Sustained Quality

One of the MOTORMATES in service

TAXI companies constantly face the problem of economical operation. This is possible only by the use of a gasoline that gives mileage under exacting first and second gear work—a super-test service. The sustained quality of Associated Gasoline is responsible for the "more-miles-to-the-gallon" service it delivers to taxi fleets. All the more reason why it assures you of efficient and economical motor operation.

MOTORMATES

"Sustained Quality" as applied to Associated Gasoline and Cyclo Motor Oil means that these two products constantly and successfully meet the most exacting of operative tests.

Westerners know what a tire should be

ONE glimpse of California, or Oregon, or Washington, or any Western state proves that the West is the motor ground of America!

California, for instance, leads New York and every other state in registration of passenger automobiles!

A group of successful Akron tire engineers caught a vision of the opportunities in the West. To vast resources and possibilities for growth appeal to them.

They transferred their skill and resources to the West. These C-T-C Cord tires today are regarded as one of the three or four really fine tires in America.

Nine western states give it a remarkable sale. Further East its good name is rapidly spreading.

We shall be glad to give you expert information about your tires, and - if you need them - put on C-T-C's - either balloons, semi-balloons, heavy-duty caps or oversize caps!
