CLOUD CAP

Thirty-seven years ago a Portland family, the Ladds, interested in the

thrilled and inspired. Today Portland and Hood River folk are again setting in motion machinery for replacing the old hostelry with one the family. "Smokey" was a birthday more in keeping with this era of the gift to Mrs. Davenport from her antomobile. In view of the great opportunity offered by the new tourist hostelry, it seems that the development of definite plans have been laggard. The new Cloud Cap Inn should have been well on the way toward completion by the time snow falls this autumn. It ought to be ready for visitors next

Within a few weeks the Coopers Spur lateral of the Mount Hoop Loop and engaging manners made him a pet highway will have been completely surfaced. Then the motorist of Portland will be able to get into his automobile and in four hours be looking into the He had simply disappeared. Efforts to very crevasses of Eliot glacier. He locate him were of no avail and it may, if he desires, ride up for a din-looked very much as if he had been the may, if he desires, ride up for a dinner at the mile high elevation, where no cocktail will be needed for an ap-petizer, and return home that evening. Failing to find any trace of the missscivity for the north side of the moun-tain. From its doors a trail leads off to Eden Park, that lovely nook under to Eden Park, that lovely nook under starving and exhausted condition. Ship Barrett Spur, where flowers as numerous as may be found in Paradise Valley on Rainier, bloom in the summer months. There in Eden Park are numerous miniature lakes in a setting him. Long before he was out of the that must be seen to be appreciated.

desire less strenuous mountaineering may sally forth to explore glacial crag and ice pinnacle. Those who like the tain, forest solitude will find all they desire at Cloud Cap. Was there ever a better place to just sit and For there isn't a mention in it dream dreams, to watch the changing colors on the snowfields and glaciers and see some lone eagle soar over th chasm of the Middle Fork of Hood river? And have you ever heard the

appeal is going to become so real that

Rattlers are seen infrequently in any

Hood River folk are becoming as one in the realization of the benefits that the new Cloud Cap company.

A PARKING SUGGESTION

City Traffic Officer Morrison comes forth this week with a suggestion to city folk about Saturday night parking. As all of us know, Hood River is a Saturday night town. Our rural residents are accustomed to visit the city that night and do much shopping. As a result all of the parking space of the principal business streets, especially Oak street, is needed for their auto

Mr. Morrison says that city dwellers ought to do a little thinking and not utilize the parking space with their own cars. Give the country cousins a chance to park and shop in peace Mr. Morrison urges against double parking. unless it be absolutely necessary. He says that double parking for a short shopping errand will not be objected to. However, he warns that none must engage in double parking, if space be left at the curbside in a single line of cars.

Ezra Meeker, that white haired and energetic old trail blazer, who hopes. birthday celebration telling of the wonders of the Old Oregon Trail, will be in Hood River soon, we are told. Let's give him a real ovation.

Have you seen any of those Charlotte peaches grown by Robert Tazwell? They defy description. It is like paint ing the lily-just can't be done. And they taste as they look, even if it seems like a desecration to eat one.

We note by the current weekly report of the Oregon State Board of Health that Hood River county is now free from contagious diseases. Let us hope that the record will be maintained through the apple harvest.

How morbid does human curiosity sometimes become! What a spectacle! Mobs fighting to gain admission to the Gaines trial at Scattle!

The bridge road is finally under con

CHECK HANDLING

keep an average of \$100 in the bank and write four checks a month, they make about two cents profit each month. But if you write five checks they lose about a nickel a month on your business. On a monthly balance of \$1,000, 40 checks give the bank a small profit, but 50 checks throw them back for a loss of about half a dollar.

FINS, FURS AND FEATHERS

Mean and wild life is a resource of the forest, according to the statement, it is subject to state laws.

—The Old Stockman Theologizes
By Ben Hur Lampman.

And E. A. Lippman, Odell orchardist, and his family, feel something like the

river? And have you ever heard the summer call of the Alaska robin? In the early morning it sends forth its song, that call of mystery, so mellow, tinkling like delicate chimes. You wonder if the scene is real.

But the setting of Cloud Cap there on its sightly ridge is very real. Its Rattlers are seen infrequently in any

in the realization of the benefits that will be derived to all Oregon and the Hood River Valley from the new hostelry. It was fitting that a Hood River man, Leslie Butler, was made head of the new Cloud Cap company.

In the yard, when Don began barking frantically, attracting the attention of Mrs. Lippman. When she arrived she saw the dog tugging at the baby's skirts and then darting in front of her he seemed to be attacking the child. Alarmed, thinking, perhaps the dogs had rables. Mrs. Lippman bursted seems of Mr. Davis, of Minnesota, was described by the child. Alarmed, thinking, perhaps the dogs had rables. dog had rables, Mrs. Lippman hurried to the yard, and then Don freed the child and began circling a coiled rat-

> The mother carried the child to safe ty and then dispatched the wandering snake with a hoe. The six rattles will be kept as a memento of a dog's valor.

Reuben Sche returned last week from a fishing trip with James Pifer, who is now located in Portland. The two journeyed by automobile all the way to Montana, where they had excellent

R. F. Moore, of Oklahoma City, here visiting his son, Frank Moore, says he wishes his family physician could have seen him the past week while on a fishing trip on the Deschutes river at

South Junction.
"Fish were never as eager to take spinner as those game redsides of the Deschutes," said Mr. Moore, "and my vacation there cured me. My doctor told me not long ago when I began to fuss around complainingly that all I needed was to get out in the open air and go fishing. 'You're just nervous,' he told me, 'and need a good fishing

trip to cure you.'
"And the medical man was right. I certainly lost all thoughts of illness there on the Deschutes."

Mr. Moore was accompanied on the fishing trip by his son and W. C. Weldon, of Lindsay, Calif. While at South Junction they furnished neighboring rancher families, who they say never fish, with all the redsides they could eat. They themselves ate fish almost exclusively, and they returned home with 46 beauties, measuring from 12 to

The early spring and ideal summer weather, according to ranchers, has re-sulted in a large crop of China pheasants here this year. Coveys of the young birds may be seen in all parts of the valley. Many ranchers say they are destructive to garden plots. J. K. Carson says they are thick at his place west of town and are making inroads n his corn patch.

Game animals are still fairly plentiful on the 22 national forests of Oregon and Washington, according to forest rangers' estimates compiled for 1925 by the forest service. In making public the figures the forest service stresses the fact that these figures are only estimates, made, however, by the men on the ground who should have the best opportunity of knowing local game conditions.

game conditions.

According to the statement there are about 59,000 head of deer in the 14 national forests of Oregon, and over 22,500 in the eight national forests of

COST PUT AT 6C

COST PUT AT 6C

COST PUT AT 6C

A big bank has a carefully prepared chart showing the exact profit or loss on each cheeking account, according to the average number of checks written, says Fred Kelly in the Nation's Business.

The general cost of running the bank, they figure, is about \$14\$ for each \$1,000 mountain goats. In Washington, but none in Oregon. Some 80 mountain sheep are listed about equally divided between the two states. About of deposits and it costs six cents to handle each cheek. This isn't counting to the find the provided between the two states. About of deposits and it costs six cents to handle each cheek. The Shame of It

That the initiative is being prosti-futed for political and personal gain is apparent in all sections of our country. An instrument intended to be used by But eight months old, he might be classified as a kitten. He is an aristotracts public interest or support. Why not make it unlawful to buy signatures to initiative petitions the same as to buy votes? The San Francisco Daily

News says:

'The initiative petition seeking a constitutional amendment for the relief and better education of the blind in California has been withdrawn by those humanitarians having it in the cause have the control of the cause have the cause h charge. Why? Simply because, hav-ing no money with which to push the petition, they were bound to fail of se-

curing the necessary signatures.
"'One glaring fact has been uncov ered in the recent campaign,' says the devoted but disgusted promoters of the petition, and that is the law providing for the placing of propositions on the ballot by initiative has been shown to be confined to wealthy organizations and individuals. It has been shown that practically every initiative propthat practically every initiative proposition which will qualify for the ensuing November election has been carried out by large sums of money!

"In other words, a proposal whose purpose is not fit for financial benefit

of any person or set of persons and is purely of a humanitarian nature, fails of appeal! Only money-supported in-itiative gets anywhere! It is an in-Manufacturer.

PINE GROVE

Dr. and Mrs. Crane, with a party of Dr. and Mrs. Crane, with a party of eight from Boston, arrived at the home of their uncle, J. D. McCully, last Saturday and a family reunion was arranged in their honor. Thirty-five relatives of the McCully family met at Nestledyn Sunday. Mr. and Mrs. Russell McCully and daughter are here for a short vacation before going to Eagle, Ida., where Mr. McCully has been efected city superintendent of schools. Mr. and Mrs. Frank Cutler, of Port-land, and Miss Lucy Cutler, of Pasa-

dena, Calif., were guests at the J. D. McCully home last week. Miss Cutler has been elected dean of Occidental Mrs. Hans Lage has joined he college at Los Angeles. daughter, Mrs. Beckenfeld, and family on a trip to Crater lake.

OREGON-WASHINGTON PYTHIAN HOME

The Oregon-Washington Pythian rooms, cozy dining rooms, children Home is located on a tract of 131/2 playrooms, nurses' quarters, adminis acres within the corporate limits of Vancouver, Wash., and has a frontage of 1,300 feet on the Pacific highway. The buildings are located on an eminence overlooking the cities of Vancouver and Portland and the Columbia river valley—a beautiful location. This is the first Pythian home to be built and maintained jointly by two grand domains. The administration building, which is of steel and concrete construction, is full three stories in height, with a daylight basement under the entire structure. It is an imposing building and no expense was spared to make it not only a model home, but as comfortable and inviting to those who occupy it as possible. The result is a

acres within the corporate limits of addition to a well-arranged auditorium

fortable and inviting to those who occupy it as possible. The result is a completed structure which is in every sense of the word a home. On each end of the building have been constructed mammoth sun-rooms or parlors, so built that they can be attilized both winter and summer.

There are 30 bedrooms in the building, some built to accommodate two beds, while others will accommodate three or more beds. Spacious living
