is the only  
Light-Six with  
**4-Wheel  
Brakes**

Standard on 1924 Models  
at no Extra Cost

You wouldn't knowingly buy a car that wasn't up-to-the-minute, any more than you would pay good money for a house lacking essential modern features.

By the same reasoning your new car should certainly have four-wheel brakes—a proved safety essential.

The True Blue Oakland is the only light-six on which you get four-wheel brakes as standard equipment. Sound, simple, easily adjusted, give a satisfying assurance of safety under every driving condition.

Many Other Exclusive Features

Oakland also is the only light-six with permanent top, special Duco finish, controls on steering wheel, special glass enclosures and many other exclusive features.

If ever there was a car which sells itself, it is this year's True Blue Oakland Six. Don't choose your next car until you see it.
