HOOD RIVER GLACIER, THURSDAY, MAY 1, 1924

BOYD JENKINS WRITES LUNCH CLUB MEN ODE TO A CRIBBER HEAR DEAN HALE

In an appeal to citizens to give heed to the needs of higher education, which by leaps and bounds in the part or years has fur outgrown physical properties and available funds, Dean William G. Hale, of the University of Oregon Law School, addressed the Tuesday Lunch club at the Columbia Gorge hotel Tuesday. He was infit deas of 1907, who is chairman of this county's endowment committee. Mr. Kelly reports that the scores of old Oregon grads here are displaying a keen interest in the county will make its quota in the \$1,000,000 alumni fund on the hausching of the campaign.

ampaign.

ampaign. Ing of the campaign. Dean Hale concisely and impressive-ty told his hearers of the needs of higher education in Oregon. While he utilized statistics from the University of Oregon, he declared that the same would apply to other institu-tions. In 1913 and 1914 the university had on the campus but 732 stu-dents. In 1923 and 1924 these have grown to 2,500. This, he said, has resulted from the rapid development

of the high schools." "We have, after a study of the situ-ation," said Dean Hale. "reached the eking higher education will continue to flow to the colleges in a steady

Dean Hale gave the following sta Dean Hale gave the following sta-tistics on those at present served by the university, in addition to the real-dent students in the college: Sum-mer sessions, 900; correspondence work, 869; Portland extension work, night schools, 1,550; miscellaneous lectures annually, 57,000; lectures, films and slides annually, 240,000. He declared that any business man could visualize the strain put on the finances of the university when it is compre-

have a third more students in their classes. Dean Hale declared that Oregon-ians, if they would cooperate with each other, would be able to provide at home all educational facilities for their children and not have to send them to other states for their higher education. He stressed the needs of education in a democracy, declaring that it was education that frees men from the handleaps of ignorance. Only can a democracy develop and thrive, he declared, as the level of education to the entire body of people is raised. He cited the advancement in industry and methods of living that have been brought about in the past decade through education by chemists, by engineers and master minds of other lines of industry.

"Education brings truth," said Dean Hale, and then he quoted from Scrip-ture: "Ye shall know the truth and the truth shall set you free." A committee appointed to nominate a successor to Vice President Snow reported Dr. H. D. W. Pineo, who was
