The Studebaker Light-Six Five-Passenger Touring Car \$995

Don't Experiment Buy a 1924 Studebaker

The 1924 Studebaker Light-Six Touring car, with its refinements and improvements, offers the closest approach to mechanical perfection in moderate priced cars yet produced.

It continues to set the pace in the amount of value for the money invested. No radical departure from approved design has been attempted. There's nothing experimental about it—everything of recognized merit. Every vital unit has proved its satisfaction in the public use.

No matter how much money you expect to invest in a car, by all means see this Light-Six Touring car, ride in it—and drive it yourself. It is then that you realize the difference.

Comparison with other cars costing more—or less—will provide convincing proof of its greater dollar-for-dollar value, its dependable performance, ample power, extreme comfort, and many other desirable features.

The Light-Six is practically free from vibration because Studebaker machines the crankshaft and connecting rods on all surfaces. No other manufacturer follows this practice on a car at anywhere near the Light-Six price. This is just one of many superiorities.

After seventy-one years, the name Studebaker enjoys confidence and respect more than ever.

New all-steel body of striking beauty. One-piece, rain-proof windshield with attractive cowl lights set in base. Quick-action coil ventilator. Door curtains, bound on three sides by steel rods, open with doors. Removable upholstery in tonneau. Door pocket flaps with weights hold them in shape. Upholstered in genuine leather. Large rectangular window in rear curtain. Thief-proof transmission lock.

AN APPEAL TO REASON

In these days of low apple prices, growers must of necessity find measures for cutting down the cost of harvest and packing. That was our aim when we devised our new gravity grader system.

And we guarantee that we can save you the entire cost of our Grader in 60 full operating days, through elimination of labor costs and increased output, if you will use the

CARR GRAVITY GRADER

We will let you have a 10 days' trial of our machine. It will convince you of the facts of our guarantee—THERE IS ABSOLUTELY NO PUNCTURING OF FRUIT WITH A CARR Gravity GRADER.

WHITE SALMON

(From The Enterprise)

Mr. and Mrs. Waldo Pierson and Herbert Fuller, of Glenwood, climbed Mt. Adams day before yesterday and as they neared the cabin picked up a tin can bearing a note with the date of 1884 and signed by J. E. Conboy, of Glenwood, L. Chapman, and W. F. Suksdorf, of Bhgen. The note was faint and could not be read very easily.

At the meeting of apple growers held in White Salmon Saturday night, August 25, the contract, as tentatively adopted for the proposed Northwest Fruit Exchange by the Oregon and Washington committee at Portland, was read and explained and copies given to the different growers present for their consideration.

The directors of the Star Fruit Co. have already voted to sign up with the Exchange and the representative of the Underwood Growers Association stated that they would perfect the necessary organization to enable them to become associated with the Exchange.

It will be necessary for all the independent growers of these three districts to organize to enable them to become affiliated with the Exchange, and the independent growers present all signified their willingness to organize for this purpose.

A. T. Dorsey offered to personally interview as many of the independent growers as possible to explain the plan of organization. This plan should be a very attractive one to all as it does not involve the tying up of the 1923 crop so far as the sale of same is concerned. Mr. Dorsey advises he will make it a point to see every grower possible at the earliest possible moment.

THIS chart demonstrates that you get more quality for less money when you buy Goodyear Tires. Goodyears sell today for 37% less than in 1920; 30% less than in 1914. And their quality has been steadily improved; their superiority is beyond question. This is a good time to buy Goodyears.

As Goodyear Service Station Dealers we sell and recommend the new Goodyear Cord with the bonded All-Weather Tread and back them up with standard Goodyear Service.
