Genius Inherited
The fact that geniuses rarely have sons that are geniuses tends to prove that it is inherited, because all theories of human development agree that the better environment the more likely it is to bring out any person's abilities and a genius would be more likely than any father not a genius to furnish a stimulating environment for his son says a writer in the Detroit News. Since many geniuses rise in poor environment and the son in question has failed to become a genius even in the exceptional environment. It indicates that the father surely did not get his genius from his environment, whether good or bad, but must have got it from his heredity, since we know of no sources of genius other than heredity and environment or else the two combined.

Use of Radio Beams
Radio beams were first devised to help aviators following a straight course in bad weather when they cannot see the ground. The "on course" radio signal or radio beam is a steady hum in the radio receiver, which breaks after a few seconds, when the call letter of the sending station is repeated in dots and dashes. Then comes the steady hum again, followed by the dot and dashes. The radio beam "off course" signal is a dot and dash, or a dash and dot, depending upon which side the pilot is off his regular course.

Gun Operated by Sun
A time gun operated by the sun, and which has been out of use for a number of years was recently brought into action in Paris. The famous little bronze cannon in the gardens of the Palais Royal, which had been silent for years, was fired to inaugurate a Paris charity fete. The cannon is fired by the rays of the sun which, on reaching the meridian, ignite the black powder on the touchhole and so explode the charge. Up to a few years ago the cannon was fired every day or the stroke of noon.

Fish Lodge in Throat
A most peculiar accident occurs frequently in Asia. A native while in the act of drinking water will suddenly find that a small fish has become impacted in his throat. Usually they are not more than four inches in length. One case, however, recorded a fish of eight inches.—Collier's Weekly.

Make-Up of Northern Ireland
Six of the nine counties of Ulster constitute northern Ireland together with the parliamentary boroughs of Belfast and Londonderry. The counties are Antrim, Armagh, Down, Londonderry, Fermanagh and Tyrone.

GORGEOUS MAE DEPICTS GAIETY OF THE GAY 90s

"I'm gonna be a bad girl with a good heart!"

And with that tag on the characterization that brings her to the screen in her first starring Paramount film, "Belle of the Nineties," Mae West returns to the period which first sky-rocketed her to fame—the gay nineties.

The film, with Roger Pryor, John Mack Brown and John Miljan as the "tall dark and handsome," will be shown Sunday and Monday at the Roosevelt theatre.

Mae West strides through an adventurous love-action story which has as its background two of the most colorful cities of that period: New Orleans and St. Louis.

With the Mississippi river coming in for its share of local color, Mae West's new screen offering dramatizes the strident days when men gambled with hearts, paid off on aces and fought for fun.

She is cast as Ruby Carter, the center of a whirlpool of action that brings her down the river from a St. Louis burlesque show to one of the most famous gaming houses in the south. Around Mae West resounds all the gaiety of song and music of the period.

Wheeler and Woolsey, two of the screen's funniest comedians, are appearing at the Roosevelt Wednesday and Thursday nights of this week in "Kentucky Kernels."

Sound equipment at the theatre has been materially improved and is working splendidly now.

THANKS FRIENDS

I take this way of thanking all of our friends who have remembered us during the Christmas time, especially the Sunday School children for their nice gifts.

We wish you all a happy and prosperous New Year, and in the words of the poet would say: "New Year, bright as dawning youth,

Bring us faith and love of truth, Kindly thoughts of one and all, Charity for those who fall, Strength to help and zest to cheer, Hope to banish doubt and fear, Bring us quietness, content, When your brimming months are spent,

Old Year, here's our fond farewell, Hey Year, hail! We wish you well."

CASCADE LOCKS NEWS

by Martha Carns

Miss Norma Sweeney has returned to Portland after having spent the holidays with her parents, Mr. and Mrs. W. G. Sweeney.

Miss Josephine Gage has been ill at home for the past week, but hopes to be able to return to school this week.

"Doc" Salzman, the sign painter, who boasts he "will sign anything," spent Christmas with his parents in Tacoma.

Jesse Everhart is confined to the Sellwood hospital, Portland, where he recently underwent a major operation. He is improving slowly and the family hopes to be able to bring him home within a short time.

Mr. and Mrs. Malcolm McKinnon are the proud parents of an eight pound baby boy, born to them a week ago.

Mrs. Henry Greer and daughter Norma of Carson visited Mrs. Sue Woodward and family Thursday.

Henry Nelson spent the weekend in Portland, while there he attended the Alpha Gamma Delta formal at the Columbia Country club.

Miss Gretchen Grandstrom spent Thursday and Friday in Portland visiting Mr. and Mrs. Henry Miller.

George Schmidt of Gold Beach and Guy Shough of Portland spent the week-end at the E. Grandstrom home.

Walter Erickson spent Thursday and Friday in Vancouver visiting his brother Eddie and family.

Miss Helen Christianson of Stevenson spent the week-end visiting Miss Lena Collins.

Miss Verna Urmev of Newberg and Miss Pearl Urmev of Burlington visited at the V. Wigren home during the holidays.

Mr. and Mrs. Doug Allen of Uarrendale visited Mr. and Mrs. C. Carns Monday.

Miss Janette Cady of Hillsboro visited at the Charles Nelson home Monday.

Ted Woodward of Otter Rock visited his mother, Mrs. Sue Woodward over the holidays.

Mrs. Bobby Sayer and children Francis and Russel Allen of Pendleton visited friends here during the holidays.
