Special "Pay NOTHING Down" Offer!

"What a difference — since we 'daylighted' our kitchen!" — one husband exclaims!

The combined switch and outlet (each operating independently) is an added convenience. You can iron or do other work directly underneath the unit.

"WHEN we considered having a Daylight Kitchen Unit installed, my wife finally consented, but said that she'd 'have to be shown.' But I knew the benefits of good lighting, so we take advantage of your special 'pay nothing down' offer."

"Now after a week of working under its soft, shadowless glow, she declares that she wouldn't be without it. It cheers her and speeds her in her work so that she now has more time away from her kitchen!"

You too can modernize your kitchen as thousands already have done with this scientifically designed Daylight Kitchen Unit. You pay nothing down for complete installation — and only 75c per month for 10 months with your light bill.

Watch for the man with the badge: "Buy Daylight from Me." He'll give you complete information — without obligation.
