

Oil-Cookstove Work
—is "City Easy" and Cool

WORKING with a good oil cookstove is cool work and a "snap"—no fire to tend, nothing but a match to light, a wick to turn and you're done! No chimneys, simple, safe!

By using a good oil cookstove you make your kitchen-work as simple and "city easy" as it should be! And when your dealer recommends Pearl Oil as the best kerosene to use—his's right! Pearl Oil is specially refined and re-refined so it burns clean! And it won't corrode metal—no city smell—nothing but bright heat-producing flames.

"Kerosene" or "Coal Oil" may mean any kind of kerosene—so insist on pure, clean-burning "Pearl Oil"—ask for it by name!

HEAT and LIGHT

A nickel's worth of breezes lasts for hours and hours

FAN-TIME is here with hot, humid days and sleepless nights—unless you choose otherwise. You can, for coolness costs but little. A nickel's worth of electricity will run a breeze maker for hours and hours.

A whirlwind fan \$7.90

For as low as \$7.90 you may have a "portable breeze." It's a fan made by Westinghouse of heavy gauge steel and machined cast iron. Sturdy!

C. E. White \$10.50

A regular "whirl" of a fan, too. Switch in the base. Made by the General Electric Co., who supplied more than a thousand fans for that monster ship of the sea, the Leviathan. There's proof of ability!

A fan that turns, \$15.50

Swings from side to side to put the breeze in every corner of the room. Dead air flies out before it!

You needn't pay all the purchase price of the fan in three payments, if you wish.

WHITE SALMON

Cooperative weather report for 24-hour period ending at 6 p. m. June 25: Maximum temperature 80; minimum 52; clear; wind, west.

When the Hood River Outlets in their fifty uniforms marched past the Willard hotel in perfect step, we had big bunch that the boys would capture first prize in the Merryhanna parade in Portland Friday afternoon. And so they did! The fifty and drum corps was just fine and showed diligent training. From the standpoint of the old time first sergeant, Co. B, North Dakota, M. G., who has seen his best days, these boys representing Hood River compared favorably with Uncle Sam's soldier boys, as far as good marching was concerned, on this memorable occasion. We rooted so hard at the Willard hotel that we got horse and drove off down to Broadway to see them again: Long live the guides and the fifty and drum corps.

Miss Dorothy Waugh, of Portland, sister of Dr. J. M. Waugh, of Cleveland, O., formerly a White Salmon and Hood River resident, and George Gates Brown, also of Portland, were united in marriage in that city Wednesday, June 24. Miss Waugh has been engaged in teaching in the Portland schools for many years. Mr. Brown has purchased a tract of land consisting of 12 acres in a scenic spot between Mitchell's Point and Wyeth, on the Columbia River highway, a recreation park and camp for tourists will be established by the Browns, work to start in the near future. A small combination store, living room, kitchen and sleeping porch will be built at once. The summer residence is bounded on the west by Warren creek and the site is ideal for a recreation park and tourist camp. Electricity for this new enterprise will be furnished by the Oregon Trout Co.'s plant.

Miss Nancy Bates, of Kabekona ranch, Burdoin Heights district, left for Portland Sunday, where she joined the Matt Clark family, who are cousins of Miss Bates, in a trip to Los Angeles, sailing from Seattle June 23. The Clark automobile will be shipped to California and the party will return home via the Pacific highway.

Mrs. Raymond Smith is entertaining a sister from Portland at her Burdoin Heights home.

Bill Bates Hall, aged 3, who has been in command at Kabekona ranch during the early summer, returned to his home in Portland Sunday. Bill states that the mountain air here puts pep in him for his arduous duties on the ranch and has Portland skinned a mile and a quarter, to put it in his own words, a fine day.

Planning operations on Burdoin mountains will be in full blast by Monday.

Wade Dean, of the Mount Adams farm, was a Hood River visitor Saturday.

Col. Walter T. Bates, adjutant general of Fifth Army corps, Fort Hayes, O., has moved to Washington, D. C., to take up temporary duty. Col. Bates will attend War college and is in line for promotion to a brigadier generalship in the regular army. The family owns an orchard on the Snowden road.

R. J. Bates, president of Coast Motors, Inc., residing in Portland, has added a repair shop to his big garage and reports that his business is growing rapidly. His mechanic, Mr. Wentworth, is considered one of the best automobile men in Portland.

Mrs. H. E. Sheldon entertaining a sister from Twin Falls, Ida., at her temporary home at Law's Corner. Other guests are expected to arrive shortly, who will be housed in the Sheldon packing house.

Mrs. and Mr. W. K. Robertson, of Minneapolis, Minn., will arrive during the middle of the month to visit to their sons, Postmaster R. J. Robertson, of White Salmon, and Henry W. Robertson, of Hilsam.

A number of Hood River Women of the World attended a meeting of the White Salmon lodge last Wednesday evening.

Mrs. W. Clatterton went to Pullman Tuesday to attend the graduating exercises of the Washington State College, her sister being one of the fair graduates. In the meantime Bill is fuming and fretting over the hitch, trying to get hot water without scorching it. "Taint no fun, is it, Bill?"

Bert Heaman, P. H. Craven, M. Vigns and Irving Brunstrom went to Goose lake Saturday night for some "reel" fishin'.

Mr. and Mrs. Clyde Norris and Mr. and Mrs. Lyle Collier spent last Sunday at Goose lake, where they enjoyed some fair fishing. In trolling there it is best to be equipped with a special spinner which can be obtained from Guler. From 75 to 100 feet of line, generally and the big ones in Goose lake, the water being very clear and the wily old boys just laugh up their sleeves at the angler who is not posted on their queer antics. Non-resident licenses can be obtained at Thode's store and Sunday at Goose lake, where they are sold. Also at White Salmon. Do not forget the necessary camp fire permit, obtainable at ranger headquarters, Guler.

Northwestern lake was crowded with anglers Sunday and the shore was lined with picnickers galore. Last but not least, please remember that the railroad will proceed to the western country and we should patronize them in preference to bus service whenever possible. We are with the O. W. officials and employes heart and soul in their fight for their jobs. Watch for Merry Moraine. You may be in it!

Takes Course in Home Refrigeration
C. G. Kruse, of the Pacific Power & Light Company, has just returned from Spokane, where he has been for some time taking a course in the factory of the Electro-Kold Corporation. The household refrigerating industry has made rapid strides during the past several years, both in the way of mechanical and commercial development. The power company felt it desirable to have such a factory-trained man to take care of this class of apparatus which has been placed in this community.

A. B. Cooper Hurt in Accident
A. B. Cooper, county weedmaster, Friday when an alarm called the fire department to the home of Geo. L. Stocum, was driving a car carrying this class of apparatus which has been placed in this community.

San Bateman, founder of the former company, who has been retained as manager for the big public utility, has recently succeeded in improvements that cost \$4,000.

ODELL FRATERNAL BODIES THRIVING

Hazel Rebekah lodge with a membership of 102 serves well the purpose for which it stands as an organization. Within the past year it has been unusually active and has added to its membership a total of 33. March 13 this lodge entertained the district convention, which included delegates from Tygh Valley, Maupis, Defur, The Dalles, Hood River, Parkdale and Odell. This convention was reported an unqualified success and won much favorable comment from visiting members.

In addition to their duties, visiting the sick and relieving the distressed, the lodge has enjoyed numerous social affairs in the nature of card parties. One night each month those who have birthdays in that month entertain the members present, providing refreshments. A total of 200 members ever meeting from two to five members of other Rebekah lodges are present as visitors.

In conjunction with Kemp lodge, Hazel lodge will be active in promoting plans for financial aid in the program of buying property and building a hall. This week Hazel lodge, with Oregon Grape lodge, Parkdale, will receive the president, Myrtle James, on an official visit at Parkdale, the vice president, Doris Sexton, of The Dalles, will also be present.

The newly elected officers to be installed July 7 are: N. G. Ora Siverson, W. G. Leona Newman, Bert Kemp, and Treasa, Gertrude Caughey.

Kemp lodge was instituted at Odell December 12, 1906, by the following members: C. G. Maslow, C. R. Maslow, U. A. Newman, J. E. Crosby, Wm. Hubbard, B. T. Young, B. T. Folts, George Maslow and Frank Strang.

A number of faithful Odd Fellows formed the Odd Fellows Improvement Company and financed the purchase of property and the building of the hall which has been the lodge home since it was instituted. At present we are negotiating for property in the town of Odella, where we expect to build our future home, our two organizations, the Odd Fellows and the Rebekahs, having outgrown the old building.

This lodge instituted at Hood Lodge No. 205, now located at Parkdale.

Our membership is about 80, of which 16 have been admitted since the district convention last here last fall. A class from the district lodge of this district was instructed in the degrees at The Dalles last January. In this event Kemp lodge furnished six of the 16 candidates. Our attendance is good. We meet every Saturday night and visitors are always welcome.

West Company Expanding

The West Coast Power Co., which recently purchased the property of the Skamania Power Co., supplies electric energy for Cascade Locks and Stevenson, Wash. vicinities, has announced that \$20,000 will be spent on improvements. A crew of men has started work constructing a new stave-work pipe at the plant near the Herman creek forest ranger station on the Oregon side of the Columbia.

Sam Bateman, founder of the former company, who has been retained as manager for the big public utility, has recently succeeded in improvements that cost \$4,000.

COUNTY PHYSICIAN: V. R. Ahrens, \$65.50.
