Inbuilt Quality can be imitated
How many times you have seen shoes that look as good as "Star Brand"—for a little while. They may hold their shape and their smart appearance for days, even weeks! But months and years take costly toll of "cheap" footgear.
It is then you realize that the inbuilt quality of "Star Brand" shoes can be imitated but not equalled.

STOCK OF STORED APPLES IS LIGHT

Of the approximate 3500-carload crop of apples harvested in the Hood River valley last fall, less than 100 cars remain unshipped. The Apple Growers Association, which received from its growers 2,018,261 boxes of apples, a third more than any former season, has the bulk of the remaining stocks, the fruit in its cold storage plants reaching 66,282 boxes.

All of the remaining apples are of high class Newtowns, which are expected to bring the top returns on the late market.

CALIFORNIANS ARE COMING SAYS BUTLER

Truman Butler, who returned Friday from a vacation spent in southern California, said he found the residents of all sections eagerly looking forward to the coming of summertime when they will take the road and motor to Oregon for their vacation days.

"At least a half of the people with whom I talked," said Mr. Butler, "are going to spend a part of the summer in Oregon. I predict that we will have more California visitors by far than in any former year. I find that Californians know nearly as much about the Columbia River Highway as do Oregonians. They have also heard about our Mount Hood Loop Highway. Many of those who have already motored to Oregon are coming again to make the Loop trip this year. The others plan on including it in their itinerary."

"I find that our Hood River valley is a magnet to many. It has been advertised by our apples and the highways. I think you will find the Mount Hood forest thickly dotted with the camps of California outing parties by early July."

"This lure of Oregon to the Californians seems to be kind of cumulative. Every crop of motor tourists that we have from there sends a doubly large new crop the next year. The Californians are certainly sold on Oregon as a place to spend the summer days."

Mr. Butler visited various California points and stopped a while in San Jose to visit the family of W. B. Dickerson, engaged there in the spray business. He declares that San Jose is one of the solidest cities of California, built on the great fruit and diversified agricultural interests of the Santa Clara valley. Mr. Butler visited with his daughter, Miss Marion Butler, who is a student at Mills College.
