### Just A Plain Statement

In view of the fact that there have been a number of statements made in regard to the handling of the Hudson-Essex Line of automobiles in Hood River county, I feel that I would be doing myself and the Hudson-Essex company an injustice if I did not make a statement at this time.

I believe that there are no better cars built than Hudson-Essex at their price, and from the efforts being made by certain local people to take this agency from me, I know they think the same.

I have no axe to grind, for Hudson-Essex sales and service occupy my whole time, but I want every man, woman and child in Hood River county to know that they can buy
