

The new 34-room hotel now nearing completion on the highway at Bonneville has been leased and will be open to the public within the next two weeks. The lease is reported to have been made to the Roosevelt Holding company. Work of moving in furniture will be started this week. The hotel will not have a dining room, but a coffee shop is being opened in the building.

BONNEVILLE

The local acie of the fraternal Order of Eagles held a very enjoyable meeting in their quarters in French's last Thursday night. The meeting was attended by the largest crowd since the installation of the chapter here. Besides the local members, Eagles from Stevenson and Hood River attended the session and stirred up considerable interest. The meetings are held every Thursday in the spacious hall being donated by L. M. French and it is hoped larger crowds will keep attending.

Orion, Bell & Malcom, contractors on removal of the Union Pacific tracks, are beginning to make progress on the new tunnel which will pass under Tooth rock. Just west of Eagle creek. The tunnel will run under the highway, and the east portal may be seen from the state road by motorists, who know where to look for it. Hundreds of strangers pass the point daily without observing the work that is going on just under the hillside. The contractors are working two shifts.

Paul Hohberger, formerly of Iowa, but more recently of Portland, is now in charge of the watch repairing department at the Bonneville Gift shop in the community center building on the reservation.

Laying of sidewalks on the reservation continues at a merry pace. Work is well under way on that section of the walk which will extend south from the railroad tracks to the highway. It has been completed to the end of the residential district.

Virgil McClure, core driller for Cannon Bros., contractors for test holes being sunk at the dam, broke a finger while at work Sunday.

Winnipeg, City of Furs, Is Capital of Manitoba

In 1875 the little community of Winnipeg, Manitoba, which had grown up at the site of the old Hudson bay trading post of Fort Garry was granted incorporation under the name of Winnipeg. In 1870, Winnipeg had already been created capital of the newly organized province of Manitoba. At that date the population was estimated at about 300, but in 1881 Winnipeg had a population of 218,755, not including the adjacent city of St. Boniface and surrounding suburbs outside the city boundaries.

Early fur traders selected the spot where the Assiniboine River flows into the Red as a strategic place for their trading operations. Later, when the Canadian Pacific railroad was built, it crossed the Red river at Winnipeg, and the city's future as a great trading center was assured. It has become one of the greatest railway centers on the continent. Although considered a northern city, it is in a latitude south of the southernmost tip of the British Isles, far south of Berlin, and not much north of Paris.

Insure Against Punishment
Most novel of insurance plans was that of two boys at Geole grammar school in England who insured fellow students against having to write lines as penalties, the charge being two cents a week and the compensation paid to students six cents a hundred lines.

Preaching 11 a. m.
Entertainment 8 p. m.

LOWERS THEATRE ADMISSION

In keeping with the Roosevelt theatre's program of the finest entertainment possible at prices within reason, J. J. Parker yesterday announced that beginning Sunday, January 13, general admission prices will be reduced to 25 cents. Children will be admitted for 10 cents.

Within the last ten days the theatre has enjoyed excellent patronage. This is largely responsible to the stabilization of the sound and to careful selection of pictures presented.

"Sometimes," confided Mrs. Stillwood to her intimate friend, "I think my husband is the most patient, gentlest, best-natured man that ever lived, and sometimes I think it's more laziness!"

VERA: Do you know Eric proposed to me last night?"

MARY: "Yes? Doesn't he do it beautifully?"
