## HAUSER'S DRUG STORE

O. L. M. Hauser, owner.

### AD BRINGS PLENTY OF BUSINESS TO FLEGEL AND RICH'S STATION

Paul Flegel and Jim Rich, who own the Richfield service station opposite the Bonneville dam entrance, wear wide smiles this week.

In The Chronicle's last issue they advertised a special \$1.50 grease job at 64c for the week, dubious as to results. Orders immediately began coming in, until Flegel and Rich's grease rack had no idle moments. Elated with the response, they advertise this week the extension of the special offer for a week longer, to make more friends, to show the public what they can do.

Their station has the latest lubrication equipment, including a wide assortment of greases, grease guns and a hydraulic hoist. Both partners are specially trained for lubrication work.

"Advertising in The Chronicle pays," they both agree.

### BIRTHDAY DINNER

Dinner guests at Captain and Mrs. Charles Nelson's home Saturday evening were their son-in-law and daughter, Mr. and Mrs. H. Miller of Portland, daughter, Marie of Washougal, Wash., Mrs. Freda Hendrick, Baltimore, Md., Mr. and Mrs. August Peterson and Mr. and Mrs. C. E. Carns. The dinner was in honor of Mrs. Nelson's sixtieth birthday.

Mrs. C. E. Carns gave a surprise birthday party for her mother, Mrs. Charles Nelson Monday afternoon. Those present were: Mrs. Chales Heggblom, Ms. Karl Rosenback, Mrs. August Peterson, Mrs. Charles Qen, Mrs. Sue Woodward, Mrs. Jack Price, Mrs. Erick Erickson, Mrs. George Heggblom, Mrs. E. Grandstrom, Miss Gretchen Grandstrom, Miss

Helen Rosenback, Miss Ida Iverson of Portland, Miss Marie Nelson of Washougal, Wash. The afternoon was spent playing 500 and Mrs. Carns served a delicious luncheon.

### CLEANER COMES TO LOCKS

Frank J. Walker will open a cleaning and pressing establishment in Cascade Locks in the new building adjoining Attorney G. A. Cobb's office, Friday or Saturday. Walker has had 15 years experience in the business and has just come from three years with the Boulder City company at Boulder dam. He offers 48-hour cleaning and pressing service, or 20 minutes for pressing only.

### LOCKS PIONEERS CHOOSE MEYERS FOR PRESIDENT

Approximately 200 pioneers of the Cascade Locks-Stevenson area came from far and near Sunday to picnic on the government grounds at Cascade Locks, to see the changes that have happened since last year, to revisit old friends and renew acquaintances.

Al Meyer of the Locks was elected president of the Pioneers association for the coming year. Mrs. Emma Hamilton of Portland, for whose family Hamilton island was named, was chosen queen mother. Into the vice-president's chair went Jack Ridenour of Newberg. Frank Hall, Locks postmaster, was reelected secretary.

Seth Levins of Portland took charge of the picnic in the absence of this year's president, Mrs. Randall States of Stevenson, who is ill. From Portland came Pete Moran and his daughters. Moran was one of those, who 55

### Hauser Opens His Drug Store In Bonneville

O. L. M. Hauser, known to his legion of friends throughout the district as "Doc", threw open the doors of his new drug store in Bonneville this week and invited folks to inspect a stock of goods that he has built up to fit his limited quarters.

The new drug store is in the building occupied by French recreational center, opposite the old entrance to the reservation. It is on the highway, just above Tyrell's Tavern.

Quarters for the new store were obtained by remodeling the building and cutting a new entrance. It has no partition for a prescription department, and isn't going to have one, according to Hauser, who insists that all prescriptions should be filled in plain sight of the buying public.

Business men on the highway welcomed the new store and expressed the wish that it would prosper and wax fat, for they look upon it as a valuable addition to their business section.

Mrs. Hauser will be associated with her husband in the conduct of the store.

A handful of Indian arrowheads have been found by Ben Scott in digging out the boulders in front of his service station, as well as a large number of rock chips caused by Indians making arrows and spearheads. Ben has spent several weeks cracking out rocks, plans to lower his pumps to the level of the sidewalk.

years ago helped build the famous canal and locks to enable shipping to pass around the Cascades.
