

Hotpoint HUGHES ranges for less!

—A special low-price, easy-term offer featuring these famous electric ranges

More and more our patrons are demanding the convenience and comfort of all-electric kitchens. Modern homes must be equipped with up-to-date labor-saving devices.

After rigid tests and inspections, Pacific Power & Light Company engineers and merchandise men selected the Hotpoint Hughes electric range as the one which will give the

greatest satisfaction and render the most efficient service. In order to acquaint our thousands of patrons with these famous ranges we are selling them at reduced prices and special terms. There is a Hotpoint Hughes model to fit your purse and purpose. Our easy payment plan brings electric cookery within the reach of all.

The "Bungalow"

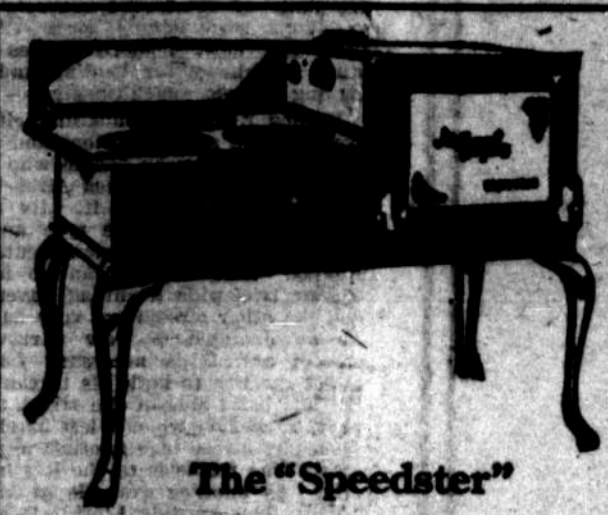

is a compact 8-element range, especially designed for small kitchens. Well insulated, practical size oven with thermometer in door. Equipped with patented arrow switches that show at a glance degree of heat turned on. This compact, serviceable range and electric water heater put in your home for only

\$10 down \$10 a month
—completely installed

\$10 down
\$10 to \$15
a month

puts any one of these famous Hotpoint HUGHES electric ranges in your home completely installed

Efficient, economical electric water heaters, installed with your range, give you abundant hot water for bath, laundry and kitchen.

The "Speedster"

Slightly larger than the Bungalow. Fitted with three elements, either open or closed. Heavily insulated oven equipped with thermostat, with or without automatic heat control, as desired. Any specified heat will be maintained accurately and evenly for hours. Easy to keep clean—no grooves or square corners. Arrow switches. You can have a "Speedster" and electric water heater put in your home for only

\$10 down \$12.50 a month
—completely installed

Hotpoint HUGHES electric ranges are:

Clean: no soot on pans or walls. No smoke, no odor. No wood to split, no tank to fill. All joinings and corners are smooth and easy to keep clean.

Economical: Hotpoint Hughes electric ranges conserve the heat. Start your cooking with the switch turned "high", then turn it to "low" and finish with heat turned off entirely. "Stored heat" completes the cooking. Heavily insulated, airtight ovens prevent shrinkage of meat while roasting. After oven becomes hot, current may be switched off, while contents continue cooking a long time.

Safe: Heat without flame means safety to yourself and family. Structure of range itself is always cool—no danger of burns or scorching garments. You don't have to worry about explosions.

There's a Hotpoint HUGHES model to fit your purse and purpose

The "Super-Automatic"

Large family range with shelf and warming oven. Four interchangeable elements. All round corners for easy cleaning. Oven equipped with thermostat, time and heat control. Only electric range on the market which will automatically turn heat on and off at any given time, maintaining any desired temperature meanwhile. A Super-Automatic and electric water heater put in your home for only

\$10 down \$15 a month
—completely installed

The Hotpoint HUGHES kitchen is:

Cool: All heat is confined to the units themselves. Range remains cool. Handles of utensils never get hot to touch. Best of all, your kitchen is always comfortable.

Attractive: Immaculate walls and woodwork, snowy curtains, blooming plants, no woodbox, no ashes—this is what the busy housewife appreciates in the room where she spends the biggest part of her time.

Efficient: Uniformity of heat and accurate control make the Hotpoint Hughes electric range practical and efficient. All kinds of cookery can be done to perfection. A turn of the switch gives you just the degree of heat you want.

Use quality appliances for electrical satisfaction

Let us demonstrate these electric ranges. Take advantage of our low-price special term offer!

Pacific Power & Light Company

"Always at Your Service"

HOOD RIVER ASKED TO BE GODFATHER

Chairman Bickelizer at the Tuesday meeting of the Lunch Club at the Hotel Oregon, introduced Resolution H. 1000, of the P. P. & L. Co. who introduced the new plan, to be dedicated next Thursday, to the power and light supply of the Hood River valley. Mr. Bickelizer's address was as follows:

"A little less than a year ago I had the privilege of introducing to this body the latest extension of the Pacific Power & Light Co. to Hood River, who announced to you the plan proposed for the development of Hood River. Shortly after this announcement Mr. Bickelizer of the Pacific Utility Co. arrived with some of his assistants, a camp was made, materials ordered, men hired, and work commenced. It was fitting to break the news of our plans to the Tuesday Lunch Club, and it is a pleasure fitting now to announce to you the completion of this project. It is true that since the opening of the camp last June the work has been pushed forward with amazing speed, through the usual and unexpected natural run of ups and downs, strikes and high water, delays and disappointments until now the huge generator is about ready to turn out the kilowatt hours. Thus it becomes my pleasant privilege today to announce to you that on Thursday, May 10, the Pacific Power & Light Co. will formally dedicate this new plant to what we hope will be a long life of useful public service."

"From these few words you have heard have been brought to your attention, the needs of one of Hood River's babies—some community project which needs defining, or looking up, or some sort of help, usually financial. Hood River has been particularly public in this respect lately, and it is a fine thing, I believe, in babies, as recent results in my own family will testify. We would like to have you think of this new power plant as one of Hood River's babies, or perhaps the true incubator would be to say that it is Hood River Power Company's baby, of which Hood River has been made the godfather. There is, in sight at the eastern gateway to the city, utilizing one of Hood River's beautiful natural resources. It will add some five or six permanent families to Hood River's population, and it will also swell Hood River county's tax receipts by some thousands of dollars—no such amount in fact, about the Pacific Power & Light Co. will be the largest single tax payer in the county, not even excepting the railroad company. And a pleasant thought in this connection is that the revenue which will pay the taxes will come, not as a deduction from the normal income of Hood River, but from outside sources, mainly Portland, since the surplus power generated at this plant will be used in Portland through the Northwest Electric Co. And the best part of all, I want to leave with you that little message of cheer."

"We are proud of this new addition to the P. P. & L. Co. family, and I believe justly so, and we want you, as its godfather, to take pride in it also, and I hope that we will keep it in such shape, and operate it in such manner that you will wonder what it set to your visiting friends and wonderfully say, 'There is our new plant!' And so, gentlemen, in closing, let this new youngster may get a good start in life. I hope you will be on hand at the christening."

Christian Church

The work of every department of the church is making advancement. Mother's Day is May 13 and it will be a great day of prayer and loving hospitality. Next Sunday Bible school at 9:45 a. m. A. R. Cash, Supt. Preaching at 11 a. m. topic, "Testing Times." Christian Endeavor at 7 p. m. Reports from state convention. Preaching at 8 p. m. topic, "A Stretched Outland." A cordial invitation to all.

Seventh Day Adventist Church

Center 15th and C streets. Sabbath school Saturday 10 a. m. Preaching service 11:15 a. m. Prayer meeting, Wednesday 7:45 p. m. All are welcome.

PASTOR TURNS 70

Rev. A. H. Howe, past pastor and now pastor of the First Baptist Church, was celebrating his 70th birthday at the home of his wife, Mrs. L. Howe, last night of the anniversary. He stated how the growth of industrial activity has been a stimulant, when a lumber mill began to turn out 4,000 feet daily. Legal power then was cordwood, lumber products and railroad lines. T. E. Coon, who was a teacher here, introduced the first heading strawberry, which has since been known nationally for its superior quality. When growers raised their first crop they did not know what to do with them, the market being so saturated. Mr. Howe himself was the first teacher at the Pine Grove school, now one of the largest of the county. Thirty-five years later, his daughter, Miss Marion, taught at the school.

Mr. Howe cited that community church worship was successful in place near times. Then all people attended a single worship in a schoolhouse. Mr. Howe, now city recorder, stated that he was just the peace for two years in early days. As a result of his intercession only two cases ever came up for trial. The city's two lawyers, he says, were on the point of leaving town because of poor business. Mr. Howe stated that the valley's first irrigation system was initiated at the urging of Frank Davenport, Sr., who told the farmers not to wait for money for such development but to proceed with construction by their own labor. The system was completed with a capital of \$500.

Mr. Howe told how the Ancient Order of United Workmen was the first fraternal organization established in Hood River. E. F. Moore declared that he thought no one would be willing to give up the modern day improvements of Hood River and return to the "good old days." The only thing of the old days that seems appealing, according to Mr. Howe, was the low tax rate. He declared that he thought the city ready for a substantial growth in future years.

Developing the future of the valley, Berkeley H. Snow, who announced that a large power plant of the Pacific Power & Light Co. on Hood River would be formally dedicated Thursday, May 10, cited that it had cost \$1,500,000; that it would bring several permanent new families to the valley and that its tax, the largest individual tax in the county, would aid in carrying the public burden of the county.

Guests present Tuesday were: W. C. Eeck, W. M. Livingston, now assistant manager of the Standard Oil branch; W. A. Gilmore, of the Ralph Schneckel Bond Co., and Pat Murphy, representative of the W. P. Fuller Paint Co.

W. F. Allyn announced the Chamber of Commerce banquet of next Monday night, and C. E. Graves urged local aid to attend the lecture of F. W. Rockhold at the high school Friday night when some 125 colored views of the Mount Hood country will be shown.

Carnival at Park-Grange Big Success

The carnival held by Park-Grange in its new hall in the evening of April 8 was a gala affair. Vari-colored streamers of bright sweep paper, suspended from the ceiling, the gaily decorated booths and the gay costumes of the participants lent excitement to the scene, while the raucous voices of the spectators helped to create a real carnival atmosphere.

Among the features were The Board of Lady, The Living Skeleton, The Bat Man, Tilly Dora, A Pygmy, Gypsy Fortune Tellers, King Tut's Tomb, a musical show, prize fight, acrobatic dancing, and nine young girls, dressed in the costumes of six many countries, who loaned their pretty heads for a game of nine pins.

Delicious refreshments were served and the evening ended in a dance, in which Miss Helia Eskari and John Annala carried off the prizes for being the best dancers on the floor.

Reggie Seeps Dahlias For

Hood River dahlias are gaining a nationwide reputation. As a result of a visit here last fall, when the dahlia gardens of Judson G. Buggles were a bloom, W. T. Wagner, a flower fancier of Philadelphia, who participates in eastern shows, ordered 50 of Mr. Buggles' leading varieties. The bulbs were shipped Tuesday.

Mr. Buggles makes dahlias growing his hobby. He has several hundred varieties, and his blooming plants, covering several lots adjoining his home, attract hundreds of visitors each fall.

Spaulding Now With Meyer

Earl Spaulding, who has been engaged in the tailoring business in Paris, following his demobilization from the overseas war forces, has returned to Hood River, where he was formerly in business, and has taken an option on the interest of L. F. Brasseur in a tailoring business conducted by J. C. Meyer and L. F. Brasseur.

Hawbrook Heads Farm Association

Officers of the Hood River Federal Farm Association, which includes in its bounds property covered by the Farmers' Irrigating Co. on the West Side of the valley, were elected last week as follows: H. L. Hawbrook, president, and August Guignard, secretary-treasurer. The association is considering an expansion and including orchard places in the Oak Grove district.

We operate the only modern Cleaning Works in Hood River, Meyer & Brasseur, Phone 1014.

Lumbago

This a rheumatism of the muscles of the back. It comes on suddenly and is quite painful. Every movement aggravates the disease. Go to bed, keep quiet and have Chamberlain's Liniment applied and a quick recovery may be expected. Mrs. F. J. Dana, Brockport, N. Y., writes: "I can honestly say that Chamberlain's Liniment cured me of lumbago a year ago last summer. When I began using it, I was flat on my back in bed and could not turn to the left or right. I had a bottle of Chamberlain's Liniment in the house and this was applied to my back. It promptly drove away the pain and ache."

YES, TIRE PRICES WENT UP
and Dealers loaded up. The GULF PLAN STORE did not load up. We can sell you tires to day at the same price we sold for a year ago today. Our people had tires when the holder of the plan came and they sold right down close, therefore we will not have any old stock to put off. I went down to the Distributing Store and find a very tight stock, just enough to keep going, and our prices will be right, for we are buying right. Call in and get prices.

JUDGE GEORGE WRITES VOLUME ON COGE
Judge M. C. George, early pioneer of Wasco county, who now makes his home in Portland, was here last week in the interest of a volume he has just written on topographical and historical features of the Columbia gorge from The Dalles to Portland. The book is filled with historical data, interesting to anyone who rides over the Columbia River Highway. Local book and grocery men declare that the book will fill a need, in that many motor tourists ask for the information the new volume contains.
Judge George came across the plain with his parents when a small child. His life has been "made" as a student of the great gorge of which he so interestingly writes in his new book.
