CASCADE LOCKS

Mrs. Luella Henderson has moved her beauty shop from Merrill's barber shop to her home, in Hyde Park, where she has fixed up attractive quarters. She has advised friends that the change will enable her to give the ladies of the district splendid service at better prices.

The 26 pupils in the seventh and eighth grade took a straw ballot Tuesday afternoon. The democratic candidates were popular favorites, winning 24 out of the 26. Dunn got two votes, Zimmerman none.

Ralph Nelson drove down to his home in Albany for the week-end. Miss Myrtle Daniels accompanied him, remaining over in Albany for a brief visit with her relatives before taking up her new duties at French's coffee shop in Bonneville.

Marvin Marsielle and family spent the week-end with his aunt, Mrs. Joe Burt, of the Lakeside hotel. Mr. and Mrs. Marsielle have been making their home in Monroe, Wash., but are now living in Portland.

Clayton Kyle, 13, son of Mr. and Mrs. J. D. Kyle, is recovering from the effects of a gunshot in his foot, suffered early in the week when he accidentally shot himself while engaged in target practise with a 22 calibre rifle.

Mr. and Mrs. Edward Polacheck entertained at a dinner party at Merrill's Saturday night in honor of Mr. Polacheck's sister and brother-in-law, Mr. and Mrs. Lavern Anderson, of The Dalles. Guests were Mr. and Mrs. Joe Poacheck, of The Dalles; Mr. and Mrs. Charles Polacheck, of The Dalles; Bernard Polacheck and Miss Francis McGill, of Hood River; Mr. and Mrs. Ora Condrey, of Cascade Locks; Mr. and Mrs. Hans Ziengler, of The Dalles; Miss Millie Johns, of The Dalles; Ray Condrey of Cascade Locks; Mr. and Mrs. Shirley Moore, of Cascade Locks; and Miss Betty Marsh, of The Dalles. The dinner was followed by dancing at Merrill's Pavilion.

G. A. Cobb, attorney and notary public, has opened an office in the Labor building in Cascade Locks. He came to the district from Beaverton, where he has practiced law for several years. The district has had no lawyer, making it necessary for people desiring services of a legal counsellor to run up to Hood River, or down to Portland.

John Matson has returned to Oregon from a 2½ year stay in his old home in Sweden. He got back Wednesday, and is the guest of Mr. and Mrs. E. Grandstrom.

August Peterson is walking around proud as a peacock these days, following birth of a grandson. The boy was born on his grandfather's birthday, and that made the occasion a doubly happy one. The youngster is the son of Mr. and Mrs. L. E. Peterson, Clatskanie. Mrs. Peterson, the grandmother, hurried down the river to get acquainted with the grandson.

The West Coast Power company is reported to be preparing to open an office on the Oregon side of the river for the accomodation of its customers. The company's business has grown steadily during the past six weeks, and its volume is as great, or greater, than on the Washington side.

E. A. (Doc) Salzman, Cascade Locks affable and popular sign painter, is in a Portland hospital. Charley Wells took him down in a car Wednesday. "Doc" has been ill for the past month. He was taken to a Hood River hospital late last week, appeared to be getting alright and was returned to his room in the Bridge of The Gods hotel, but early in the week it became apparent that he was going to need hospitalization, so the Eagles took him and hustled him to

Portland. The father visited

his two sons in Cascade Locks last summer, and despite his advanced age was in excellent health and fine spirits.

And What a Bag!

All the letters in the alphabet are contained in this sentence: Pack my bag with five dozen liquor jugs.—Mayfield (Ky.) Messenger.

Old English Sheep Dog

First Recorded in 1771

The picturesque, affectionate Old English sheep dog's handsome shaggy coat completely hides his entire form, even his eyes that peer out from behind the loose hair, tossed freely as he ambles along with his bear-like shuffle, observes a writer in the Los Angeles Times. His hindquarters, most excessive in profusion of his coat, are rounded like those of the bear. The fore and hind legs of each side, moving forward simultaneously affects the curious rolling gait, peculiar to the breed.

However, when there is business elsewhere and he starts off in its performance, he develops almost incredible speed. Moving almost effortlessly, he covers ground at a pace quite unsuspected of a dog so compactly built . . . the long hair about his face flying to the wind and parting, to reveal a pair of bright, intelligent and friendly eyes that bespeak his honest countenance. They vary according to the color of the dog . . . very dark being preferred. Nevertheless, in the blue dogs, pearl, china or wall eyes are typical.

With all his beauty, affection and the acquisition of show-ring manners, he is just as sagacious, when pressed into the service as a working dog, as were his progenitors for centuries past. First recorded in a Galesborough painting in 1771, he, and variants of the breed developed throughout European countries, are known to have been employed since time immemorial as herders and guardians of flocks and herds.
