BENNETT IS OFF FOR CONVENTION L. A. Bennett, local manager of the J. C. Penney Co., will leave tomorrow for Atlantic City, N. J., for the annual convention of the J. C. Penney managers. He and other northwestern managers will join a special train at Cheyenne, Wyo. The special train, one of six that will carry the delegates, will be made up at Ogden, Utah. Noted for its many great inspirational conventions, Atlantic City—the queen of seaside resorts on the Atlantic coast—will be the scene January 20 to 23 of one the most unusual characters. It will have a nation-wide significance. For possibly the first time in its history, the administrative personnel of the great mercantile organization has set aside its every-day activities to bring its executives, co-partners and managers together for four days of inspirational enlightenment. Business matters will be entirely eliminated and the several sessions will be devoted exclusively to the desirability of creating a higher plane of efficiency for the man in business pursuits. The convention will be held at the Ambassador, one of the palatial hotels of Atlantic City. Managers and their wives to the number of nearly 1,000 will be present. Many notable men will speak, among them Hon. William Jennings Bryan, Senator Frank B. Rowland, Dr. Russell H. Conwell, Judge Harold Wells, Dr. James E. Lough, Fred B. Smith, secretary of the International Y. M. C. A.; Rabbi Stephen S. Wise and the Jewish rabbi of New York, and Arthur Nash, the man who insisted upon putting his garment manufacturing business on the Golden Rule basis. The speakers from the J. C. Penney company will be J. C. Penney, E. B. Cramer, George H. Bushnell, Thomas Tapper, Francis Burgette Short, all of New York, and F. R. Payne of Salt Lake, Utah. Three special Pullman trains will take the entire party from Atlantic City to New York Saturday, January 23, where the company's offices and warehouse will be inspected. The managers will board several special trains the following week for the return home. The evening will be held on Friday evening, January 23, with a banquet, for which nearly 1,000 covers will be laid. EPISCOPAL CONVO-CATION THIS WEEK A delegation from St. Mark's church will go to Pendleton this week to attend the annual convention of the eastern Oregon missionary district. LEGION NOTES Monday, January 5, the Hood River post of the American Legion installed officers for the year 1925. George R. Wilbur, past commander of the department of Oregon, represented the department as installing officer. New officers are: Van W. Gladden, commander; Harold Hershner, vice commander; Don McLeod, adjutant; Francis Gunn, finance officer; Dr. Fraser, chaplain; Arthur H. Lee, secretary; and Wm. R. Lee and Harry Hettlinger, executive committee. The meeting was one of the best attended of the year, there being 65 legionnaires present. The meeting was held in the old quarters over the First National bank building, the room having been newly renovated and remodeled. After the business meeting of the Legion's new quartet entertained with a number of songs, which were well received. The post looks forward to a lot of good entertainment from them in the future. The question of financing a drum and bugle corps was brought up before the post and was enthusiastically approved and a committee appointed to act in the matter. Walter Ford passed the derby and a collection was raised to finance an entertainment at the club on next evening, which will be for the legionnaires and their wives, mothers, sisters and sweethearts. The entertainment committee has a good program, and the singing program, which is a peppy one. The word was received this week that State Commander Griffin and Adjutant Moser will probably be with us for the next meeting. A delegation of nine legionnaires attended the installation of officers at The Dalles post last Monday night. Past Department Commander Wilbur was installing officer. The Dalles furnished an excellent entertainment and plenty of good music. The business meeting. All those attending reported a very enjoyable evening. A Little Powder Left (By Ledy Childs) We have just been notified that there remain but 10 more cars of material available for the making of pyrotol, the government stumping powder which is being prepared at the DuPont plant. The government powders, both sodalot and pyrotol, have given excellent results wherever these materials have been used. During the past year 2,000,000 pounds have been used in the state and the saving to farmers and those clearing land as compared to the existing price of stumping powder has been more than \$163,000. The saving to farmers in Hood River and Wasco counties on this basis has been approximately \$11,000. Those who have used this material state that it is superior to the ordinary stumping powders which cost more than twice as much as pyrotol. In view of the fact that but 10 cars of this material are available, it is highly important, if growers are interested, that they place their orders immediately. It is very questionable whether we would be able to place our order after February 1, because of the limited supply. Orders will be received by L. M. Baldwin, of the First National bank, or the experimental station up to that time. We

feel that it would be wasted effort to give the matter much attention later than this date. The price of the powder is \$8 per 100 pounds, including cartage. If you are interested, place your order immediately that we may participate in the 10 cars which still remain for disposal. BIG ROCK SLIDE BLOCKS HIGHWAY The face of a solid overhanging rock cliff, loosened by the thaw following the recent below zero weather, tumbled on the Highway just west of Twin tunnels, between here and Mosier last Thursday night. Traffic was completely blocked. Supervisor of Maintenance Nickelsen immediately rushed a crew to the scene and work in removing the mass of rock, some of them weighing tons, was started. It was feared that the falling mass of stone might have caught a passing car. The work of crews advanced feverishly until it was determined that no machine had been buried under the avalanche. While the road was blocked traffic was detoured by way of the Rowena-Lyle ferry and thence to the Hood River-White Salmon bridge over the North Bank highway. Crews were busy throughout Friday night and about 3 a. m. Saturday enough of the rock had been moved to allow a single track passage around the slide. WORLD PEACE TALK FRIDAY, JANUARY 23 Pastors have arranged for a community mass meeting in the interest of world peace to be held in the Riverside Community church Friday night, January 23, with an address by Hon. Clinton N. Howard, of New York, chairman of the World Peace Commission. Transients Housed in Jail Twenty-four transient men, all under 30 years of age, slept in the corridors of the city jail last night. The men were apprehended by City Night Marshal Conover as they loitered around the streets. They were aroused and sent on their way from town at 6 a. m. A light snowstorm prevailed throughout the night, which would have made sleeping outdoors a feat without comfort. Officer Conover says that the good will of the men is won by giving them comparatively comfortable sleeping quarters. He says, too, that possible mischief from their prowling is eliminated when they are kept under surveillance in the jail. Billy Sunday Has Opportunity A call has been sent by the churches of Portland to William Sunday, evangelist, to spend six weeks next fall in leading a revival campaign here. The call is not unanimous, though it is as nearly unanimous as most of our undertakings at popular voting. As at all elections, the number of votes is very considerable. Actual hostility to Mr. Sunday is neither great nor hot. In churches not voting there is doubtless a large number who would favor such a campaign. In the churches voting adversely are many members who would have voted favorably. If Mr. Sunday had been called by a majority of one with a hundred churches red headed and fighting hot over the question, the outlook for a whirlwind revival would be far better than is the present situation with a third of the churches too indifferent to hold up a hand when the "ayes" and "noes" are called. If Mr. Sunday accepts the call and backs into this soft snowbank of indifference and wins out by plowing and melting his way through, he will have achieved one of his greatest life victories.—Portland Telegram.
