"TOMORROW'S CAR TODAY"

Washington Senator Visits Here  
State Senator Walter S. Davis, of Tacoma, Wash., who is professor of history and political science at the College of Puget Sound, was here over the week end the guest of Alex B. Brooke, Odell orchardist. Senator Davis left here for Walla Walla to visit the state penitentiary. He is a member of a Washington legislative committee on public institutions. He has already visited various institutions, and declared that he expected to familiarize himself with the needs of all before the special session of the Washington legislature convenes in January.

H. L. Hasbrouck, optometrist.

### Notice of Sale for Delinquent Assessment

Notice is hereby given that on the 31st day of August, 1925, a warrant was duly and regularly issued by the Recorder of the City of Hood River, Oregon, to me directed and delivered, commanding me to forthwith advertise the property mentioned and described therein against which the assessment for the cost of the construction of sewers assessed by Ordinance No. 518 of said City was made, and to sell said property or so much thereof as can be sold separately to advantage sufficient to pay said delinquent assessment, together with interest, costs and disbursements in the manner provided by law, and to return the proceeds of such sale to the City Treasurer of the City of Hood River, Oregon, and the following is a description of the property against which assessment was levied and which is delinquent, and gives the name of the person to whom it was assessed, and the amount of the assessment thereon now due, to-wit:

Lots 3 and 4 in Block 1 of Baldwin's Addition to the City of Hood River, Hood River County, Oregon; assessed to the C. S. True Estate; assessment due, \$81.55 with interest at the rate of 6% per annum since Dec. 3, 1920;

The North 115 feet of lot 20 in Block 9 of Hall's Sub-division to the City of Hood River, County of Hood River, Oregon; assessed to A. L. & Wm. Emmons; assessment due, \$82.22 with interest at the rate of 6% per annum since Dec. 3, 1921;

Now, therefore, in pursuance of said warrant and for the purpose of satisfying the delinquent assessment mentioned therein, I will on Saturday, the 3rd day of October, 1925, at the hour of ten o'clock A. M. of said day, at the front door of the City Hall, in the City of Hood River, County of Hood River, State of Oregon, proceed to sell at public auction to the highest bidder for cash in hand, the several tracts or parcels of land above mentioned, or so much thereof as can be sold separately to advantage sufficient to pay said delinquent assessment, together with the interest, costs and disbursements provided by law, and will continue said sale from day to day thereafter until said property is sold, or so much thereof as may be necessary to satisfy said assessment.

Dated at Hood River, Oregon, this 1st day of September, 1925.

W. E. Hart,  
Marshal of the City of Hood River, Oregon.

British Columbia Apple Crop Large  
Apple Men of Vernon, B. C. are now revising their earlier estimates and in most cases the figures are being advanced in tonnage. In recent weeks the weather has been helpful to the maturing fruit, while early apples are being picked in larger quantities than the trees at first appeared to hold.

That section, of course, will have a smaller crop than a year ago, but the outgoing cars will total more than was expected at the beginning of the season. From Kelowna south growers are in a jubilant mood as the apple crop is the best ever gathered and is of top grade stuff.

Bartol Motor Co. Washou Work  
The Bartol Motor Co. Sunday and Sunday night was a busy place. J. D. McCas was engaged on the final stretch of improvements at the home of the Fords in this vicinity. A section of the wall on Cascade avenue frontage was taken out and the entrance to the garage was widened. It was necessary to widen also the sidewalk approach. Crews were busy until a late hour Sunday night completing the work.

### "OLD IRONSIDES" WILL BE SAVED

The inspiring patriotic and educational lesson interwoven in the deeds and adventures of "Old Ironsides" and the early traditions of our American navy will be brought to 20,000,000 school children in this nation during "Old Ironsides Week," October 19-24, by the 1400 lodges of Elks. This is the indication from the early returns of the survey of the school situation of America that has been going on for over a month in the different lodges throughout the country.

Everywhere the movement has been received with great enthusiasm, and to the national headquarters at the Boston navy yard thousands of letters have poured in characterizing the work as the most practical patriotic service that the Elks have been asked to do. The scope of the activity is more far-reaching than any national movement among the school children. The slogan of the campaign is: "An Elk in Every School Will Save 'Old Ironsides.'" The 1400 lodges are striving to make this slogan a reality, for the "Old Ironsides" committees of each lodge are planned on this basis, and there will be an Elk assigned to every school within the jurisdiction of each lodge.

The campaign received another big impetus at the grand lodge session at Portland, which enthusiastically passed resolutions endorsing the movement and calling upon the lodges to do their utmost in this patriotic call. It was the keynote of the grand lodge session, and thousands of delegates and members of the order went back to their home lodges resolved that they would put over the campaign in a 100 per cent way.

Commander Epley, U. S. N. R., a member of Newport Lodge No. 104, has donated to the "Save Old Ironsides" fund the sum of \$2,500 to be used for the purchase of medals to be presented to the school children within the jurisdiction of each lodge for the best 500-word essay on the United States frigate Constitution and the early traditions of the American navy. The medals will be distributed as follows:

One bronze medal for each lodge jurisdiction, the obverse of which reads "For Excellence in Naval History," and carries other lettering descriptive of the restoration of the frigate Constitution, for presentation through the lodge to the child in an elementary school writing the best 500-word essay.

One gold medal to be awarded to the child writing the best essay of those produced by the children of all the elementary schools in the country.

One silver medal for the best essay written by a high school student in each state.

One gold medal for the best essay written by a high school student in the nation.

### Logged Off Land Interests

Interest in the logged-off land of Oregon was a feature of the land settlement work for the month of August, according to the report of Arthur Foster, manager of this department of the Portland Chamber of Commerce.

"This interest," said Mr. Foster, "is due, I believe, to the fact that the type

of settlers coming into Oregon at this season, are those who have only small amounts to invest, and who are desirous of locating in sections where there will be no doubt as to the ultimate outcome of their venture. They are not afraid of the extra work that it will take to clear their land, if they are assured of good climate and soil, which, combined, will make for them a profitable farm home."

Erickson Has Narrow Escape  
Charles Erickson, engaged in land

clearing on the Upper Valley place of P. Werten, narrowly escaped death last week when he stepped behind his employer, who was chopping with a doublebladed axe. The blade of the axe struck Mr. Erickson on the side of the head, splitting the skull. The thin lining over the brain, however, was not punctured, and Mr. Erickson, rushed to the Hood River hospital, is making a rapid recovery.

Dick Ford Trying for Football  
Richard Ford, freshman at the Ore-

gon Agricultural College last year, left Saturday to return to Corvallis. He has returned to the campus early, in order to join the squads in training for football. Young Ford was formerly a star player on Hood River High school teams. He was one of the outstanding players on the O. A. C. rook team last year, and his friends are predicting that he will make the varsity squad this season.

# 25 Years of Firestone Service to Highway Transportation

25 years of anticipating the requirements of motorists—making manufacturing processes more certain—producing a higher standard of quality—25 years of unswerving adherence to the Firestone pledge, "Most Miles per Dollar"—summarizes Firestone's record of service to car owners.

Firestone factories have grown from a small building approximately 75 x 150 feet to mammoth plants having floor area of over 60 acres—from a capital of \$50,000 to over \$50,000,000—from an annual sales volume of \$100,000 to over \$100,000,000—all in the short period of 25 years.

Columbia Service Station, Hood River, Oregon.  
Mitchell Point Service Station, Mitchell Point, Oregon.  
Chevron's Garage, Odell, Oregon.  
Cascade Garage, Cascade Locks, Oregon.

This Firestone record could only have been made through furnishing the public with outstanding values and is, consequently, your assurance of quality and lowest prices.

If you would like to know more of this wonderful record, ask your Firestone dealer to send you an illustrated folder.

With today's high cost of crude rubber and other raw materials, Firestone's opportunity to serve the public was never better, due to its great volume and special advantages in buying, manufacturing and distribution.

AMERICANS SHOULD PRODUCE THEIR OWN RUBBER... *W. H. Firestone*

## Service is essential in night driving

Driving at night, perhaps for greater comfort or to avoid the congestion of traffic, or under stress of necessity—dependability of your motor oil is of vital importance. For service stations and garages are closed and aid for the stalled motorist is extremely uncertain.

You can depend on Cylcol to protect your motor every inch of the way. For Cylcol is refined to produce correct lubricating "bodies" for various motors and operating conditions. Dependability in Cylcol results from the refining treatment, which starts with the crude oil itself—during the very first stage of distillation; later, perfect filtration of the distilled oil; then redistillation and finally, a mechanical process which forces out any possible lingering impurities. All this is in addition to the usual purifying processes recognized by refiners. That's why Cylcol wears so well and is so economical to use.
