Children in the Bonneville school are now protected in their play on the school grounds by a high wire fence, which prevents them from running out on the highway. The fence was built at direction of the school board. It enables the teachers to employ closer supervision over younger children who thoughtlessly run out of the grounds.

**Girl Motor Thief
Takes Girl's Car**

Akron, Ohio.—Miss Bernice Elakna, twenty-one, of Akron, failed to "get her woman." While eating her lunch in a South Akron restaurant, Miss Elakna noticed a girl climbing into her automobile. Rushing up from her lunch, she darted outside and leaped onto the running board of the moving car. But after a few blocks, clinging to the wildly careening car, she lost her hold and fell off, suffering cuts and bruises. The feminine thief escaped with the car.
