A CHILD'S LAXATIVE SHOULD BE LIQUID

(Ask any doctor)

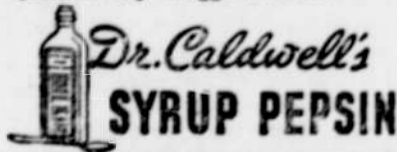

For your own comfort, and for your children's safety and future welfare, you should read this:

The bowels cannot be helped to regularity by any laxative that can't be regulated as to dose. That is why doctors use liquid laxatives.

A liquid laxative can always be taken in the right amount. You can gradually reduce the dose. Reduced dosage is the secret of real and safe relief from constipation.

The right liquid laxative dose gives the right amount of help. When repeated, instead of more each time, you take less. Until bowels are moving regularly and thoroughly without any help at all.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara, natural laxatives that form no habit — even in children. Its action is gentle, but sure. It will clear up a condition of biliousness or sluggishness without upset. Every druggist has it.

**PARKER'S
HAIR BALSAM**
Removes Dandruff—Stops Hair Falling
Imparts Color and
Beauty to Gray and Faded Hair
Sells at 25c at Druggists.
Bristol, Conn., U.S.A. Patented, N.Y.

FLORESTON SHAMPOO—Ideal for use in
connection with Parker's Hair Balsam. Makes the
hair soft and fluffy. 50 cents by mail or at drug-
gists, Hicox Chemical Works, Paterson, N. J.

OREGON STATE NEWS OF GENERAL INTEREST

Brief Resume of Happenings of the Week Collected for Our Readers

Vale—The Pomona grange at Harper, Malheur county, has gone on record as opposing any change in the Oregon law that would permit the county court to compromise a delinquent tax.

The Dalles — A landmark of The Dalles is being partially torn down to save taxes. In early days the building was known as the European house, where was set one of the best tables in Oregon.

Astoria — Clatsop county will not be put to much expense this year for the burial of county poor. One undertaker has bid 1 mill for each burial, and another offers to perform the service free of charge.

Marshfield — Six new lookout towers, 70 miles of forest roads and over 50 miles of trails and telephone lines have been built in Coos county under the supervision of the Coos County Fire Patrol association.

Salem — Hedda Swart, county engineer of Marion county the past 22 years, has resigned as a result of a change in the personnel of the county court. Phillip Fisher, county bridge builder, has also resigned.

Halfway — It is reported at Halfway that a Chicago firm has purchased the Oregon Short Line railroad track from Robinette to Homestead at auction and will salvage it this year. The line was abandoned by the railroad company some time ago.

Astoria—An ordinance licensing all barber shops and barbers, and containing provisions barring their operation in places connected with the dispensing of beer, has been submitted to the Astoria city council by the master journeymen barbers of the city.

Redmond—Donald Telefer, 38, died Thursday in St. Charles hospital from injuries resulting from a fall of approximately 90 feet down the shaft of the Oregon King mine at Ashwood. He was employed at the mine in underground work. He was an expert miner.

The Dalles—Convinced that a grave injustice will be done to Eastern Oregon if tolls are removed from the Oregon Coast highway bridges, The Dalles Chamber of Commerce has aligned itself with Bend and other cities in opposition to a bill pending in the legislature.

Baker—A \$5400 gold brick held high by Toastmaster Blaine Hallock brought 300 persons upright at the annual Baker County Chamber of Commerce banquet last Tuesday night. The brick, not unusual here these days, was made from gold taken by the Monarch Gold Dredging company at Prairie City. It weighs 176.7 ounces.

Baker — Mr. and Mrs. E. C. Wooten of Maxwell, N. M., enroute to The Dalles, were not bothered by hitch-hikers after leaving Durkee last Thursday, but they arrived in Baker a short time later with an extra passenger. The passenger was an 8-pound boy, who is doing nicely with his mother in a Baker hospital. Mrs. Wooten is the mother of three children.

Hog Contracts Arrive

Albany—Checks totaling \$11,369 for distribution among Linn county hog growers have arrived from Washington at the office of and payment on hog contracts. County Agent Floyd Mullen. This constitutes the long overdue second North Powder — North Powder's lee harvest was a good one. The total stored was 10,800 tons. In addition, 1500 tons was shipped to Huntington.

MM Cuts 20,000,000 Feet

Eugene—More than 26,000,000 feet of government timber was converted into lumber by the Western Lumber company at Westfir in 1934, according to a report of the forest service on the activities of this company, which is one of the few in the country operating 100 per cent in national forest timber. The total paid the government was \$61,600. In the 11 years that the company has been operating it has cut 316,000,000 feet and paid the government \$645,000.

Prospector Finds Rich Ore

Medford—There is no depression here, according to Jud Hinson. The going was very tough for Jud. He had no job nor money. So he went prospecting. The first week brought him luck. He reported at a bank here and sold \$4,000 worth of gold quartz. Four or five weeks later he lugged a bag of gold into the same bank. It was worth \$12,000. Hinson has his claim staked out and registered. It is not far from Medford. He stumbled onto the vein which brought him fortune.

GROUP OF HOMES BEING BUILT IN LAKEVIEW SITE

Falling into line with the Chamber of Commerce's plans to clean-up and beautify Cascade Locks, the Cascade Lumber company, is wrecking the old buildings on its property in the Lakeview addition. Installing sanitary plumbing and moving homes to improve the landscape.

The move, first sign of the annual spring housecleaning, only on a larger scale, has attracted the attention of many outsiders and Locks residents. In the past week five lots were sold in the district, which already boasts six modern homes.

One other, C. M. Mitchell, is moving his house from the path of the planned roadway, and at the same time, completely renovating it.

The old Robert Liggett residence has been completely remodeled by W. M. Keeler and will be occupied by Mr. and Mrs. J. Warnick and two daughters. The Liggetts have moved to Hood River, where Mrs. Liggett is confined to the hospital.

The quintet who have purchased property and plan to build immediately are: J. M. McChristy, B. C. Nelson, Frank A. Tobandt, M. R. Ferguson, a Portlander working on the dam; and E. B. Handford, government engineer, who has been living in the Fulgham cabins.

PARKER-SCHRAM BID LOW ON NEW CONTRACT

Parker Schram company, of Portland, was low on the government contract for grading the reservation's permanent road system, and leveling the ground around the new administration building and civic auditorium. The firm bid \$61,860.

The contractors will excavate and haul the dirt from the point above the ship canal and are expected to get their operations under way within three weeks. The top soil will be used in dressing the lawns around the permanent government residences.

PIERS ARE ALL IN ON TANNER CREEK VIADUCT

All 17 of the concrete piers have been laid for the 900 foot ultra-modern span across Tanner creek, which will be completed some time in May, at a cost of \$255,000. It is estimated that more than 10,400 yards of concrete alone will be used on the railroad right-of-way.

The new roadbed will wind around the base of the high cliff between Bonneville and Bony Villa, picking up the double track span near the mouth of the stream, crossing the fish hatchery grounds and running alongside the ship canal and sea locks above the powerhouse.
