A SOLID, ALL-LEATHER SHOE, if properly made, wears longer, holds its shape longer and, in Every Way, is a better shoe than one in which substitutes for leather are used.

**DOCK OFFICIALS SEE DAN WUILLE PLANT**

John H. Burgard, chairman of the board of Portland Dock Commissioners and E. B. Hegard, engineer of the Dock Commission, were here last week studying the ventilated storage quarters of Dan Wuille & Co., London apple merchants, whose northwestern headquarters are located here, and who last season began the direct export of apples from Portland to England in huge quantities.

The Portland Dock Commission recently announced that it would provide equipment for an approximate 300,000 boxes of apples on the wharves. A visit of the two chief officers to the local plant indicates that they anticipate installation of ventilated storage facilities similar to those found efficient by the London shippers.

**FRUIT FREIGHT RATE TO YAKIMA CUT**

Reduction of freight rates on strawberries from here to Yakima, Wash., resulted last Thursday night in the shipment of a carload of field pick strawberries to the Libby, McNeil & Libby cannery there. The Dalles plant of the Libby concern, which contracted all of the culls and field picks of the Apple Growers Association this year, was overstocked because of the height of harvest season, and but for plans of shipments to the new Yakima plant, some of the berries might have been lost. The reduced rate is 20 cents per 100 pounds, with a minimum of 20,000 pounds.

The lower freight charge will probably result in the shipment of local and Mosier cherries to Yakima.

**CLARK GETS CONTRACT, McNARY TO SALEM**

P. F. Clark, sales manager of the Apple Growers Association for the past year, has been retained by the cooperative sales organization on a three-year contract. Mr. Clark who came here last year from Yakima, where for many years he was connected with the apple marketing concerns, has purchased a bungalow home from J. F. Bateholder.

Robert G. McNary, who has been assistant to Mr. Clark the past year, has been named sales manager of the soft fruits department of the Oregon Growers' Co-operative Association. He will leave for Salem this week to make his home. Mr. McNary, a great war veteran, is a graduate of the University of Oregon.

**Mr. Carnes Writes From California**

Standish, Calif., June 18, 1922.

Editor Glacier: We, like you, have had a very late spring—scarcely any growing weather. The last few days have been warming up, and the grain is growing very rapidly. Alfalfa harvest is just beginning. Help is very hard to get—no idle men in the valley. The Redwood Lumber Co., at Westwood, is running 600 men short. They can't run the night shift because of scarcity of help. The crop prospects are for a good crop throughout our valley.

Our most flattering crop prospects consist of about 300 young turkeys. Out of a hatch of some 300, we lost only six young turkeys, and they were tramped to death by the mother hens. We are not bothered with any poultry diseases. Our only pests are the mites and that can be overcome very readily by proper spraying of nesting places, coops and yards, also by greasing the young pullets. It's a sight to see all this flock of turkeys coming up for their daily feeds; nearly as interesting as watching the apple grow.

W. L. Carnes.

**Franz Gets Orders From Afar**

The prominence of Hood River as a fruit producing section was indicated last week when the E. A. Franz Co. received an order for 100 bushels of fruit from an orchardist in eastern Quebec. A short time ago the concern had an order for orchard supplies from Massachusetts.

Mr. Franz thinks the order received from Quebec resulted from the investigations made here a number of years ago by a prominent Catholic leader who owned fruit tracts in eastern Canadian points.

**Hurlbut Named City Engineer**

C. M. Hurlbut, overseas war veteran, having been's captain in charge of maintaining roads in France, has been appointed city engineer, succeeding E. E. Newell, who recently resigned. Mr. Hurlbut, who has been engaged in highway work for many years, having built roads in Alaska, Oregon, Washington, Idaho and Montana, will have charge of the seven-eighths mile of concrete market paving now being constructed by the county just south of the city. He is owner of an Oak Grove orchard place.

**Buyers' Week in August**

Portland already is making big preparations for the tenth annual Pacific Northwest Merchant's convention, commonly known as Buyers' Week, to be held there August 7 to 12. The event gives promise of being the biggest and the best convention of the sort ever held on the Pacific Coast. In every respect the general entertainment to be accorded visiting buyers will far outstrip that of former conventions held by the wholesalers, jobbers and manufacturers of the city.

**Cooks Grade Still Closed**

Residents of the Underwood, Wash., orchard district, here last week on business, announce that the Cooks section of the North Park Highway, where crews for the past six weeks have blocked the route in the construction of a new grade, will be open about July 15. Traffic is now detoured by way of local ferries across the Columbia, down the Columbia River Highway.

**Recommends Chamberlain's Tablets**

"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle of them along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreeland, Minoa, N. Y. Take these tablets when troubled with constipation or indigestion and they will do you good.

Insist on genuine Ford parts when having your car repaired, Dickson Motor Co.

**HOWE HAS UNIQUE MOTOR REPAIR SHOP**

One of the unique automobile repair plants of the city is now operated by Fred Howe, who has been engaged in the business since the first cars were put into commission here over 15 years ago. Mr. Howe has secured the large paint shop on Columbia street, formerly occupied by J. B. Hunt. Here he operates his lathe and other machinery with a Ford motor and overhead shafting. The motor runs a "breaker-in" machine for testing out newly ground cylinders.

Mr. Howe's place of business is large and airy. It is equipped with the latest tools and appliances of all kinds. The pioneer automobile man is kept busy in the repair and remedying of motor troubles.
