## Export Interest is Keen

More than usual interest is taken in the apple market here by European interests. Heavier purchases of apples have already been made by Europe at Pacific Northwest points than during any previous season.

Pacific Northwest growers have been greatly benefited by this export movement and especially so, as for the first time the foreign markets will "make" the domestic markets.

As most of the Pacific Northwest apple crop consists of small sized fruit this season and Europe takes practically all of such sizes—from 162 to 224 apples to the box—this means that the American trade will be forced to pay similar prices for its needs.

Of special import in the trade this year is the fact that the Columbia river section of Oregon and Washington has the only large crop of apples. The high prices being paid mean prosperity to the apple producing sections.

According to E. F. Clark, of the Clark-Baker Company, brokers, the sales of apples to Europe at Pacific Northwest points have been so huge that growers are no longer willing to make sales. In fact, there is a temporary lull in the apple market due to the unwillingness of growers to sell even at the high prices now being quoted. Last sales of Columbia river district Spitzenburgs were around \$1.85 to \$2.00 per box for the 150 size and larger with Yellow Newtowns \$1.75 to \$1.85; Winesaps, \$2.10 to \$2.25; and Winesaps, \$2.10 per box. Virtually all of the Jonathans have already been sold.

## Sam Hepper Loses Apples

Thieves entered the barn of Sam Hepper in the Frankton district last week and stole 15 boxes of packed apples. The incident has caused officers and ranchers to be on the alert, fearing a repetition of thefts of several years ago when apple bandits visited apple areas in motor buses and made several wholesale hauls.

## ATTEMPTS MADE TO WRECK FAST MAIL

Two attempts to wreck fast mail trains between Hood River and Rooster Rock, west of Pridal Veil falls, recently were revealed in The Dalles last Thursday with the arrest of a man who goes by the name of "Pendleton."

The suspect, believed to be at times mentally unbalanced, was quizzed at The Dalles police headquarters by Ed Woods, chief detective of the O. W. R. & N. Co. "Pendleton" was arrested from descriptions of the track walker, who saw a man in the neighborhood of Rooster Rock Tuesday night, September 16, when a push car was struck and knocked from the right of way by train No. 6, eastbound.

The second attempt to derail the mail train, westbound, was made Tuesday night, September 23, just west of Hood River, according to the police.

Both times the objects placed on the rails were knocked off without serious damage to the trains, it was stated. On the last occasion, an unknown object, believed to have been west, was hit but the train proceeded west without stopping for the train crew to ascertain the cause.

Had the eastbound mail train been traveling at full speed the push car would have undoubtedly derailed the engine and caused a serious accident, railroad men stated.

"Pendleton" when arrested was in the possession of a gun and his pockets were filled with junk, such as broken watches, knives and other usual belongings of a hobo. Although he claims to be only 44 years of age, he is quite gray and appears much older. He admitted that at times he was "off" mentally.

Although railroad police asserted they were convinced that "Pendleton" was the man who placed obstructions on the track, he was released upon his purchase of a ticket for Spokane. The man admitted that he might have placed the hand truck on the track which was struck by train No. 6, saying that he realized that he was at times mentally unbalanced. Railroad police took the stand that there was no criminal intent displayed, and permitted "Pendleton" to go free.

Freezing Weather Encountered

Paul Reed and Percy Bucklin, who ascended to the summit of Lookout mountain, wooded peak just to the east of the Mount Hood Loop highway south of the Upper Valley, found a freezing temperature Sunday. They encountered but little snow, however. The summit has an elevation of 6,500 feet.

"We made the round trip from the highway, where we parked our car in three hours and 55 minutes," said Mr. Bucklin. "The trail is five miles long. The weather conditions were ideal for long distance vision. The upper stretches of country are now appealingly vivid with the fall coloring of foliage. It is the best time of the year for a woodland hike."

Battle of Corinth Recalled

S. F. Blythe, 81 and dean of North-western newspaper, publishers and printers, last Friday recalled his service in the 22nd Ohio regiment 62 years ago at the battle of Corinth. Mr. Blythe characterized Corinth as one of the hottest little fights of the Civil war.

Another local G. A. R. man, Thomas Goss, of the West Side orchard district, participated in the battle of Corinth, serving with the 14th Wisconsin regiment.

## SERUM FOUND FOR NEW SKIN DISEASE

Dr. H. B. Meyers, bacteriologist of the University of Oregon Medical school in Portland, was here last week, en route to The Dalles to observe patients there affected with a skin disease peculiar to cannery workers. The disease was first noted about a year ago, and Dr. Meyers began immediate investigation. An assistant has been stationed at The Dalles to check up on the cases.

Dr. Meyers stated while here that the disease was caused from bacteria present on the fruit. He has discovered a serum that effectively cures the ailment. While here Dr. Meyers called on the family of his cousin, Mrs. Ed Abbott.

Use Doan's Pills. Thousands of old folks recommend Doan's.

Here is Hood River proof: Mrs. N. A. Monroe, 814 Cascade avenue, says: "My back and kidneys bothered me and I felt run down and miserable. Doan's Pills helped me greatly and soon restored me to my usual good health. Such a fine remedy as Doan's should be known to all."

Over seven years later, Mrs. Monroe added: "Doan's have always helped me when my kidneys troubled me."
