

A tire made for the West in the West

IN A FEW MATTERS we Westerners hold the palm...

We drive more miles of the year... have greater scenic attractions...

Which, in a way, accounts for the success of C-T-C tires...

Eastern engineers came West to build them... but they make them for the West as well in the West!

Today they are ranked as one of the three or four really fine tires in America...

Minimum in the map western states know what a tire should do...

Come in and let us show you this remarkable tire.

Quality will never be sacrificed to meet a price!
