**WHY GROWERS HAVE SO LITTLE MONEY**

One has said, "Every good thing comes from labor." And a better authority, "In the sweat of thy face shalt thou eat thy bread, till thou return unto the ground." It is true.

Many of our growers are not workers. They are growing into the old European lordism. They give about one month to their work, losing a company of workers. They even hire their boxes mended, if matter they could attend to during a slack season. And during slack times they could prepare store room for their fruit.

A man with 10 to 15 acres should pick all his trees himself. He should pick all his own fruit. He could exercise wisdom in planting and have an area in peaches and apricots, cherries, early pears, later pears, early apples, late apples and winter apples. Berries are good. Hooping healthful. The canneries are using such a variety of softer fruits that by one doing all his own work he could be kept busy the whole season.

Irrigating would be just a play time, a sort of rest from the arduous tree climbing and picking; or such could be done before breakfast by a little earlier rising on into the fine evenings after the evening meal. Picking can be made a happy time thinking of the large income by doing all one's own labor, and sweet songs would be heard through the whole valley. Every good thing would be coming by diligence.

As it is, the grower (average) hires his sprayer, irrigating, thinning, picking, sorting, packing and delivering. All such has to be paid from his receipts and he is, by his proud system of lordism, left holding the sack.

Then Mr. Grower has a fine car and his trips to town are about 500 out of the 365 days in the year. If Mr. Grower will take a look he will notice our townsmen, merchants, clerks, officials, continually on the job every day all the year and they are not kicking all the time about hard times.

Our newspaper men have their eyes continually on the manuscript, or type, or press every minute, all the time, all the days.

Mr. Grower, you know you do not do anything like all the time work that you could do. "Every good thing comes by labor." Work! Work! Work! Take a joy in it and you will prosper.

Another authority says, "A slothful man is equal to him who is a great waster." The average grower is slothful and a waster. It is the same in wheat growing as in fruit growing.

From your own friend who has worked as a grower 23 years and lived well, but who at one time hired help and went in the hole.

Faithfully,  
Ometime Grower.

**W. C. T. U. NOTES**

The United States and Great Britain have signed a treaty relating to prohibition enforcement, which grants to this country a wider range off the coast for the search of ships for contraband. This treaty has somewhat inexcusably been referred to as the 12 mile limit. As a matter of fact, no specific limit is placed. Under the terms of the treaty, any ship suspected of smuggling liquor under the British flag would be liable to search and seizure if intercepted within an hour's sailing distance from shore, the speed

of the ship being the measure. It has been estimated that this averages 12 miles.

The Pictorial Review's poll shows a majority of its readers for prohibition. The editor, in giving results of the first 19,578 ballots received, believes they indicate clearly the trend of voting. 12,571 were for prohibition and 5,224 for modification.

At the Anti-Saloon League convention held in Washington, D. C. recently, Lieut. Gen. Nelson A. Miles argued against restoring light wines and beer. He asserted that it would be a step backward, because the experiment was

tried in the army under an order of President Hayes and it was not successful. Bishop McDowell said, "The world can not live half drunk and half sober. If the rest of the world will not keep out of the United States, the rest of the world has got to be made sober by the United States."

Dr. J. H. Ferguson, of Middlebourne, W. Va., says that in boozey days with the population the same as it is now, Middlebourne boasted two small unattended churches. Today the town has four well attended churches. In boozey days they tolerated a little old wooden school house located in a lot full of mud and sent their children to play marbles and hooky. After prohibition wonderful brick public and high school buildings were erected.

**Next Spring—**

With over 200,000 orders for Ford Cars and Trucks already placed for delivery during the next few months, we are facing a record-breaking spring demand.

Each successive month this winter has witnessed a growth in sales far surpassing that of any previous winter season. This increase will be even greater during the spring months, always the heaviest buying period.

These facts suggest that you place your order early to avoid disappointment in delivery at the time desired.

It is not necessary to pay cash for your car in order to have your name placed on the preferred delivery list. You can make a small payment down, or you can buy, if you wish, under the convenient terms of the Ford Weekly Purchase Plan

**MR. COHEN, IRISH MERCHANT COMING**

Isenberg & Thornton, the city's team of entertaining advertisers, who last Thursday night presented Circus Day will present the theatre-going public tonight with the laughable incident that befell an Irish country storekeeper who was repeatedly and constantly beset by a stage-dwelling salesman. The latter, with a persistence that was rare even in a Jewish salesman, finally caused the death of the storekeeper, as the farce is played by the entertaining advertisers.

Last Thursday night Punch-Isenberg represented a chimpanzee, captured in the wilds of Mosier, and loaned by the people of the neighboring municipality to Manager K-stad, of the Rialto, for the special occasion. Mr. Thornton was a ringmaster and performer combined. Mr. Isenberg made an excellent chimpanzee. He cavorted over the stage, did tricks and ate peanuts and other tidbits exactly as a simian would have done. Indeed, so excellent was his part that the boys this week are referring to him as the Stud Monkey.

**POMONA GRANGE IS TALKING OF RECALL**

Members of the Hood River County Pomona grange, who have been threatening institution of a recall action against County Judge Hasbrouck, will be pleased to a large degree, they say, if Judge Hasbrouck declines to present the county with a bill in excess of \$300 for the survey of a proposed road to connect the intersection of the Columbia River and Mount Hood Loop highways with the bridge now under construction across the Columbia river. In a conference between the county court and a special committee from the grange, Judge Hasbrouck stated that the bill had never been presented to the county and perhaps would never be. The grangers say that Judge Hasbrouck had acted without authority in ordering the survey.

The members of the county granges are irked over failure of the county court to pay a bill, in excess of \$100, contracted by the now defunct county tax and conservation committee. Members of the committee have sent word to County Judge Hasbrouck that the recall will be revived unless this bill is paid.

**Dee 500 Club Meets**

The 500 Club, composed of Dee and Dee Flat folk, met Saturday evening at the home of Mr. and Mrs. J. R. Edgar, Mr. and Mrs. Edgar and Mr. and Mrs. J. H. Crenshaw entertaining. It was a costume party. The evening was spent in cards and dancing and a delicious supper was served. Members of the club present were: The Crenshaws, Edgars, McCannons, Parkers, Hazlett's, Cuthbertsons, Teches and Wirricks. Guests were Mr. and Mrs. Clem West, who have been visiting the home of J. W. West and the Wirricks, and Judge and Mrs. H. L. Hasbrouck and Hubert Hasbrouck, who spent the week end with Mr. and Mrs. Crenshaw.

**WHITE SALMON**

The Union Oil Company has taken an option on land in Bingen to be used as a distribution station for their product in this district.

Orders for bridge planks and timbers to be shipped to Chicago are being received by the Alfred Lumber Co. and the mill in the Mt. Brook district is working steady. Mr. Alfred reports also cutting 250 5x16 timbers for the White Salmon-Hood River bridge.

J. H. Jarvis started logging Monday for the Alfred Lumber Co.

At a meeting of about 200 people of the local school district Wednesday night it was decided to build a grade school building on a new location, south of the Washington hotel. Discussion of high school situation, as a result of the vote of last Saturday when Pleasant View turned down the union high school proposition, brought out this White Salmon's present high school building, which is splendidly equipped, is large enough for the needs of the local district, and that unless a high school plan was favorable to some outside districts, all efforts should be put forth in at once erect the grade school building so that it will be ready for occupancy by September 1.

Fire of unknown origin destroyed the saw mill of the John Lumber Co. Monday night, February 11. There was no insurance on the mill and the loss totals \$10,000, according to Manager R. O. Lyon. The fire was discovered in the sawdust bin at 11 p. m. by Night Watchman Thomas. How it started there is a mystery as there was no fire in the engine room at the time. No lumber was destroyed, the 250,000 feet in the yard being out of the danger zone.

Logging operations were ordered stopped Tuesday, and with the mill gone, 30 men are now out of employment. Manager Lyon states that he does not know whether the mill will be rebuilt until the members of the company get together.
