

Hood River Glacier

ARTHUR D. MOE, Messenger. JOE D. THOMSON, Editor. Subscription, \$2.00 Per Year. Mr. Hazlett has furnished Hood River with some Constitution week programs this week that should be, and we think, are being appreciated. The talk of Judge Wilson at the Lunch club meeting Tuesday left his audience resolved to give sober thought in future when called on to participate in solution of governmental problems. His was an appeal for deliberation and sound thinking and an application of the tenets of the American Constitution. Tomorrow evening Hood River folk will be given an opportunity of hearing another distinguished son of The Dalles, Judge Butler, who will deliver an address on the Constitution under auspices of the Elks lodge. We suggest that all the family attend. It will result in subsequent beneficial discussions around the family fireside. Last night Masons of the community were privileged to hear an address on the Constitution by Judge Bronaugh of Portland. The lessons that all of these messages will carry to Hood River folk will be very beneficial.

"Pool! Pool!" It was Silverton talking to Albany. Cucumbers formed the subject of the scolding retort. Some Albany gardener had reported a salad melon that was nine inches long. A Silverton "cuke" grown under one that measured 11 inches. Found cucumbers as these never excited attention in Hood River, but C. T. Roberts, of the Pine Grove district, noting the squabble and gable over the product of the vines down in the Willamette valley decided that Hood River should let the world know that cucumbers that are cucumbers grow in Hood River. Mr. Roberts went into his garden and without making any special choice, plucked a "cuke" that measured 16 inches from stem to blossom end. It was 15 inches in circumference in the middle and it weighed 4 1/2 pounds. Now will Silverton and Albany please be quiet.

The Hood River hospital has just installed a modern sterilizer. The surgery of the local institution is now as well equipped as possible. And before we turn to some other topic let us appeal to local folk to support their home hospital. Whether an operation be major or of lesser degree we believe a patient will receive just as careful attention here as in any large metropolitan hospital. The skill, experience and ability of Hood River physicians and surgeons are second to none. And then did you ever stop to consider the personal element when you are in your home hospital? You are among home folks. You are not just a case. And that, we think, means a whole lot when one is getting ready for the operating table or is a convalescent.

Apples and scenery bring folk to Hood River, but many of them are leaving singing the praises of John Kolberg. The owner of the Twentieth Century truck farm is realizing an ambition of years in his development of Kolberg leech. The improvements that he has made there this summer and fall are going to make it a winter as well as a summer recreational center.

The Hood River High football squad has begun practice. The lads have an excellent coach this year. The city should support the team. Do not limit your visits to Gibson field to days of games. Go up and watch practice. Become acquainted with players. Show them you are interested in them and watch them respond.

The barbers in raising the price of haircuts and shaves, overdid it a bit. They have announced a return to their old prices, but it will take them a long, long time to lure back the many who have purchased razors and have found that they can easily shave themselves. Tonsorially speaking, it was a mistake.

BIG APPLE DEAL BY ASSOCIATION

Following up a precedent the co-operative last December, when it sold a 300,000-box load of export apples, the Apple Growers Association, according to an announcement made yesterday by the sales department, has sold a large portion of this season's tonnage. The fruit sold will go largely to export. While the Association of officials would not admit the identity of the buyer, it was admitted that the purchase was made by a large eastern apple concern engaged in the fruit export business. While no price figures were made public by the Association, officials said they were satisfactory. Not since the local apple tonnage reached commercial importance, according to Association officials, has so great a portion of the tonnage been sold before harvest. While no figures were revealed, the tonnage far exceeded that of last December's sale.

Mrs. Meacham Lands Big Chinook The largest chinook salmon ever landed by one of the fair sex in the mid-Columbia was caught yesterday in the Columbia river off the bar of the White Salmon by Mrs. L. O. Meacham. Trolling from Mr. Meacham's power boat, with Mr. Meacham at the tiller and accompanied by H. O. Kresse, one of the most experienced of local anglers, Mrs. Meacham was using a brass rod. The big fish, which weighed 35 pounds, played in deep water for 25 minutes. When the line was well played out Mr. Meacham would speed up the boat, in order that Mrs. Meacham might "reeel in." The big chinook fought for 40 minutes, and the boat was below the Columbia gorge hotel, two miles away from the starting point, before the fish was alongside ready for the gaff.

PORTLAND WAY

Fear picking and marketing is fairly over now and some are beginning to pick their Newtowns. Kelly Bros. are making some improvements on the Cornell place, graveling the road and wiring the house for electric lights.

Chas. Schuknecht attended the wedding of Miss Annita Hart and Harold S. Allen last Thursday, which was solemnized at Trinity church, Portland.

Mr. and Mrs. Floyd Rankins were visitors at Eugene over last week end. Clyde Burk is acting on the jury for five days.

F. M. Purdy has made great improvements to his place by the good cultivation, replacing of trees and new buildings.

Mr. and Mrs. Roy Masiker have now moved onto the place recently owned by Roy Cornell.

Dr. Lora H. Diamond, of Linger Longer orchard, motored to Portland Labor day with her daughter and dance, who had spent the week end with her, to attend the wedding Thursday, September 10, at noon. Mr. and Mrs. Allen left for Seattle and British Columbia points immediately after the ceremony, to be gone for a few weeks, and will then be at home to their many friends October 1 in their new home at 748 E. 23rd street North, Portland.

Mr. Allen served as a commissioned officer in the English navy during the World war but since the war has been associated with radio work and is now manager of the L. C. Warner Co., of Portland, wholesale manufacturers of radio sets and parts.

Mr. and Mrs. E. O. Crow, brother-in-law and sister of Floyd Rankins, are expected over the week end, and are thinking of locating here if they can find a suitable place.

Mr. and Mrs. Chas. Ellsworth have traded their orchard, formerly known as Sweeney Place, for an apartment house in Portland and expect to move by the first of next week. Mr. and Mrs. Ellsworth came from California and have been here since early spring. We wish them success in their new home.

A card from the Cornells states they are having a nice time in Vancouver, B. C.

Mr. and Mrs. Lehman are expecting to visit the Round-Up at Pendleton.

Mr. Bryce has begun picking his Newtowns and several others are expected to begin this week.

Miss Ruth Purdy is a Portland visitor this week.

Mrs. Chas. Ellsworth's son is visiting her and helping with pears before they move to Portland.

SCHOOL NEWS

(Marguerite Harms) At the last meeting of the board of directors of School District No. 3, A. M. Cannon was authorized to procure another teacher to help in the commercial department half time, and to take the study half time. The board also instructed him to add three more typewriters to the commercial department, making a total of 20 now used. These machines are used each of eight periods of the day.

Miss A. Sawyers became assistant commercial teacher. She has had several years' experience in public schools and taught last year in the Northwest School of Commerce at Portland from which she brought excellent testimonials.

The annual school fair will be held Saturday in the high school auditorium and the high school grounds. The city schools are participating as usual. The high school will probably have exhibits in commercial work and manual training, and the grade schools will place their exhibits on the auditorium stage.

A public reception for the teachers in the city schools will be held in the high school Friday night, September 25, at 8 o'clock. This is to be held under the auspices of the P. E. O. Sisterhood. All parents and patrons are invited and no pupils are expected to be present. This is the first time in several years when an attempt is being made to welcome the teachers into our community and we hope that the public will extend to them a cordial welcome into our midst.

The board of directors recently authorized the superintendent to have a banquet of the Park Street school finished for assembly purposes. They also advised the purchase of a new school piano for the Coe primary school.

Professor and Mrs. W. B. Mathews spent the week end in attendance at the county fair at Grass Valley and renewing acquaintances in that city, where Prof. Mathews taught last year. The first football game of the season will be played on Gibson field Saturday afternoon, September 26, at 2:30 o'clock, when Coach Garber's team will meet the team from the Franklin high school, of Portland. The local boys under coach Garber and Assistant Coach Weber, have been doing some excellent work and we have every reason to believe that they will make a good record for themselves in this game and every game this year. A large crowd is expected at this opening game.

There are two post graduates attending school this year: Georgiana Stevon and Marguerite Harms. Most of their work is being done in the commercial department.

(Reported by different pupils of the Junior English class.) The seniors are very proud to announce that they have 100 per cent student body membership. They are the first to have the class party, because of their promptness, and in setting a good example for the lower classes. The juniors are next in student body membership, and will have 100 per cent, too. All those belonging to the student body pay \$2.50, and are admitted to all the school games, besides being given a school "Mascot," a Paruline Holbrook.

School rooms in the high school are unusually crowded this year, owing to the large increase in the number of the pupils and the limited number of class rooms. At the beginning of school last year there were around 320 pupils. This year during the first week there were 391, which grew to 372 the second week. A class of 65 graduated last June but the freshman class that entered this fall had 105. The present junior class has 104 pupils, but the other two classes are not so large. All of the classes have increased in numbers this year, making it very hard to accommodate all of them in this school, which was only intended to hold about 300 pupils—Florence Stranahan.

Miss Ethel Swartz, the girls' athletic coach, of H. R. H. S., says that this promise to be one of the best years in history for the girls' athletics. This school, formerly the girls have been rather neglected when it came to ath-

letics, but this year they are to be brought to the fore. Basketball has always been the only sport and the girls have won the larger percentage of the games played, showing that if they were given a chance they would be able to make a name for themselves in athletics. So this year they are to be given their chance, not only in basketball, but in baseball, volleyball, track and tennis, and the outlook for the year is more prosperous than ever before.—Y. Vaughan.

Many schools and places are represented in Hood River high school this year, there being students attending the local high school from different parts of California, Dufur, Heppner and Wauke, Ore., also Portland. Others from Missouri, Colorado and Idaho.—Georgia Lucas.

H. R. H. S. football season is to open with a game with Franklin high school, at Oregon, Saturday, September 20. R. O. Garber, a recent graduate of Oregon Agricultural College, and now a member of the Hood River high school faculty, acting as Hood River's present coach, stated that "Hood River high school's prospects for this year are good." Among the other things he mentioned were that "Hood River had a very good line, and a fairly good backfield, which he hoped to have in good condition for the opening game." He also stated, "The second game of the season would be with Roosevelt high, also of Portland, October 2, and that he expected both games to furnish plenty of interest for the spectators." Taking all into consideration and unless something very unforeseen comes up, the students of Hood River high school have every reason to believe that their team will beat the league this fall.—Robert Butler.

What Relation Are Newlyweds? A double wedding, a family affair in the superlative degree, occurred here Tuesday, when John R. V. Call married Mrs. Celia J. Greene, and Jess Eugene Greene, son of Mrs. Greene, married Miss Melba M. Call, daughter of the first mentioned bridegroom. Justice of the Peace Blagg officiated. The elder couple are now parents-in-law as well as parents of their children. Courtship attaches last night were drawing diagrams to figure out further relationship of the newlyweds. They declared, if there be children from the two unions, that the wedding of Solomon may be needed to determine the kinship of the kiddies.

The two families came here recently from Idaho. They all left for Mt. Hood, where the two unions are being celebrated by the Mt. Hood Milling Co. Young Green was 18 and his bride only 17.

Owing to lack of space some of the reports will be held over and run next week with additional reports.

FOR SALE For Sale—A small house at 1309 1/2 St. See Owner at 1215 1/2 St. 4017 For Sale—A fresh milk cow. Tel. Odell 93. 4018 For Sale—Large office suit. George R. Wilb. Tel.
