NATIONAL SAVINGS MARK INCREASES

NEW YORK.—The annual savings compilation of the American Bankers Association for the year ending June 30, 1934, shows that for the first time since 1930 total savings in all American banks recorded an annual increase.

A statement by W. Espey Albright, Deputy Manager of the association in charge of its Savings Division, in the organization's monthly magazine "Banking," says that savings deposited in banks as of June 30, 1934, gained 3.5 per cent as compared with a year earlier.

"The aggregate is an increase over last year of \$742,132,000, the first since the year which closed June 30, 1930," he says. "This is a notable achievement, for the decline since 1930 had been precipitate and all-embracing. In that year savings had reached the all-time high of \$28,478,631,000. A year ago the amount was \$21,125,534,000, a loss in three years of \$7,353,097,000. This year the figure stands at \$21,867,666,000.

"Depositors, too, have gained in number, going from 39,262,442 on June 30, 1933, to 39,562,174 on June 30 this year, a gain of 299,732. Four years ago there were 52,729,482 depositors, or one depositor for each 2.3 persons in the country. Now there is one account for each 2.2 persons."

BLOCK DEATHS AT UNSAFE CROSSINGS

Reduction of Road Hazards Is Most Pressing Need.

Washington.—Extensive elimination of railway grade crossings as part of the public works program will meet pressing needs for reduction of highway hazards, facilitation of traffic and prompt provision of widespread employment, according to a statement issued by the Chamber of Commerce of the United States.

"There are at present approximately 237,000 rail-highway grade crossings in the United States, of which 4,700 are protected by gates, 6,200 by watchmen and 20,000 by signals. The remainder are protected only by fixed warning signs," the statement declared.

"During the past ten years accidents at rail-highway crossings have caused more than 20,000 deaths, nearly 60,000 injuries and extensive property damage. While for several recent years there were reductions, the record for 1934 shows a pronounced increase over 1933.

"Besides the losses due to accidents, there is a continuing cost to highway users from delays experienced at grade crossings, amounting in the aggregate to many millions of dollars annually.

"There is a sufficient number of crossings where established accident records justify elimination of the hazard, and for which plans are ready or could be completed promptly, to assure a large program of unemployment relief that can quickly be put into operation. In addition, an effective organization already exists in the bureau of public roads and the state highway departments to carry out such a program without delay."

DRIVER'S LICENSE EXAMS SCHEDULED FOR JUNE 13

Examination for Oregon state operators and chauffeurs licenses for the next biennium will be held at Bonneville June 13, from 9 a.m. to 4 p.m.

Drivers' licenses expire June 30. Examinations, except in certain rare cases, are not required for renewal. Applications for renewals must be made with the examiner.

Gruff father to son—Why don't you go out and go to work. Find a job. Why, when I was your age I was working for \$3 a week and at the end of five years I owned the store."

Son—"Yeah, but you can't do that today. They have cash registers in all the stores."

"Yes, dear, my husband is a doctor and just the nicest fellow in the world, but so absent-minded!" she explained to a schoolgirl chum. "Just imagine, during the wedding ceremony, when the time came for him to place the ring on my finger he felt my pulse, and then asked me to put out my

Proud Mother—"Yes, he's a year old now, and he's been walking since he was eight months old."

Bored Visitor—"Really? He must be awfully tired."
