BINGEN FOLK ENTHUSE OVER BRIDGE

An enthusiastic meeting of White Salmon and Bingen, Wash., and Hood River men, who discussed the proposed Hood River-White Salmon bridge across the Columbia river here, was held at Bingen Tuesday night of last week. A committee of the White Salmon Chamber of Commerce and W. P. Ahly, secretary, and Berkeley H. Snow, representing the local chamber, met with the Bingen citizens and explained to them plans for subscribing \$75,000 of the preferred stock of the company that will construct the interstate span.

The Bingen Chamber of Commerce appointed a committee which will solicit stock subscriptions in that community.

JUDGE WILSON, CAPT. WILBUR ARE NAMED

Judge Fred W. Wilson was elected president of the Oregon State Bar Association at the annual convention of the body in Portland last week. The convention was declared one of the most successful ever held. Addresses were delivered by many prominent lawyers and educators.

A resolution that the Bar Association "favors as a general principle the adjudication of international disputes and favors the proposal that the United States adhere to the protocol establishing the permanent court of international justice at The Hague" was adopted.

A resolution urging the embracing of recognition of the national principle set out in the Declaration of Independence and constitution Thanksgiving day, introduced by Walter McCamant, also was adopted.

In the first place, probably much of our trouble results from the fact that growers do not use enough material to thoroughly spray their trees... (text continues with advice on proper spraying techniques).

2nd: In the case of older orchards and very high trees, it would be advisable to use one gun from the tops of the rig orchard to insure thorough coating of this part of the tree... (text continues with advice on reaching higher parts of trees).

3rd: Recommendations for further cover sprays should be given careful attention by all growers... (text continues with final recommendations).

C-T-C Tires Conserve The Car

Something More Than Long-distance Mileage Built Into C-T-C Cords

COMFORTABLE riding, less car depreciation and reduced upkeep expense are built into C-T-C Cords—as well as maximum mileage.

Improved design, and construction, together with best materials obtainable and superior compounding for added toughness and resiliency of the rubber, produce in C-T-C Cords a tire which can be driven with 30% less inflation than so synthetically recommended in other cord tires—and yet experience extra-long-distance mileage.

30% less air pressure in C-T-C Cords means fewer trips to the overhauling station and longer life to the car.

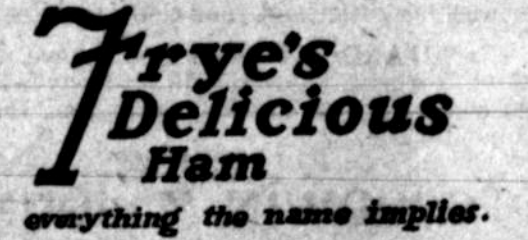

C-T-C Cords are hand-built under rigidly limited production and are more powerful and durable than the special built-in the heavy motor-tube, traction and racing, wear-resisting, non-skid tread.

C-T-C Cords made in 32, 34, 36, 38, 40, 42 and 44. C-T-C Inner Tubes are the heaviest, strongest standard tubes on the market.
