THE SCHOOL ELECTION

We have heard many reasons for the defeat of the union high school plans last Friday. It was a very close vote, however...

The analyses of others place the defeat of the school plan on side issues that obscured the real issue. All of the foregoing, no doubt, had something to do with the adverse vote...

INSPIRATION

Whence springs inspiration? It depends much on our mood and temperament. A field mouse, that was, timorous, covering beetle, inspired Bobbie Burns to write an immortal poem...

There are times when the peace of pastoral dells or orchards in bloom, their perfume laden the air, filled with the music of humming bees...

But we started out to pay a tribute to the Hood River Pythian band and the inspiring music our local musicians have been rendering of late...

THE OLD ORDER CHANGES

What a change energetic, enterprising man has wrought in the mid-Columbia Oregon in the past 15 years! Then we of Hood River were isolated. To get out we perforce had to ride on the trains of the O-W-R...

It was the remembrance of pleasure of a quiet ride on a Columbia river steamer that started us on this comment. We wonder if river boats will ever come back. We wish they would...

STREET IMPROVEMENT

For some years past Hood River has been taking care of street work in the most extravagant method that could have been devised. Temporary relief at best has cost the municipality around \$4,000 a year.

Let's get away from this throwing away of \$4,000 a year. We believe time has come for a charter change that will enable the city to raise enough funds to join with abutting property owners and carry out a real program of permanent street improvement.

BECOME A GUIDE

It will not be any task to secure a full membership for the active members of the Hood River Guides, those who will function in the marching body. Indeed, the lists, we are told, are already full.

The April infant welfare clinic will be held by the County Health Association at the court house Friday, April 17, from 1 to 4 p. m. All mothers with small children are asked to bring them for this occasion.

The Hood River Guides will form an organization, well known statewide, and all Hood River is going to be exceedingly proud of them.

HUMANE WEEK

National Humane Week will be celebrated April 13 to 19, inclusive. Ministers on the final day will touch on kindness to dumb beasts in their sermons.

King Victor Emmanuel, of Italy, has been presented with a box of Washington apples, which, in a letter, he has lauded highly.

The dry season is approaching. It behooves all of us to follow the instructions of the fire department and inspect the fuses of our kitchen ranges.

If you do not want a thrill stay away from ear range of the new Legion drum and bugle corps. Those boys just naturally fill the air with peppy rhythm.

Was there ever such weather as this? Arise with the sun some April morn, when the sky is clear and the wind is resting, and you'll enjoy your breakfast.

The wild currant is blooming, but leave the delicate blossoms on the bushes by the roadside, and we'll have the pleasure of viewing more in future years.

These are days when the busy little bee will earn his keep by stirring up the pollen of the orchards.

We'll reserve space for fish yards in next week's issue. The trout season opens April 15.

Who be unto him who has not yet engaged in clean up program. Let him get busy.

It'll not be long until everyone will be asking "The Guides."

ASSOCIATION WILL DISTRIBUTE \$300,000

It was announced by the Apple Growers Association yesterday that a cash distribution of \$300,000, approximately, is now being prepared by the cooperative agency's clerical force.

Next week's distribution will carry the Association's returns to growers past the \$3,000,000 mark, and further cash will be distributed in May.

McDOUGAL FINDS FLORIDA BOOMING

The high tide of the real estate boom, according to Walter McDougal, who returned yesterday from spending the winter in the Palmetto state, is on in Florida.

"I found," said Mr. McDougal, "that real estate activity in Florida is unprecedented. Bolstered by laws that foster industry and attract outside capital, Florida is forging ahead."

"I have never seen such an activity in building. New hotels are going up by the score, for the past winter such was the influx of visitors that accommodations were soon overruled. Business is moving not only on the Gulf and Atlantic coasts, but also in the interior."

County After Speeders

Apprehended Tuesday by County Traffic Officer Riley, D. B. Cramer, local merchant, was fined \$20 yesterday by Justice of the Peace Blagg on a speeding charge.
