WAYS TO BLOCK CROOKED PROMOTERS

By W. R. MOREHOUSE ons Commission, American Bankers Association

a series of articles esposing the wiles of sharpers

I ANY reliable corporations, firms and individuals are engaged in developing mining properties, drilling for possible new oil is and promoting new inventions and enterprises. On the other and many unreliable persons are ostensibly

engaged in the same pursuits, but in reality are only promoting frauds. Therefore, every investor should first divide the sheep from the goats before he hazards his savings. Because there are many dishonest manipulators using mining, oil, invention and promotion terms to deceive does not mean that all promoters in these fields are crooked. The truth is, there are many trustworthy men engaged in promoting enterprises that are honest invest-ments. The problem is to know the difference between promoters of the reliable type and the high-pressure variety. The former are en-gaged in legitimate business. The other group is engaged in fleecing the public. The number of those who deliberately scheme to defraud is large and they are

shrewd and deceitful. For this reason those W P MOREHOUSE who cannot afford to lose their savings should

not trust entirely to their own judgment in making investments. In order to divide the sheep from the goats—to distinguish between reliable and unreliable promoters, to tell the good invest-

ments from the worthless-the inexpe anker or let the National Better Busi- time you may be approached to make banker or lef the National Better Busy nees Bureau, whose headquarters are in New York City, advise him. Ned Woodman "Cheerologs" Scheduled for Chautauqua.

There is an old adage that "A Merry Heart Doeth Good Like a Medicine." Ned Woodman, the genial crayon artist and cartoonist who appears at Chautauqua with the Haskell Indian Band is a bright and shining example of the truth of this wise old saying.

Woodman specializes as a gloom chaser. He has devoted his entire life to giving people a chance to forget their troubles. He really qualifies as a philosopher as well as a crayon artist. However, the description "Cartoonist" is pergiven to him. His exhibitions, s, lectures, appear ances or whatever one chooses to call them are a ripple of good hu-mor and sparkling wit from start to finish. Woodman is like Will Rogers in that it is impossible to predict exactly what he will talk about. Again, like the famous humorist he never fails to interest and please those who hear him regardless of the track he takes,

Remember that anything that is worth investing in is worth knowing about as to its safety, its income, and its marketability. Any investment which is enshrouded by a screen of glowing promises or is so complicated that neither you nor your banker can fathom it and get the hard facts isn't an investment you can afford to put your money into.

Make it an unbreakable rule to get all the facts, whether the investment be large or small, and you will save yourself the heartaches and bitter disappointment of losing your savings.

Millions of dollars which have unfortunately been lost through poor investment might have been saved if the investors had taken time to investigate before investing. There is always need for capital in safe, honest business and so great is the legitimate demand for investors' funds that not one cent need be wasted by them on fraudulent schemes
