SUNDAY'S ACCIDENT

It was a terrible thing, that accident there on the high north slope of Mount ing witnessed the death dealing plunge, made an impress that will never be forgotten. They were viewing a tragic. incident with a most dramatic setting.

We have heard much talk, much surmise and the drawing of many conclusions, since the fatal accident, which snuffed out the life of a useful, respected and beloved citilzen of Portland. Everything should be done in the future to prevent such accidents as occurred Sunday. We believe the Mazamas and our own Crag Rats, in the mountaineering activities, have done all humanly possible to make mountaineering safe. Both organizations have experienced many hazards. Their members have learned something new on every expedition. Mummey Attends Convention

L. R. Mummey, proprietor of Mum mey's Music Shoppe, returned Sunday from San Francisco where he attended the annual convention of the west coast music dealers as the only repre sentative from north eastern Oregon. This convention is sponsored by the the betterment of the music trade in general, and to discuss ways of giving the public better service. Speeches are assigned each year to be prepared and delivered at the succeeding convention. Although Mr. Mummey was not on the list of speakers this year, he will give an address next year on the handling and improving of record sales.

The Gulbransen piano company's ex-hibit was selected as the best out of many displays sent by various plano manufacturing concerns. According to Mr. Mummey, this company sold more planes in carload lots than any other company represented.

Many popular artists as well as mu sic dealers attended. During banquets which were arranged by the convention the KPO microphones were stationed in the banquet hall and the regular radio program sent over the air.

Each year, as a special feature of the convention, a baby is given away to some member of the delegation. "This rear," says Mr. Mummey, "I was the ucky one.
