

DIVINE HEALING TO BE SERMON SUBJECT

Rev. W. O. Livingston, pastor of the First Christian church, will speak next Sunday evening on the subject of "Divine Healing." Mr. Livingston has received a number of requests to speak on this subject, as it is one about which there is much confusion, and the speaker has proven himself capable of handling the subject in a competent manner.

For a number of years Mr. Livingston was a member of the International Society of Physical Research of London, England, and has been recognized as one of the leading authorities on practical psychology in the United States. He will deal with the subject from both a scriptural and psychological viewpoint, drawing from personal experience of many years and extensive study on that subject. Mr. Livingston attracted much attention in the central west some years ago by his lectures on psychology, and has given abundant evidence of the fact that he can qualify as an expert in the field. The sermon Sunday evening will be the opening of a two-weeks' revival meeting at his church. The Valley Christian church will unite with the town church, and will supply the music for the occasion.

Wm. Hawley Smith, noted psychologist of Peoria, Ill., has the following recommendation of Mr. Livingston's sermon: "Rev. W. O. Livingston's lecture on 'Demonstrable Psychology' is one of the ablest presentations of the subject that I have ever listened to. He has something to say, and he says it well. He knows what he is talking about, for a large part of what he tells is taken from his own experience. He uses language that all his hearers can comprehend and understand, and so his lecture has all the essentials of popularity. It is a lecture that will be greatly enjoyed by all who hear it. No higher praise can be given. I commend it to any and all people who are interested in this most important of modern sciences."

Information Wanted. Two weeks ago we learned that if there were no water in the irrigation ditches it would cause inconvenience to many growers in connection with their spraying program and last week we learned that it is not advisable to dump all your sodium nitrate in one spot, but to spread it over the orchard would be more advisable. These knotty problems having been solved I would like information from anyone who can furnish it on the following points:

(1) If it is essential to spray for blight mite with a strong solution of lime-sulfur before the buds begin to open, what is the practical danger to adjoining trees if this is not done?

(2) When spraying is not being done in time to control the blight mite what measure should a grower take to protect himself?

After the valley's experience last year with this pest (no one yet has dared estimate the loss in apples and cents) it would seem that nothing but heroic measures timed with military precision will avert further large losses. This view is based upon the assumption that our "dope" at the present time is correct.

Frans to Hold Paint Demonstration. An interesting paint demonstration will be held Saturday at the Frans Hardware store, when a paint and varnish expert from the Acme White Lead and Color Works will spend the entire day in the store, showing householders how to use various kinds of paints and varnishes. The demonstration work, it is declared, is extremely instructive, and it is anticipated that the store will be crowded throughout the day with those ready to begin the spring's paint program.

Notice to Auto Camp Owners. The new law regarding the establishment of auto camps requires that persons conducting such must apply for license to conduct same, whether for a fee or charge or otherwise.

Blank applications are in the hands of those who contemplate engaging in this business and a copy of the law will be sent with the permit to conduct such places. A fee of \$10 should accompany the application.

Moonlight on Burdon Mountain. Yack n' Yill vent oop da hill To get a pall o' "moon"; Yack fell down n' broke his crown. And Yill? She keek da 'crown. Uncle Wee Wee.

Talk with Young. Ten to 70.

YOU MAY WIN \$1,500. If you are able to make the most words out of the letters contained in the word "NECESSITIES". A total of \$1,500 IN CASH prizes will be awarded to competitors in this GREAT WORD-BUILDING CONTEST.

Send stamp for circular and rules. Address: Sheffield Laboratories, Dept. 13, Aurora, Ill.

HEADQUARTERS FOR PAINT AND WALL PAPER. THESE WALL PAPER PRICES ARE LOWEST! Let me show you my 500 new 1925 styles in wall paper. The same papers now being shown in New York, Chicago, Boston, Los Angeles and from coast to coast.

These papers are bigger values than you can get anywhere else and guaranteed to hang right and give long satisfactory wear. Expert decorating done neatly and carefully.

W. O. W. HOLDS SUCCESSFUL MEETING

The Hood River Camp of Woodmen of the World held a pleasant and successful meeting at the First National Bank hall last Thursday evening, when representatives were present from lodges at The Dalles, White Salmon, Goldendale, Dufur and Cascade Locks. Boring, Astoria and Astoria Luch were staged. A sumptuous lunch was served. Interesting addresses were delivered by Chancellor Commander Reed, of The Dalles camp, and others. Twelve new members were initiated into the mysteries of the side degree.

Woodmen of the World rendered valiant aid in the search for the body of William Tysak, member of Malinac Camp No. 77. Within three hours after the word was received of the tragedy W. H. Mitchell, secretary of the camp, and other members were on the ground. Hood River and White Salmon Woodmen aided in the search.

Rushing Antitoxin to Alaska. (By Frederick D. Stricker, M. D., collaborating epidemiologist of Oregon State Board of Health, in cooperation with the United States Public Health Service).

The recent dash of the dog teams across the frozen snows of Alaska to save the diphtheria stricken children of Nome with the life-saving diphtheria antitoxin sent a thrill across this country. Braving blizzards and fighting the frost, the dog team drivers faced overwhelming odds to bring relief to the little sufferers. When the dash was over, the remedy received, more of us had a greater sense of appreciation of the advantage of living in Oregon where antitoxin and the preventive treatment for diphtheria are easily available. But have we those of us who are parents made use of these advantages and protected our children against diphtheria?

Diphtheria antitoxin was first made in 1894, and was shortly afterwards introduced into the United States. It was promptly recognized as a sure cure for the disease if given in time, and as a preventive when given to those who had been exposed. It was thought that diphtheria would soon be eradicated. To be sure, the number of deaths from diphtheria has diminished considerably. But why do we still have any cases or deaths? We have cases because there are diphtheria carriers, those persons who harbor the germs of the disease but have enough natural resistance so that they do not show the symptoms or become ill.

Because antitoxin was not available, many people died from diphtheria. It was promptly recognized as a sure cure for the disease if given in time, and as a preventive when given to those who had been exposed. It was thought that diphtheria would soon be eradicated. To be sure, the number of deaths from diphtheria has diminished considerably. But why do we still have any cases or deaths? We have cases because there are diphtheria carriers, those persons who harbor the germs of the disease but have enough natural resistance so that they do not show the symptoms or become ill.

The Schick test is a painless and harmless test by which it is possible to determine whether or not children are immune to diphtheria—that is, whether they are naturally safe from the disease. We can all have whether or not we are immune to diphtheria.

But that is only the beginning. If we are not immune, we can be made so by what is known as the toxin-antitoxin treatment. This treatment consists of injecting into the skin three small doses of diphtheria toxin-antitoxin, a pure and entirely harmless product. Three injections make us immune to diphtheria. The prevention of diphtheria is not a fad. It is a proven safe and certain procedure.

The Old Order Changes.

Having sold my farm and am leaving for Oregon territory by ox team, I will offer at public sale on March 3, 1840, all my personal property, to-wit: All ox teams except two teams, Buck and Ben and Tom and Jerry. Two milk cows, one gray mare and colt; 1 pair of oxen and yoke; one baby yoke; two ox carts; 1,000 feet of poplar weather boards; plow with wooden mold-board; 800 to 1,000 feet of clap-boards; 1,500 ten-foot fence rails; 1 sixty gallon soap kettle; 85 sugar troughs made of white ash timber; ten gallons of maple syrup; two spinning wheels; thirty pounds of mutton tallow; one large loom made by Jerry Wilson; 500 poles; 100 split hoops; 100 empty barrels; 1 52-gallon barrel of Johnson Miller whiskey, seven years old; 20 gallons of apple brandy; 1 40-gallon copper still; one dozen real books; two handle hooks; 3 scythes and cradles; one dozen wooden spiles bullet mold and powder horn; rifle made by Ben Miller; 50 gallons of soft soap; hams, bacon, lard, 40 gallons of sorghum molasses, six head of fox hounds, all soft-mouthed except one.

At the same time I will sell my six Negro slaves, two men 55 years and 50 years old; two boys, 12 and 18 years old; 2 mullatto wenches, 40 and 30 years old. We will sell all together to same party but will not separate them.

Terms of sale, cash in hand or note to draw four per cent interest, with Bob McConnell as security. My home is two miles south of Versailles, Ky., on McConn Ferry Pike. Sale will begin at 8 o'clock a. m. Plenty to drink and eat—J. L. Moss.

Cleaner Campaign Lanned. Last Monday evening in the local Pacific Power & Light company office a pre-arranged cleaner campaign, pep and sales meeting was held at which the office forces from The Dalles, Goldendale and White Salmon were present. Sales talks were given by J. J. Pearl, Northwest manager for the Fremont duplex vacuum cleaner, and V. H. Moss, appliance sales superintendent of the power company.

The president's trophy, which is now held by the local office, is at stake and a record sales showing is assured.

Bowling Team Ready to Go. The Hood River bowling team, the personnel of which was announced Monday, will engage in intensive practice games at the R. A. Crooks alley the next week preparatory to entering the International tournament to begin at Aberdeen, Wash., April 5. The local men who will participate on the Hood River team are: E. B. House, D. P. Smith, Alva Sherrill, A. A. Green and Harry T. DeWitt.

Dreammaking and needle work. Mrs. Jennie Hunt, 414 Cascade ave., at corner of Seventh street. my21

LEGION POST WINS PRAISE FOR STORY

The Hood River American Legion post has won resolutions of commendation from the Hood River Chamber of Commerce and the Tuesday Lunch club for nationwide publicity received through an article in the American Legion Weekly. The article, entitled, "The Post That Found a Mountain," tells of the activities of the local legionnaires in popularizing Mount Hood.

"I want to express my approval of the work of the legionnaires," said C. H. Casner in presenting the Lunch club resolution. "It is securing this publicity for our community. It was a work that was worth a great deal to Hood River."

M. W. A. HOLDS CEREMONIAL SATURDAY

The local camp of Modern Woodmen of America held a successful ceremonial last Saturday evening. Members of the Portland camp and camps of mid-Columbia points were here. Following a parade through the business streets, when drill teams executed maneuvers, the lodge met in the Odd Fellows hall for a session and a luncheon. State officials were present.

More than 200 were present for the pleasant fraternal gathering.

BASEBALL GAME IS SET FOR SUNDAY

Manager A. L. Anderson of the newly organized Hood River Baseball club, which will play a set schedule with five other mid-Columbia towns, has announced that the team will play its first game here next Sunday with an amateur team of Portland.

The local ball players who have secured a park on Paradise farm west of the city, are now engaged in practice each evening.

News of the Golfers

The links were crowded over the week end.

Many are taking advantage of the instructions of the professional, Jack Rountledge.

All holding Golf Club bond coupons are instructed to present them at either of the local banks for collection.

The Hood River Country club tournament committee will meet this week to plan the special matches and tournaments for the coming season. E. E. House, chairman, is figuring on special matches with Oregon City, The Dalles, Seaside, Astoria, Astoria, Salem, and a number of other outside towns.

In addition to this outside competition, there will be something planned within the club so that there will be something doing for all club members right through the season. It is desired to arrange tournaments and special competitions so that all club players may have a chance to participate, whether they bend the handicap list or come at the foot.

The first thing planned will be the qualifying rounds for the all season "goat" tournament. A qualifying round of 18 holes will be allowed either Sunday, March 29, or April 5, set scores to be recorded. Full details as to this whole season competition will be posted on the club bulletin and he printed in full in both local papers next week. Mr. Rountledge will have charge of the course and explain the tournament plans and take care of the scores.

For the benefit of all club members it is herewith announced that for the rest of the season all tournament and match notices will be published in both papers and posted on the club board at the course. No other notices will be given.

WEDDINGS

Bone-Foster. Announcements were received Sunday of the wedding of Noah W. Bone and Miss Clara Madeline Foster at San Diego, Calif., March 18. The romance started in England, when Miss Foster, whose home was in England, was here visiting at the home of Miss Bessie Henry, a neighbor of Mr. Bone.

Mr. and Mrs. Bone started north immediately following their wedding. They expect to spend the summer on the Willow Flat orchard place.

Miss Hutchins Wins Coal. Miss Bertha Hutchins, who guessed 3,062 pounds, was winner of the ton coal offered by the Eddy Lumber & Fuel Co. for the closest guess to the weight of a huge lump of King coal exhibited for the past several weeks at their office. The actual weight of the coal was 3,060 pounds. The highest guess was 3,000 pounds and the lowest was 500 pounds. The average of the 290 guesses turned in was 2,887 pounds.

The nine next closest guessers were: J. E. Smithson and Marie Lyon, each of whom guessed 3,000 pounds; Orville Lakin, Mrs. Lottie McLean, Mrs. Susie Suter, Jesse Thomas, F. L. Tate, Vern Lill and Chas. Sherrill.

Big Picture to be Displayed. A gigantic picture of the Hood River valley, 26 feet long and five feet high, made by the Chamber of Commerce for the Panama Pacific International exposition in 1915, will be brought here and exhibited this summer at the Hood River Garage. The picture, an enlargement in color by the Kiser studio in Portland, was the largest of its kind ever made at the time of its execution.

Smoky and Smelly Oil Slaves Cured by using Eucosne Oil. Try this high grade coal oil next time and see the difference. Any quantity, gallons to barrel, at E. A. Erass Co. m294

BAND PLAY DREW A WARM APPLAUSE

The three-act comedy, "Captain Rackett," presented here last Thursday evening and at Parkdale Monday evening, won warm applause in both places. Mrs. Clyde Simpson, as director of the play, and her husband, director of the band, the reputation of which continues to grow, both won commendation.

Those who participated in "Captain Rackett" were: Harry Wood, Paul Ross, Fred Reed, Bert Mitchell, Joe Meyer, Miss Betty Simpson, Miss Marie Henck and Miss Lola Kinnaman.

The band members have been requested to give the play, as popular as it, again, and plans now call for presentation of it at the Rialto theatre again next Thursday night.

Farm Pesters

Free service for identification of plant diseases in Oregon and for supplying free advice to growers through correspondence on their disease control problems is maintained by the state college experiment station at Corvallis.

The dormant spray for control of the San Jose scale in Oregon is made by adding two parts lime-sulfur to 100 parts water. It is best put on in February or March when the buds are small, bright, sunny days being preferable. Application may be delayed when delay is desirable to avoid an extra spray, until the buds show green leaves at the tip. Growers wanting more information may write to the Clerical Exchange, O. A. C. Corvallis, for station circular 22, and the revised edition of the 1925 Oregon spray bulletin.

Serious trouble from blossom blight has occurred on peaches, cherries and apricots in some sections of the country where the blossom blight has not been held in check successfully by spraying just once when the blossoms are opening. In such orchards the following spray program is likely to meet the situation with far greater success, advises the state experiment station: Use Bordeaux 4-4-40 to which soap or casein spreader has been added, three times—first after the winter buds have opened, next after the first blossoming buds have opened, and the last time when the blossoms are in full bloom. Instead of decreasing the amount of fruit, the spray in mid-bloom tends to increase it. This is possible largely due to the preventing of infections which would otherwise destroy the clusters.

Fresh air for young chicks is second in importance only to heat, says the state experiment station. Moisture leaves the chicks by way of the lungs, which necessitates good ventilation to insure a dry brooder house.

In planning the program for the planting of vegetables for market for the coming season, the Oregon grower should be guided by general market demands, the experiment station reports. As far as possible, investigations are made as to the crops which are most likely to be successfully sold. Various counties in Oregon have recently adopted a planting program, specializing in such crops as the soil, climatic conditions and markets best determine. There is often a tendency for growers to do something they want or like to grow instead of using their energy along those lines that appear to offer the best opportunity for profit.

Hot bed ashes are not so expensive these days but that the Oregon gardener can well afford to use them in his gardening work, says the exper-

J.C. Penney Co. HOOD RIVER, OREGON. BUYING MOST WE BUY FOR LESS—SELLING MOST WE SELL FOR LESS.

Spring Suits for Boys That Pass Muster With Mother. Two Pairs Knickers With Every Suit. Boys know live style and they know what they want in clothes. Our Boys' Suits for Spring are designed and modeled after the boys' own ideas. They are as well tailored as our suits for men. A boy can BE A BOY in one of our suits—he can romp and cut loose or be sedate and "dressed up"; the clothes make good every day and every hour of the boys' activities. Buying fabrics and planning models for several hundred stores enables us to cut costs; the savings are substantial and mean lower prices for every suit we sell; it means better values of the sort that mothers insist on. Two Pairs Knickers with every suit means double the wear. The new fabrics and patterns for Spring are exceptionally attractive. The picture above shows some of the new models. Our "Penney Jr." suits at \$13.75 have double seat and knees. The best thing we can tell you about them is that the VALUE goes into every hidden seam and stitch. The suit you buy will measure up to high ideals of quality. \$7.90 \$9.90 \$13.75

These are early head lettuce, cabbage, cauliflower, tomatoes, and in a short time, celery. The greenhouse is valuable for starting plants of these vegetables, making it possible for the grower to have plants that are large enough at the right time and that are vigorous and well grown. In order that these plants may be set out in open ground at the proper season, they must be started during February. Card of Thanks. We wish to extend our heartfelt thanks to the friends and neighbors who so kindly assisted us during the illness and death of our little daughter and sister. Mr. and Mrs. E. W. Jaques and Family.
