**ODELL MARKED BY
CHURCH ACTIVITIES**
(By Mrs. Gertrude L. Clark)
Odell Methodist church, which will
soon have completed 35 years of
efficient service, continues to fulfill
its mission and the pastor, Rev. W. S.
Cleaver, by his return to this charge
each succeeding year proves that his
strong, fearless, inspiring sermons
based upon the Bible and applied to
present-day problems are appreciated
by the local membership and his
pastorals approved by the conference
of which this church is a part.
The membership of the church
proper numbers 141, representing
members of numerous denominations
who have become affiliated with and
are a part of a body of no less, earnest,
substantial, dependable Christian
workers as may be found anywhere.
Then there is the Junior church,
organized within the past year and
numbering 60 boys and girls of grade
school age. Under the supervision
of the pastor the members of the
Junior church elect their own
officers, conduct their own meetings
and assume all the duties pertaining
to an organization of this sort. Of-
ficers hold for a six weeks' term and
each term a contest is held, the losers
entertaining the winners. The
winner of refreshments and program
the Junior arrange to entertain
are they that their Sunday evening
time was too short and they now
find the hour from 6:15 to 7:15 p. m.
none too long for their purpose. Such
an organization is proving of inestimable
value to the members and to the
church present and future.
The Epworth League, with Mrs.
A. W. McKeown pastor, is an organization
of live, loyal, young people.
The Epworth League, organized recently for
the summer a Sunday school night has
been held one Thursday evening in
each month during the past year and
has been found a very popular and
successful plan. Each month a new
committee plans and serves a
supper which is followed by a
program also arranged by a new
committee each month. This program
consists of musical numbers and talks
of papers upon important phases of
Sunday school and church work and
much benefit has been derived from
these programs.
The church is in a most satisfactory
condition financially. With an
annual budget of \$2,000 the recent
report from Allison Fletcher, financial
secretary, showed all claims paid to
date.
The Sunday school for seven years
under the leadership of Allison
Fletcher, superintendent, is in a
thriving condition. With the exception
of the senior Bible class the
school is graded. The following are
superintendents of their respective
departments: Mrs. Allison Fletcher,
senior; Leslie Krum, primary;
and Mrs. W. W. Gilkerson, junior.
The Ladies Aid society, Mrs. J. E.
Ferguson, president, with 52 active
members, has visited the sick, sent
flowers to hospitals and
aided the needy. In a social way the
August birthday party, the Washington
birthday party, the reception for
Mrs. Fowler and the combined social
and musical affair, the banquet, are
very important events. So far this
conference year this society has con-
tributed \$175 toward the budget and
\$150 on the program. A cleanup
and paint day in which the members
of the Ladies Aid society and the
men of the church and the
were rewarded by the vast improve-
ment in the appearance of church
property was an event of early
spring.
Visitors and new members are as-
sumed a cordial and welcome to
to any or all organizations of this
church.

**1925 FRUIT CROPS
WILL BE SMALLER**
Only fair crops of apples, peaches
and pears are now expected in the
United States this year. Dept. of
Agriculture officials declare. Fruits
in late May reduced prospects in
many scattered sections, particularly
in some of the central states. Virginia,
Michigan and portions of New York.
The condition of apples June 1
was nearly 10 per cent below the
usual average at that date. The north-
western states expect more apples
than were expected last year, but
the country as a whole the crop
seems likely to be lighter, although
much depends on the rainfall during
the next few months.
Peach production shows a large
increase in California where most of
the crop is canned or dried, but in
practically all other important states
the crop is expected to be substantially
smaller than last year. Even in
Georgia, where many young trees are
coming into bearing the crop is ex-
pected to be less than 7,000,000 bushels
compared with 8,833,000 bushels
last year.
The pear crop also is reported only
fair this year. California alone among
the important producing states ex-
pecting materially larger crop than
in the preceding season.
