

THE DAM CHRONICLE

Published every Thursday in the interests of the Bonneville dam area.

Mark A. Shields, Editor  
John H. Travis, Business Manager

Editorial and Business Office in Bonneville, Oregon. Mechanical Department in Cascade Locks.

Official publication for American Legion post No. 88, Bonneville, Oregon.

SUBSCRIPTION RATES

By Carrier	
One month	20 cents
Three months	50 cents
By Mail	
Three months	\$0.50
Six months	\$1.00
One year	\$2.00

OUR PROGRAM

1. Develop a fire protection system.
2. Create a water district and develop lands between Craigmont hotel and Herman creek.
3. Install street lights.
4. Lay down sidewalks—even though they are wooden sidewalks.
5. Urge the federal government to purchase the toll bridge and make it a free bridge.
6. Launch a campaign to make the lake back of the dam the most popular resort on the West Coast.

"SCANDAL SHEET"

A group of worthy Cascade Locks citizens, called together by the Labor organization for the avowed purpose of starting a movement which had for its purpose the wrecking of the The Chronicle, heard this newspaper denounced Monday night in the Odd Fellows hall as a "dirty scandal sheet."

But in that meeting no voice was raised to say that The Chronicle could be controlled by any individual or group of individuals, nor did anyone have the temerity to say that this newspaper could be bought, either with advertising or money.

The Chronicle has fought for those things which it believed best for the Bonneville dam area. And it shall continue to pursue that course.

J. B. Laber cancelled his advertising in The Chronicle after the publishers signed a petition asking the county court to call an election for the purpose of incorporating the town.

The publishers told Mr. Laber that his action could not influence its policies—that when it came to a choice between his advertising and incorporation it would support incorporation.

The Chronicle thinks of Mr. Laber in the terms that it would think of a public utility. He owns the bulk of the townsite and had no business—has no business, interfering in an election which concerns the people as a whole.

The Laber organization had been unable to swerve The Chronicle from a course which it believes to be just and in the interest of all the people. And because it cannot dominate The Chronicle it would destroy it.

If The Chronicle can be destroyed by a little group of selfish men and women who are thinking only of their own interests, rather than the interests of all the people and of the community as a whole, then it deserves to be destroyed.

The Chronicle is proud of the fight it has made and is making to compel J. B. Laber to recognize the rights of other people.

It has bent its knee to no man and it has carried on month in and month out, serving the pub-

lic to the best of its ability. It has been consistent. It has not, like the clique of men and women who promise to destroy it, licked the hand that slapped it.

IT WILL BE SOLD

Though the division engineer's report is adverse to the construction of the Umatilla rapids project at this time the situation as recited by Colonel T. M. Robins, offers real hope for the building of the dam, not only for navigation but also for power purposes. In act it seems fair to infer that the power feature—assuming a market—is the factor that does most to assure feasibility.

It was stated by Colonel Robins that could the power from Umatilla rapids be sold within a period of 20 years the project could be considered feasible.

If that is the case the project is sound because the power, if generated, will all be under contract long before the 20 year period expires. It will be sold because it will be sold.

The power interests will doubtless claim that there will be no market for such a volume of power but there will be. Low priced electricity creates its own market. If consumers are not here at present they will come but there is much potential demand now for cheap power. The market exists on farms and its exists in cities and towns. There is need of vastly more power than is available but it must be sold on a basis that will permit greater use of electricity.

If power is developed at Umatilla rapids it will be contracted within five years after the project is built, or sooner. It will be sought by the present distributing companies because if they do not take the new power and distribute it on a basis of reasonable services and prices then municipal or district plants will do so.

Tacoma has a municipal plant that sought additional power a few years ago. What the situation is today this paper does not know but there are people who say that Tacoma alone can utilize all the power it can get from Umatilla rapids. They will not get it all because Portland, Spokane and other cities, large and small, will demand proper service from their distributors and they will get it from the companies or they will make direct contracts for Columbia river power, if any is available.

If the engineers are concerned as to whether or not power at either Bonneville or Umatilla rapids can be marketed their concern is needless.—East Oregonian.

BONNY VILLA WATER FACILITIES EXPANDED

Two 700-gallon galvanized steel tanks have been installed by Eric Enquist to expand the water system at Bonny Villa.

The tanks are an addition to the wooden tank in use for several years, which will be kept as a part of the system. Source of supply in two springs on the steep hillside a considerable distance above the nearest house or building of any kind. Tests of the water, taken by the state health department, show it to be pure.

The new system will amply supply the needs of Bonny Villa residents so long as they do not abuse it by running water continuously, according to Mr. Enquist.

CAR OWNER DISAPPEARS

A Model "A" coupe registered to Leonard Leighton Burdett of Newport sits in Shirley Moore's garage at Cascade Locks waiting for its owner to reclaim it. The car was wrecked Sunday near Ruckel creek when it smashed head-on into another car. Moore towed it in, reports that the driver took out the tools and departed.

CHURCH SERVICES

Community M. E. Church  
Cascade Locks  
Rev. L. G. Weaver, Pastor  
Sunday School 10 a. m.  
Public Worship 11 a. m.  
Evening Service 7:30 p. m.  
Prayer meeting Thursday evening.

Community Center - Chapel  
Bonneville.  
Rev. S. D. Trefren, Pastor.  
Sunday School 10 a. m.  
Preaching 11 a. m.

Buys Island and Spends 32 Years in Solitude

Plat, Jugoclavia.—Paul Tile, a German, has been living as a modern "Robinson Crusoe" on a small island near here for 32 years and enjoys it. He was discovered recently and now crowds are visiting the place. Even women, whom Tile dislikes, have "crashed" the island by wearing male apparel. The man planted orchards and vineyards, raised goats, kept bees, built a house, made fishing nets and tools, and wove cloth for his clothes. He even built concrete bridges across the narrow strip of water which separates his island from the mainland. He divorced his wife in 1912 and since then has always shunned the sight of a woman. He sold his hotel and bought the island, then disappeared on it.

Man Stumbles Into Buzz Saw and Gets Hair Cut

Chardon, Ohio.—Jesse Gell, thirty-seven, a farm worker, had his hair cut by a buzz saw, and he wasn't even scratched. Working with a number of other men on a farm, Gell was standing close to a whirling buzz saw being used to cut wood. He stumbled and fell headlong. The blade bit into Gell's hair, trimmed it neatly. The "victim" took stock of himself, found he wasn't hurt, and shakily got to his feet. The witnesses were speechless for minutes, but Gell calmly resumed his work.

Prisoners "Accompany" Sheriff Who Led Band

Millersburg, Ohio.—Harry B. Weiss, orchestra leader turned sheriff, is glad when musicians happen to come the way of his cells.

A visitor at the jail found Sheriff Weiss in a cell with two prisoners. Musicians, too, they were accompanying the sheriff in a hill-billy song.

"I haven't anything to do and these fellows aren't going any place," the sheriff smiled.

Dog Saves Life of Boy, 3, From Death in Pool

Celina, Ohio.—Mrs. Arthur Nichols was more than a little impatient at the antics of the small dog of her son Charles, three. He snapped at her skirts stubbornly, giving tugs, despite her efforts to drive him off. Finally she followed the dog to a backyard fish pool. There day Charles unconscious, half drowned. She was able to revive him.

Saves Life of Would-Be Suicide Three Miles Away

Marblehead, Mass.—His suicide prevented by the quick action of an unidentified man three miles away, Homer Macris, twenty-seven, was none the worse for his experience after police pulled him from the water near Waterside cemetery. The man who called police, said he was in Salem, which is three miles across the harbor, and that he saw Macris through a pair of binoculars.

Demos of Dam Area Gather to Organize Selves

Led by County Chairman Ed Steel, Hood River, democrats of Cascade Locks got together Tuesday night at Merrill's pavilion and organized a club with a membership that extends from Wyeth to Dodson. There was music and laughter and song, and afterwards, when the meeting was over and the crowd commenced to sing, "Nobody Knows How Dry I Am," someone opened a keg of beer.

"Jim" Merrill as chosen president of the club. Mrs. J. H. Burt, vice president, and M. E. Trimble, secretary-treasurer.

Governor Martin was unable to attend, but was represented by Senator J. H. Hazlett of Hood River who made the principal talk of the evening. Postmaster Lucas, Hood River, former county chairman, made a short talk. County Assessor George Knox came down from Hood River with the others to be present.

Capt. Charles H. Nelson, Cascade Locks precinct committeeman was temporary chairman in charge of the meeting. Mrs. Burt had charge of the music, a splendid program being under her direction. C. E. (Doc) Carns led the singing, with the crowd standing to join in "The Sidewalks of New York" and "Happy Days Are Here Again." Music was provided by the Cascade Locks Wranglers, composed of Monte Gay and Angelo Imordini.

Working at a table, Secretary Trimble filled his pockets with membership cards which were turned in, and directed the signing of petitions for candidates on the natl-Labor ticket.

LOCKS PEOPLE ESCAPE INJURY IN CAR CRASH

Mr. and Mrs. Shirley Moore were scratched and bruised Tuesday night when the car in which they were riding, owned and driven by Bob Liggett, also of the Locks, was sideswiped and forced into the ditch just east of the fox farm.

Liggett and Noble Hyde, whom the party were driving home from the Democratic rally, both escaped without injury. The Moores were sitting in the back seat, Mrs. Moore's back was wrenched, and her head and face bruised.

Cause of the accident was attributed by Moore to blinding lights of a pickup truck, heavily loaded with apricots, owned by H. L. Patton of The Dalles. The truck, west bound, moved out to pass a truck, saw Liggett's car coming, failed to get back in line in time. Its lights pointed upward by the heavy load on the rear, blinded Liggett, and the cars, both traveling about 30 miles per hour, ticked each other. Steering gear on Liggett's car was damaged enough to pull him to the left, across the road, through a barbed-wired fence into a field. Neither car was hurt badly.

"BUILDERS" IS TOPIC

"The Builders" will be the sermon Sunday at 11 a. m. at the Cascade Locks ME church by the new pastor, the Rev. Mr. Weaver. Special music and the sermon, "The Desert" will be featured at the evening service at 8 o'clock.

TOURNEY STARTS MONDAY

With 50 names registered, the first Bonneville auditorium ping pong tournament will get under way Monday. The first round of matches must be played off by Wednesday. Announcement of prizes for winners will be made next week by the recreation association.

Constipated?

The doctors say . . . Use liquid treatment

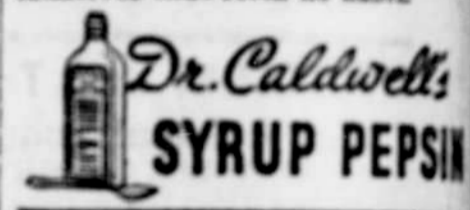

Here is the soundest advice anyone can give on the subject of laxatives. It is based on medical opinion. We want you to have the benefit of the information no matter what laxative you may buy:

The secret of real relief from constipation is reduced dosage. You can regulate the bowels unless you can regulate the help you give them. That is why doctors use a liquid laxative—the dose can be measured to a drop.

Avoid laxatives that you can't get down in dosage; especially those that seem to require larger doses than when you began their use.

Under the doctor's care, you usually get a liquid laxative. The right liquid laxative gives the right kind of help, and the right amount of help. Smaller and smaller doses—until you don't need any.

The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara—natural laxatives that form no habit.

ADVICE TO WOMEN

Mrs. J. H. Sharp of 48 E. 3rd Ave., Eugene, Ore., writes: "Earlier in life, while bringing up my family, I had considerable aches through ill health, I had backache and frequent headaches, hardly any appetite, lost all ambition and was very much discouraged. I took Dr. Pierce's Favorite Prescription and felt well and normal again." New size, tablets 50 cts., liquid \$1.00 per doz., tabs. or liquid, \$1.25. All druggists.

A Law Every Mother Should Know and Observe

Never Give Your Child An Unknown Remedy without Asking Your Doctor First

According to any doctor you ask, the only safe way is never to give your child a remedy you don't know about, without asking him first.

When it comes to "milk of magnesia," that you know everywhere, for over 60 years, doctors have said "PHILLIPS' Milk of Magnesia for your child."

So—always say Phillips' when you buy. And, for your own peace of mind, see that your child gets this; the finest you know.

Safety for You and Yours  
You can assist others by refusing to accept a substitute for the genuine Phillips' Milk of Magnesia. Do this in the interest of yourself and your children—and in the interest of the public in general.

PHILLIPS' Milk of Magnesia  
CREOMULSION  
Your own druggist is authorized to cheerfully refund your money on the spot if you are not relieved by Creomulsion
