THIS IS A STUDEBAKER YEAR

**SALVATION ARMY
DRIVE IS SUCCESS**

The Salvation Army, according to J. Barker, of Salem, who with Mrs. Barker had charge of the soliciting, concluded a successful Home service fund campaign here last week. The Salvation Army will return here later and solicit funds from rural sections of the county.

Mr. Barker declares that he is very grateful for the reception he and his workers received from citizens of Hood River. The fund raised surpassed that of last year, it was stated.

HUELAT AND SCOBEE
Paul Huelat and Russell Scobee, who arrived in Portland aboard the steamer West O'Kawa, which participated in Japanese Relief following the recent earthquake disaster, returned to their duties at the high school Monday. The boys returned to their work with a much prized letter from Master Walter Tim, who is lieutenant commander of the United States Naval Corps. The letter, addressed to the principal of the high school, follows:

"I am taking the liberty to write you a few lines of explanation why R. Scobee and P. Huelat were not able to be present at the beginning of the school term.

"They both shipped with me June 15th for a trip to the Orient, but due to the fact that we were obliged to call at more ports than scheduled, we were late in arriving at Kobe, Japan. When we did arrive we were requisitioned by the United States government for relief work in connection with the Yokohama and Tokio disaster. If they missed some of their studies they have gained more in experience than the usual scholar would in a lifetime. I cannot recommend them too highly for their good work and behavior. During the two weeks of relief work performed by my vessel these young men practically slept in the open, having given up their quarters to women and children, notwithstanding that they were more or less continually on duty night and day during the entire two trips that we made and which was the means of saving over 4,500 people and transporting them back to Kobe. The relief committee paid me the highest of compliments on the behavior of the crew, and I am proud to say they more than did their share.

"In conclusion I wish to compliment you upon having such young men. I am sure they will be a credit to yourself and the Hood River school. Throughout the voyage they were a bright example of what American boys should be. If you can do anything to assist them in picking up their studies I shall be very thankful, as I think under the circumstances they deserve it. Both boys will resume their places on the strong high school football team.

EXPORT APPLE MARKET DECLARED GOOD

The export market for apples and pears has not been better for a number of years, according to Paul McKechercher, of Sigel & Day. Mr. McKechercher has just received a report on a car of Comice pears that sold in Liverpool October 8, netting an average of \$5.50, f. o. b. New York City. This is the record for pears of this variety for the season.

"The export market for Newtowns looks very encouraging so far," said Mr. McKechercher. "I have just received a message from New York City advising me to rush small sized Newtowns to Europe as fast as possible, in order that they may reach the market while prices still rule high. Our first car of Newtowns, reaching England October 10, averaged 16 shillings per box for all sizes and grades."

FREEWATER APPLE MAN VISITS HERE

The Milton-Freewater fruit district will harvest its record crop of apples this season, according to R. E. Gleason, manager of the Freewater Fruit-growers' Union, here last week visiting J. P. Naumes, mid-Columbia manager of Paxton Rivers Co., New York apple buyers. Mr. Gleason said he anticipated a tonnage of 1500 cars of apples this season. The harvest is now at its height.

Mr. Gleason said the prune crop of the eastern Oregon section was fine this year. The association has just completed shipment of 1,386 cars of fresh prunes.

U. of O. Freshmen Score High

The men of this year's U. of O. freshman class scored an unusual record in the physical examinations required of entering students. Only 74 men were placed in the class requiring special restricted exercise because of some physical defect. The number placed in the restricted list last year was 110.

"As a whole, the freshman class is the best physically that has ever come to the University," said Harry A. Scott, director of physical education for men.

A sports program is provided for men in the restricted class in order that the physical defects may be corrected. Last year more than a dozen men entered a regular gym class from the restricted class after taking remedial exercises.

Association Contracts Enforced

Members of the Apple Growers Association, who had attempted to sell their crops to outside agencies, have been forced by the management of the cooperative agency to pay into the treasury of the organization funds received in advance for their crops. In other instances Manager Steele has visited the offending growers, forcing them to write orders on the independent buyers for the money to be received. Both whites and Japanese, it is reported, have attempted to break their contracts with the Association.

A Remarkable Record

Chamberlain's Cough Remedy has a remarkable record. It has been in use for colds, croup and whooping cough for almost half a century and has constantly grown in favor and popularity as its good qualities became better known. It is the standard and main reliance for these diseases in thousands of homes. The fact that it can always be depended upon and is safe and pleasant to take are greatly in its favor when it is wanted for children.

Rattling windows are a pest! No Metal Weatherstrip will stop them. Easy to put on. See Emory Lumber & Fuel Company. 62011
