GRAVES WILL HEAD TRIP ON SKYLINE

C. E. Graves, formerly local orchardist who organized the Wyeast Club, the members of which spent two years popularizing Mount Hood's points of scenic charm, has written from Arcata, Calif., where he is now librarian of the California normal school, that he is planning a horse-back trip on the Skyline Trail this summer.

The party, which will be limited to 15 people, will leave Mount Hood July 1, and will be led by Walter O. B. Davidson, Upper Valley mountaineer, will be in charge of the pack train. The recreationists will spend 25 days negotiating the 200 miles of mountain trails.

In his prospectus, Mr. Graves gives the following description of the proposed trip:

This trip will pass through some of the finest mountain scenery in the United States. The Cascade mountains are noted for their isolated volcanic peaks, perpetually snow-covered. Although they are no higher than many of the peaks in other western mountain ranges, yet from their isolation and the peculiarities of their volcanic formation they are by far the most spectacular of all mountain peaks.

The Skyline Trail begins at Mt. Hood, the highest of the Oregon Cascades, and in its course of 200 miles passes six other major snow peaks before reaching its terminal at Crater lake. In the vicinity of Crater lake, which is now included in a national park, there are several more high peaks. The trail passes by or close to about 200 mountain lakes, varying in size from the area of a city block to an area of several square miles. Fully decorated with daisies and jonquils, and the kewpie dolls representing a bride and her attendants were attired in yellow and white. Delicious refreshments were served.

Fishing is good in the mountain lakes, and bathing can be enjoyed in most of them. The United States Forest Service has issued many pamphlets describing portions of the trail, and the National Park Service has published folders about Crater lake and park under contract. The "Skyline Camps" describes the scenery at each end of the trail and also in the vicinity of Mt. Jefferson, 65 miles from the north end of the trail.

Council Denies Huelat's Bills

The city council Monday night turned down bills presented by C. O. Huelat, who is operating the municipal auto park under contract for the construction of a trailer used in hauling supplies and a bill from the Hood River News for the printing of 10,000 tags, used in identifying the cars of motorists using the park. The two bills amounted to \$76.50. Mr. Huelat last December was given a contract to operate the municipal park, which the city has equipped at a cost in excess of \$10,000, above the purchase price of \$12,000. Under the terms of the contract he will furnish supplies of the park. He will receive the first \$1,500 of receipts from fees applied to automobilists, and the city the next \$1,500.

The council decided that the items billed to city were supplies that should be furnished by Mr. Huelat.

Mr. Huelat reported to the council Monday evening that the total number of cars registered at the park up to April 1 had reached 38, and that total receipts up to that time were \$22.50.

Lower Water Rate Is Asked

The Apple Vinegar Co., the largest user of water in Hood River, Monday night appealed in a second letter to the city council for a reduction in meter rates. It was shown that the bill for March reached \$206. The company cited that its use of water occurs from November to May, a time of the year when no city water is in demand for irrigation purposes.

City Water Superintendent Clark stated that he had informed the company that the city council's fire and water committee was engaged in a thorough investigation, and that recommendations for a modification of the rates would probably not be made until fall. He stated that he had told the company that the city would undoubtedly be willing to rebate the water users in accordance with the terms of the modification, if such modification is made.

LUNCH CLUB TOLD OF H. R. GUIDES

William Sylvester, president of the Tuesday Lunch Club and peak of the new organization, Tuesday told the members of the former body of the purposes of the Hood River Guides, the new booster organization just effected. Mr. Sylvester cited that the guides will wear a unique badge, which will attract tourists. All members will be fully informed on valley topics and be able to direct tourists.

Mr. Sylvester appealed to business men to support the new organization, the activities of which, he predicted, will be invaluable to the community. Ted Baker, lookout of the new organization, and Kent Shoemaker, tractor, who will have charge of drilling and leading the body of marching forces, made brief talks. Mr. Shoemaker said that after he had been elected to the position he turned to Webster's to determine the meaning of the word and discovered that originally it had meant "a big hung of Swiss cheese." However, he said that it also meant ice cascades of glaciers, and he would accept the latter meaning.

George Morrison announced that the Legion next week will put on a moving picture show at the Bialto theatre and urged all to support it, as the fund will be used for financing the Legion Drum and Bugle Corps. Mr. Shoemaker called attention to the fact that the corps will be a part of the Guides marching group. The show was made under auspices of the government. It shows Richard Barthelmess in "Classmates." All scenes were taken at West Point.
