebred Poland Chinas that is winning a name in the neighboring state. The hog purchased by Mr. Collins was sired by the grand champion Poland China of Kansas.

Chamberlain's Colic and Diarrhoea Remedy

Every family should keep this preparation at hand during the hot of the summer months. It is almost sure to be needed, and when that time comes, is worth many times its cost. Buy it now.

Are you proud of your town. Then clean up and paint up your own property and thus help to uphold the high standard. If it is paint material, we have it. Emery Lumber & Fuel Co. Tel. 2181. a27t

THINNING DEMONSTRATION WILL BE HELD

Word has just been received by the Hood River Experiment Station from Clayton L. Long, extension horticulturist, Oregon Agricultural College, that he will be in Hood River tomorrow. The purpose of his visit at this time is to demonstrate the merits of thinning apples. Most growers should appreciate the value of this work and all should avail themselves of the opportunity to learn as much as possible regarding best methods.

Mr. Long has on two different occasions come to Hood River for demonstration purposes. Last winter he gave some splendid demonstrations on the value of pruning and soil fertility. He has submitted the following figures which will be of interest to the grower. Last year in the J. F. Slover orchard, Freewater, Ore., he staged a thinning demonstration with 12-year old Wine-saps. Trees receiving no thinning produced apples representing an acre value of \$305.50; those thinned 3-4 inches apart \$585; those thinned 6-7 inches apart \$725.50 and those thinned 9-10 inches apart \$726.56. Although the thinning season is yet some distance off it is now time to get this work lined up. The meeting is called for 9 o'clock at Library hall tomorrow.

Upper Valley Bloom Heavy

"I have never seen as fine a bloom of apple trees as now prevails in the Upper Valley," declared C. H. Castner, who has charge of the Lava Bed Orchard Company's extensive tracts just west of Parkdale, after a tour of the communities of higher elevation Thursday. "All trees are loaded, and I expect the Upper Valley to produce the finest crop this fall it has ever harvested."

Recommends Chamberlain's Tablets

"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle of them along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreeland, Minoa, N. Y. Take these tablets when troubled with constipation or indigestion and they will do you good.

Notice to Creditors

In the County Court of the State of Oregon for Hood River County. In the matter of the estate of Henry Martin Grant, Deceased. Notice is hereby given that the undersigned has been appointed administratrix of the estate of Henry Martin Grant, deceased, by order of the County Court of the State of Oregon for Hood River County, and has qualified as such. All persons having claims against said estate are hereby notified to present the same to me at the office of my attorneys, Wood, Montague and Matthiessen, 1310 Yeon Building, Portland, Oregon, with vouchers and duly verified, within six months from the date hereof. Dated and first published June 1st, 1922. Mrs. H. M. Grant, Administratrix of Henry Martin Grant, deceased. j12j29

ONE PRICE TO ALL

To correct an erroneous impression to the effect that Grange members buy for less from us, that has somehow gained credence among a few, we wish to announce that the Grange Cooperative Store has one price. We sell for exactly the same money to Grangers, city residents, country folk and all others.

Thru our affiliation with a large Grange buying agency and our elimination of the expense of bookkeeping and delivery, we are able to sell our goods for less than the business organization that must necessarily bear all of these items of overhead expense.

We will appreciate having you call and get acquainted.
