Mention smelt to J. Galchutt and he conjures up a vision of 1,200 smelt tails hanging in his smoke shed, their bodies burned to cinders. Galchutt cleaned and strung up the 1,200 tiny fish for smoking, left the operation in charge of a neighbor when he was forced to leave. The fire blazed high, left naught but charred remains. Galchutt, undaunted, cleaned another batch, smoked them successfully.

Mrs. Glenn H. Ferrington was scheduled to leave yesterday to spend a week or two at the Oregon beaches, accompanied by her son, Dale, and her mother, Mrs. Eric Enquist of Springdale. TENNIS FANS SOON TO HAVE CEMENT COURT

Tennis fans will soon have a concrete court on the fish hatchery grounds at Bonneville as a permanent feature.

Columbia Construction company last week donated the concrete to be used in construction, which will be done by those interested in the game. The committee in charge of the courts is now seeking wire fencing with which to keep the tennis balls from flying over into the ponds.
