The Stream of Gold from Nature's Bounty!

VOL. XXXVIII

With the harvest come millions of new wealth-and a nation's appreciation of the farmer's work.

As the year's agricultural products are gathered and sold, inspiration is supplied to other lines of activity. More thanks due the farmer !

At this bank, you'll find a service keyed up to the seasons's demands. And complete, too.

BEACH TALK AUGUST, THE MONTH FOR VACATION!

People that usually went away for their vacation now stay in Hood River and come out to our Beach every evening, satisfied that there is nothing more relaxing and invigorating after a day's work than a dip, a picnic supper and swapping stories around a fire. The seashore, the mountains, the timber-all brought together, and music to make you realize that there is something else in this world than selling goods and spraying and irrigating.

Try it-come out. If you have friends visiting you, bring them out and they will praise Hood River as being Paradise, where man can work and Play

We Make The Cash Sales

We have been working for years to broaden our market for apples and pears on a cash basis. Cash customers are desirable and cannot be secured at will. We are keeping and adding to our trade by shipping high class fruit under government inspection. Our Trade Mark is registered in the United States and Great Britain.

We will be in the market this year for a very con-siderable tonnage of fruit. We specialize in placing large blocks of fruit, both domestic and export sizes.

CREATED DEMAND

UCH consideration is being given just M now to the question of CREATED DEMAND which has become an important factor in present day business. There is a general feeling that we

would all be better off if we could make a definite distinction between whether we are BUYING something or having something SOLD to us. Buy what you need when you need IL but UNLESS YOU HAVE MORE MONEY THAN YOU KNOW WHAT TO DO WITH, don't let anyone sell you anything you don't need.
