

The Hood River Standard

VOL. XXXIX

HOOD RIVER, OREGON, THURSDAY, JUNE 2, 1927

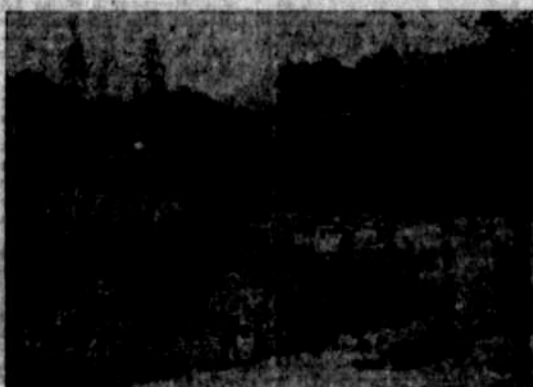

A Message To THE CLASS OF '27, H. R. H. S.

WEALTH is not acquired, by fortunate speculation and splendid enterprises, but by the daily practice of industry, frugality and economy. He who relies upon these will rarely be found destitute. He who relies upon any other will generally become bankrupt.

NEW VICTOR RECORDS EVERY FRIDAY

NEW SCHOOL HAS APPEAL

STRUCTURE NEARING COMPLETION

Auditorium of the New Hood River High School Made Ready for Commencement Exercises.

The Anderson Construction Co. has made good its promise, and the auditorium of the new Hood River high school will be ready for commencement exercises of the class of 1927 tonight. Crews have been rushing the finishing touches of the big auditorium, which will seat 1200, and it is all ready for its first use tonight, when it is expected that it will be crowded by parents and friends of the graduates.

It is a beautiful auditorium, and Hood River folks are going to be proud of it from now on. The auditorium is wider than the average opera seats, and the structure is so arranged that one has a clear view of the stage from any part of the main floor or balcony. The acoustic properties are excellent. The width of the big stage under the rosewood arch is 36 feet and it is 22 feet deep. A scenery loft will permit of scenes for massive productions.

On the basement floor are adequate dressing rooms for the boys on one side and the girls on the other. The auditorium has four fire exits. The doors are fitted with anti-panic bolts and are thrust open by pressure on these bolts from within. The doors cannot be so fastened that pressure from within will not open them.

H. R. H. S. plaques on the school colors, are arranged around the balcony. The new Hood River high school which will be completed at a cost of approximately \$175,000, is a structure that will endure for many years and arouse the pride of Hood River folk for days to come. Taxpayers are going to take renewed interest when they get an opportunity to inspect the finished building and discover how much value they have secured from the sum invested in the new property.

The new school is a Colonial-Gothic-Tudor combination of architecture. The walls are of concrete, finished in a brown brick. The roof is of heavy tile. It is a masterpiece of modern design and requires a minimum of expense in the upkeep.

One of the most impressive things about the new school to the visitor will be the long corridors that pass from east to west the full length of the structure. These corridors, there are two of them being completed, one on the first floor and one on the second floor, are 227 feet long.

At present the corridors and classrooms are filled with equipment of workmen, and the visitor cannot get a comprehensive view of them.

Long before time for school to open next fall, however, the new structure will be all finished, and Hood River will have available probably the best equipped high school plant in the state. The new school is a little different from any yet built. It combines the principles of efficiency and convenience found in numerous other structures.

Electric clocks, operated by a master clock in the principal's office, will be in every room. Classes will be called and dismissed with synchronized regularity. The heating system, too, will be operated by a master regulatory system in the principal's office. A large room has been provided for a school library, and on the south side of the building, near the center will be located a cafeteria. Pupils will eat on tables that will fold into the walls when not in use. It is not unlikely that this principle of folding tables will be embodied in the breakfast nooks of many Hood River homes after the new school has been opened.

Study rooms and laboratory rooms are provided with a lecture room between. Seats of the lecture room are raised, and students can observe with ease demonstrations and take notes. No lecture rooms of any Pacific Northwest college are equipped than those of the new school.

From the north center of the new high school one can look off across the new athletic field, which T. D. Calkins is fast bringing to completion, and see Mount Adams looming like a white sentinel across the Columbia. Mount Hood is in plain view from the south.

Along the corridors sunken metal lockers will provide students with convenient space for keeping their belongings. Each class room has a locker and closet for the teacher.

Offices have been provided for the principal and superintendent. The latter will occupy the quarters where the school board will meet. This room is equipped with a fireproof system, where all school records will be stored. Laboratory rooms are equipped with closets and shelves for the storing of specimens and notes. Dark room quarters have been provided for experimental work and for the development of photographs.

On the lower floor on the long corridor a cabinet has been provided for the display of medals. Atop this cabinet is a sunken niche which will be occupied by a model of the Mayflower, presented to the school by the Book and Art Store. A large cabinet has been constructed for receiving school trophies.

A large bronze plate has been received, and this will be placed in the wall over the main entrance. On it appears the name of the school, date and name of those connected with its construction as follows: School board, K. W. Sinclair, chairman; A. S. Keir, Mrs. Sybil C. Lewis, Glenn E. Marsh, Albert E. Cass, I. E. Acherson, clerk, A. M. Cannon, superintendent; Raymond W. Hatch, architect; and Anderson Construction Co., builders.

The new auditorium occupies the east wing of the new building and the west wing is taken up by the gymnasium, the largest gymnasium of a high school in eastern Oregon. In the basement of the gymnasium will be locker rooms, dressing rooms and showers for both boys and girls. The athletic director will have his office in the gymnasium. It is provided with a ticket office and balcony and lower floor seats will accommodate 1000 spectators.

MR. HEARTY AND FAMILY VISIT HERE

E. W. J. Hearty, head of E. W. J. Hearty, Inc., New York City fruit distributing concern, who for many years has been prominent in activities of the International Apple Shippers' association, arrived here last week to inspect local properties of the concern and to become better acquainted with growers of the mid-Columbia district. Mr. Hearty is accompanied by his wife and two daughters, Misses Ruth and Florence.

"I stopped in the Idaho fruit sections and in the Grande Ronde district while en route to Hood River," said Mr. Hearty, "and I find that both districts are expecting large crops of apples. In Idaho they are looking for 1,600 cars as compared with 1,333 last year. The Grande Ronde valley is expected 450 to 5500 cars of apples."

"I am just milling around here in the Hood River district, in order to gather information on which to formulate a better plan for the new packing plant we constructed last year. We have placed ourselves in position to render the best of service to growers. We have reached the conclusion that the only practical method of removing

apricot residue from fruit is by the washing process, and we contemplate the early construction of a building, containing our cold storage plant, to house a complete washing plant. Experiments are still going on among manufacturers of washing equipment, but the minds of the men engaged in this business are moving fast, and practical machinery will be possible before harvesting. The method of wiping apples, as used last year, will be put into the discard."

Mr. and Mrs. P. F. Clark have been entertaining Mr. and Mrs. Hearty and daughters while here. A number of scenic motor trips have been taken. On Monday Mr. and Mrs. Clark and their visitors accompanied Mr. and Mrs. E. O. Blanchard on a trip to Trout Lake.

"MON-DAMIN" TO BE PRESENTED TOMORROW

Tomorrow night, Friday, June 3, the Indian cantata, "Mon-Dah-min," will be presented in costume at the Rialto Theatre by the chorus of the American Legion Auxiliary. These 24 voices have been training for the past several months under the direction of Mr. Creamer, of The Dalles.

The lead is being taken by Mrs. N. C. Coulter who has a very pleasing voice, and the chorus consists of the following: Mrs. L. R. Alexander, Mrs. J. C. Wilson, Mrs. Walter Ford, Mrs. F. Donnerberg, Mrs. Ed. Kries, Mrs. Marie Price, Mrs. V. H. Kingston, Mrs. C. Hickey, Mrs. F. H. Coolidge, Mrs. F. Angus, Louise Krieg, Mrs. A. Bome, Mrs. E. A. Sonichsen, Mrs. A. Gladwin, Mrs. O. J. Banks, Mrs. Eino Jaku, Mrs. R. Perry, Mrs. A. W. Davis, Mrs. Addie Kinnannon, Mrs. A. Korr, Miss K. Meade, Mrs. Eunice West, and Miss Edna Foust, accompanist.

The picture, "Irish Hearts," will be shown both before and after the cantata. Miss Miriam Knoblock will give some Indian dances, which takes all in all gives you an unusual show at the usual price of 50 cents, children 10c.

Let us urge that you purchase your tickets from Auxiliary members as the Auxiliary does not receive any percentage of the admission paid at the box office. For the benefit of those unable to purchase their ticket until reaching town Friday night, tickets will be on sale that evening at Keir's drug store, and if it is your desire to aid the Auxiliary, kindly purchase your tickets there.

P. P. & L. COMPANY PLANS BIG SALE

The Pacific Power & Light Co., disregarding its usual policy, will hold a big bargain sale, beginning next Monday and lasting until Saturday, June 13. An inventory has revealed that it has an oversupply of numerous household electrical accessories, and these will be offered for sale at a sensational reduction. Articles range all the way from curling irons to Super Automatic ranges.

Yellow tags are being used to feature the big bargain sale, and it is predicted that the store of the power company will be filled next Monday morning by the valley's womenfolk following the trail of these tags to the alluring bargains.

The auditorium is equipped with a safety projector room. The room is lined with asbestos and galvanized iron walls. Doors with fusible hinges will drop over apertures in case of fire. A sprinkler with a fusible plug will flood the room in case of fire.

The new building has adequate fire protection. Large hoses will occupy niches on each floor at both ends of the structure. While the sanitary water supply will come from a 3 1/2 inch pipe connected with the city main, the fire service line will be three inches in diameter and entirely separate from the sanitary system.

Geo. E. Goodwin, who was formerly engineer for the National Parks Service, is in charge of the construction of the new building for the city school district. Mr. Goodwin is constantly on duty at the new plant. He declares that he has never before seen a school building of more beauty and character by more conveniences and efficiency of facilities. Mr. Goodwin says that the city is to be congratulated on getting so fine a structure at so low a cost.

LARGE CLASS AT H. R. H. S.

COMMENCEMENT EXERCISES

Diplomas to be Awarded at Exercises of the New Auditorium

The largest class in the history of the Hood River high school will be graduated tonight. Commencement exercises will be held at the auditorium of the new high school, and A. S. Keir, chairman of the school board, will award diplomas to 84.

The commencement exercises will start promptly at 8 o'clock. The general public is invited to join parents and friends and participate in the first meeting to be held in the big new auditorium.

The program for tonight is as follows: Processional, high school orchestra; invocation, Rev. Henry Young; selection, "Romance," high school orchestra; salutatory, Dorothy Hull; address, "The Common Good," Judge Jacob Kansler, of Portland; "Song of the Vikings," Fanning high school mixed chorus; valedictory, Anne West; special awards, Principal F. S. Keighly; presentation of class to school board, Supl. A. M. Cannon; presentation of diplomas, A. S. Keir, chairman of school board; "The Miller's Wooing," Fanning high school mixed chorus; benediction, Rev. Robert Agita.

The personnel of the class follows: President, Victor Miller; vice-president, Dorothy Hull; secretary, Dorothy House; treasurer, Dale Floe. Boys—Curtis Anderson, Robert Butler, Bernard C. Carlow, E. Ellis Chapman, Willis E. Eby, K. Dale Finn, Leiland A. Finn, G. Holbrook Gallant, Ernest F. Garrett, Lew Garwood, E. E. A. Hart, Tom P. Hastings, Anne Hukart, Andrew Jackson Jones, Paul A. Keir, Oris G. Kubaley, Kenneth L. Larson, Gordon Manser, Glenn Mackinichall, Victor Miller, Philip Kitten, Harry Keiser, Edwin E. Jones, Ward Arnold Rowell, Howard C. Rowell, Gordon Wesley Hunt, Kehay Stearns, Arthur Tomlinson, Lawrence Wright, Norman Wilson and George Wood.

Girls—Virginia Abrahamson, Susan Margaret Anderson, Linda R. Anderson, Madeline Baldwin, Helen J. Barton, Charlotte Mary Bevington, Ruth Bryan Carter, Margaret E. Coulter, Frances Charvat Clapp, Lesta Mary Clapp, Justis S. Cooper, Edith Ross Cooper, Catherine Crook, Susan Eleanor Deane, Helen Dickinson, James V. Deane, Pauline C. Flint, Edna Frost, Joan Frances Fry, Dorothy G. Garwood, Oわたonna Catherine Gorman, Pauline Gnan, Edna Margaret Gorman, Mildred Gnan, Joha Nordstrom, Elizabeth Gnan, M. Hevonen, Regina K. Hinton, Dorothy Livingston, Georgia MacLean, Barbara McDonald, Marie McLaughlin, Leona P. Miller, Pearl Marie Mohr, Margaret M. Moomy, Marjorie M. Scott, Frances Mary E. Rausch, Beatrice North, Olga Marie O'Connell, Florence Orford, Anna Paula, Edna Richards, Della Anna Sheridan, Rayona Shurtless, Pauline Carol Simpson, Mildred E. Smith, Anita B. Spenser, Florence Starnshaw, Ruth A. Taylor, Leona Van Allen, Florence M. Vogel, Lenore Woodcock, Anne Wood.

ACTIVE HOOD RIVER GUIDES
You are Expected to Drill Every Tuesday.

No finer group of young people has ever been seen at a local church service than those filling the center section of the main floor of Riverside church Sunday evening, when the bi-annual Sunday sermon for the class of 1927 of the high school was given by Rev. F. Gordon Hart. The invocation was pronounced by Rev. C. R. Debeaux. Responses reading was led by Rev. Schuyler Pratt, Albert T. Cass and "Behold There Shall Be a Day." Prayer was offered by Rev. Robert Agita. The benediction was pronounced by Father Marshall.

GROWERS TO PROCEED WITH ORGANIZATION

C. King Benton, who was in Yakima last Saturday to attend a meeting of Pacific northwest fruitgrowers, who propose district units and a central organization, which will work with the Pacific Northwest Shippers' council, reports that meetings will be held in various districts in an effort to effect the district units. Hood River growers will await definite action on the part of other districts.

The new organization plans that such community center be organized with its own board of directors and officers and have representation on the central district board of directors. The district organization to be made up of representatives of local groups and to be organized in the usual manner, to care for all common district problems.

The Northwest Apple Growers' Association to be made up of representatives from the seven district organizations of the northwest. As soon as organized the Northwest Apple Growers' Association to select three representatives to cooperate with the Shippers' Council on a contact committee as set up by the shippers at their recent Yakima meeting, held May 21. These three men to represent the growers in all problems relating to selling and distributing.

Local organizations to serve as forums for the discussion of all important industrial problems, such as those related to packing and assembling, cold storage, speed of handling fruit from tree to market, financing and advertising, merchandising, selling, and general industrial efficiency. These local forums to crystallize the sentiment of the growers in the community and unite their will through their representatives. Collectively these local organizations to be the official mouthpieces of the growers.

To foster and encourage the development of strong local cooperative units for the packing, warehousing and handling of fruit.

John N. Walker, of Walker Bros., Chicago fruit distributors, was here last week calling on shippers and growers.

"Action repeated becomes habit, habit long continued becomes second nature."

¶ We have some customers who have found that out and now it is just as easy for them to save money as it used to be for them to spend it.

¶ Nor have these people taken the joy out of life; they have simply become CAREFUL instead of CARELESS people.

"Not for to hide it in a hedge, Not for a train resplendent, But for the glorious privilege Of being independent."

BUTLER BANKING COMPANY

Member Federal Reserve System.

GROWTH

This firm started shipping in a small way in 1916, with Wm. S. Duckwall selling the fruit in the East. Our growth and the volume of our shipments have been gradual but steady.

From a few cars sent to one market, we are now shipping to all parts of the United States, and to a number of foreign countries. Our brand is known in these markets, and our Trade Mark registered. This business is generally done direct, and this system tends each year to increase volume handled in this way, as the result of savings effected by buyers in distant markets.

We are buying for cash. Are you interested? We are prepared to furnish necessary supplies till harvest and buy for cash before picking time.
