

On the Funny Side

ONE FOR S. P. C. A.

"My husband is a brute, and I've reached the place where I just can't stand him any longer!" said Mrs. Nosey.

"Now what's he done?" asked her dearest friend.

"Well, you know we were on a 4-party line, and he's gone and had it replaced with a private one, so I can't listen in any more," she groaned.

Matches

The physician was giving an informal talk on physiology. "Also," he remarked, "it has recently been found that the human body contains sulphur."

"Sulphur!" exclaimed the girl in the blue and white blazer. "And how much sulphur is there, then, in a girl's body?"

"Oh, the amount varies," said the doctor, smiling.

"Ah!" returned the girl. "And is that why some of us make better matches than others?"—Vancouver Province.

BUSINESSLIKE

Mrs. Stonehammer—Johnny Bonechisel says he considers our daughter worth her weight in clam shells.

Mr. S.—That's fine I'll hold him off a few weeks while we fatten her up.

Right Size

McPherson was to be married. "Ye'll be given us a send-off!" he inquired of his best man.

"We will."

"With rice and white ribbons?"

"Aye."

"And old shoes thrown after us?"

"Oh, aye, of course."

"Well—I wear tens, an' Janet takes sixes."

Ferry's Seeds are sold only in fresh dated packages. When you buy Ferry's Seeds you are sure of the finest quality available. Adv.

Fleeting Time

Lecturer (who has spoken for two hours)—I shall not keep you much longer. I am afraid I have spoken at rather great length. There is no clock in the room, and I must apologize for not having a watch with me.

A Voice—There's a calendar behind you, mister!—Exchange.

Bad Eye

Gladys—Mother, dear, I advertised under a different name that I would like to make the acquaintance of a refined gentleman with an eye to romance.

Mother—Gladys, how awful! Did you get any answers?

Gladys—Only one—from father.—Kitchener Record.

Scenes and Persons in the Current News

1.—Mussolini signing treaty between Italy, Austria and Hungary, Premier Dolfuss of Austria and Premier Goembos of Hungary looking on. 2.—Nicholas Kelly, Richard E. Byrd and Leo Wolman of the auto mediation board. 3.—President Roosevelt departs for fishing trip.

Sleeping Planes New Luxury in Air Travel

Asleep or awake, American Airways' new convertible Condor sleeping planes represent the ultimate in air travel luxury. Spacious upper and lower berths, comprising each compartment, are one inch longer than those on the standard American sleeping car. For daytime flying these berths are quickly convertible, in flight, into comfortable seats. Each plane has six compartments, providing sleeping facilities for twelve passengers. These planes are the first flying sleepers ever put in service on any of the world's airlines.

Norris Dam Engineering Project Under Way

The excavation work for the first half of the dam base is well under way, as shown in this new picture of the Norris Dam project in Knoxville. The excavation work extends about fifteen feet below the river bed, and digging will be continued until solid rock is reached.

Storm Demolishes 100 Homes in New Orleans

A general view looking down Eads street, New Orleans, showing the damage wrought by a wind storm. One hundred homes were demolished.

MOST PENETRATING RAYS
Neutron rays, the most disruptive force known to science, are produced at the University of California with the huge 85-ton magnet device. Neutrons are recently discovered particles in the nuclei of atoms. The rays are more penetrating than X-rays or radium. Charged hydrogen gas particles are pumped into the machine and are circulated at high speed. At a velocity of 50,000 miles an hour the particles strike a metal target and "crack-up." Only the neutron particles thus released can penetrate lead, so a lead shield filters out other particles and the pure neutron rays emerge. The rays come through the lead window at the rate of 10,000,000 electrons a second. Scientists hope the neutron ray may be useful to the medical profession.—Chicago Tribune.

Why Hospitals Use a Liquid Laxative

Hospitals and doctors have always used liquid laxatives. And the public is fast returning to laxatives in liquid form. Do you know the reasons?

The dose of a liquid laxative can be measured. The action can thus be regulated to suit individual need. It forms no habit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

The right dose of a liquid laxative brings a perfect movement, and there is no discomfort at the time, or after.

The wrong cathartic may often do more harm than good.

A properly prepared liquid laxative like Dr. Caldwell's Syrup Pepsin brings safe relief from constipation. It gently helps the average person's bowels back to regularity. Dr. Caldwell's Syrup Pepsin is an approved liquid laxative which all druggists keep ready for use. It makes an ideal family laxative; effective for all ages, and may be given the youngest child. Member N. R. A.
