

The new Goodyear Cross-Rib Tread Cord

## A Popular-Priced Cord Tire Without a Rival

The new Goodyear Cross-Rib Tread Cord Tire is built with genuine high-grade long-staple cotton as a foundation.

It is liberally oversize—the 4½-inch tire, for example, measuring nearly 5 inches.

The deep, clean-cut, cog-like pattern of its tread affords excellent traction even in snow and mud, engaging the road like a cogwheel.

The scientific distribution of rubber in this tread—the wide center rib and the semi-flat contour—gives a thick, broad surface that is exceedingly slow to wear.

This new tire is a genuine Goodyear through and through—in design, in material, in construction.

It costs less to buy than the net price you are asked to pay for many "long discount" tires of unknown reputation and value.

Why be satisfied with less than this efficient tire can give—why take a chance on an unknown make?

Compare these prices with NET prices you are asked to pay for "long discount" tires

30x3½ Clincher.....	\$12.50	32x4 Straight Side..	\$24.50	33x4½ Straight Side..	\$32.15
30x3½ Straight Side..	13.50	33x4 Straight Side..	25.25	34x4½ Straight Side..	32.95
32x3½ Straight Side..	19.25	34x4 Straight Side..	25.90	33x5 Straight Side..	39.10
31x4 Straight Side..	22.20	32x4½ Straight Side..	31.45	35x5 Straight Side..	41.05

These prices include manufacturer's excise tax

Goodyear Cross-Rib Tread Cord Tires are also made in 6, 7 and 8 inch sizes for trucks

## EXPORTS OF APPLES HAVE BEEN HUGE

The importance of the United Kingdom as a market for apples exported from the United States is evidenced by the fact that the annual exports to that country during the past 10 years have averaged 1,099,412 barrels, or 65.3 per cent of the total annual apple exports from this country, says a review just issued by the department of agriculture. The apple crop of the United States in 1921 was estimated at 20,098,000 barrels and the total exports during that year amounted to 1,336,224 barrels, of which 1,498,839 barrels were shipped to the United Kingdom. The exports of apples from this country from January 1 to June 30 of this year, amounted to 524,404 barrels, of which 3,471 barrels were marketed in England.

Canada is the chief competitor. The commercial crop of Canada in 1921 was 3,771,100 barrels. The exports during the Canadian fiscal year ending March 31, 1922, amounted to 1,945,950 barrels, of which 1,315,938 barrels were shipped to the United Kingdom.

The season for American apples in England opens around September 1 and closes about April 30. During this period Canadian and American competition is keen. The British trade is supplied mainly through the auction sales and through importers who maintain wholesale houses where fruit is sold at private sale. The American fruit is handled largely by the auction houses. The important auction points in Great Britain where American apples are handled are Glasgow, Liverpool, Manchester, London, Hull and Southampton.

## FRUIT MARKET IS IN DIRE PLIGHT

America, with its greatest fruit and vegetable crop, is losing millions of dollars in apples, peaches, plums and potatoes daily because of the lack of markets.

An investigation at Chicago, the nation's market center, last week showed commission houses accept only the select or fancy grades which are often sold as ordinaries to get them on the market before they perish.

Great quantities of fruit are rotting on the ground due to high freight rates, combined with a bumper crop in every section of the country.

The American Fruit Growers, Inc., which, until this season, did a large national business has been forced to turn back hundreds of cars on the shippers.

An example of the loss cited was 30 carloads of potatoes on track at Chicago one day last week.

These potatoes sell for from \$1.40 to \$1.50. The cost of getting them to the market is about \$1.45. The grower is lucky if they are not sold at an actual loss.

Apples from Nebraska cost one shipper of five cars from four to 19 cents per bushel. They were a fancy grade, but commission men claim they would not sell above 65 cents per bushel, which was not more than the freight and picking costs. Michigan crops are enormous.

Several commission houses admitted sending checkers for sums ranging from one cent to one dollar in payment for carloads of fruit after freight and broker's charges were deducted.

Canning factories in Michigan and Wisconsin are working at top speed trying to preserve large fruit crops of these states.

## SCHOOL FAIR WILL BE BEST EVER HELD

County School Superintendent Gibson says the Twelfth Annual County School Fair, to be held Friday and Saturday, September 15 and 16, will be the best ever held here. Children of all districts, he says, have engaged in more club work, under supervision of the Oregon Agricultural School, than ever before. Girls will exhibit, Mr. Gibson declares, more sewing and cooked articles than on any former season.

Following the school fair, the children of the county will assemble the best of their products and transport them to Salem for exhibition at the State Fair. An interesting feature of this year's contest will be displays of animals. The children of the Frankton district have organized a calf club, and there Frankton boys, Bruno Franz, Jr., Howard Miller and Kenneth Hebard will form a stick judging team to visit Salem. The youths have been instructed in judging by E. F. Batten, East Side stock raiser, and Professor Allen, of the Oregon Agricultural College. Saturday spent several hours with them. He declares they show remarkable proficiency for the short period they have been engaged in their work.

## RESIDENTS MUST HAVE MAIL BOXES

Warnings that all residences must be equipped with door slots or mail receptacles if deliveries are to be by carrier in the future, have been issued by Postmaster Reavis, here, on receipt of instructions from Washington, D. C. Reasonable time will be allowed for the installation of slots or receptacles, but afterward no mail will be delivered to houses without them.

"It is not the department's desire that any shall be deprived of delivery by this requirement," according to the bulletin, "but it is earnestly hoped that all will see the reasonableness of it and its advantage to themselves as well as to the carrier. But if it finally becomes necessary mail delivery will be discontinued where no door slots or receptacles are provided."

The delay to the carriers is the chief reason for the new requirement. Recently the postal service issued an order that all new buildings must be equipped with mail receptacles, but this is the first sweeping order that includes private homes as well.

## Bedding for Harvesters

As usual the Franz Co. has arranged for a continuous supply of specially made Bed Springs, Mattresses, Ticks, etc. Good, strong, comfortable beds that will give maximum service at minimum cost. See them before you buy. a311f

Franciscan Fathers, Tel. 3132 709 Seventh Street.

## What Seems To Be The Reason You Don't Build This Season?

THIS question is often answered, "I'll wait until lumber comes down." Everything makes us believe that lumber will not come down, but will go higher. Shingles have taken an advance, and other building materials are bound to follow. We are always busy, but never so busy that we could not be a little busier. We will figure your Lumber Bill, be it large or small.

"SERVICE" is our motto. Phone 4121. That's our self-starter.
