

Arabs in Palestine Demonstrating Against Jews

Striking against British rule and Jewish immigration, part of the Arab gathering of over 10,000 that assembled at Abou Ghosh, Jirjath-Jearim, Palestine, recently, is shown pledging allegiance to their leaders who mapped a nationalist movement.

Dog, Cat and Rat Are Close Friends

Strange indeed is the friendship between Monty the dog, Damon the cat, and Pythias the white rat, recent visitors at the California Pacific International exposition in San Diego, with their master, Beverly B. Dobbs. They have visited many parts of the world together.

Destructive Storm Hits Detroit

Two lives were lost and much property damaged by a wind storm which swept the city of Detroit. The photograph shows a large barn wrecked by the sixty-mile gale.

Marshal Pilsudski's Heart Buried at Vilna

It was the last wish of Marshal Pilsudski, "Maker of Modern Poland," that his heart be buried next to his mother's grave in Vilna. The wish was carried out on the day of mourning for Poland's national hero. In this picture at Rossa cemetery Madame Pilsudski is holding the casket containing the marshal's heart.

HIS 111TH BIRTHDAY

John Harry Davis, photographed as he appeared holding his one hundredth grandchild while celebrating his one hundred and eleventh birthday on his farm near Bainbridge, Ohio. Mr. Davis has nearly 175 descendants, reads without glasses and still possesses a remarkable memory. Born in Campbell county, Virginia, in 1825, he moved to Ohio 75 years ago and has resided on a farm since that time. The grandchild is the Francis Hansford of Wilmington, Ohio.

"Flying Laboratory" for Amelia Earhart

This Lockheed all-metal monoplane was built at Burbank, Calif., as a "flying laboratory" for Amelia Earhart on order from the Amelia Earhart Fund for Aeronautical Research, and the famous flyer is seen inspecting it. After tests and trial flights she will fly it to Purdue university, Indiana, where the program of research will be carried out. The plane is powered with two Pratt and Whitney Wasp engines of 550 horsepower each, driving Hamilton constant speed metal propellers. Instead of passenger seats, it carries additional fuel tanks for extended non-stop flights. Special instruments include a Sperry robot pilot, de-icing appliances on the leading edge of the wing and stabilizer, and a new type fuel analyzer which enables fuel consumption to be kept at a minimum under all flying conditions. Radio homing device and two-way radio telephone are also installed in the pilot's compartment.

CLIMBED BY STUDENTS

Cathedral spires, forbidding needle-like peaks which tower 2,115 feet above Yosemite valley, have been conquered again. Four University of California students, members of the rock-climbing section of the Sierra club, made the ascent under conditions so perilous that other members of the group were forced to give up the climb half-way up the perpendicular cliffs.

Spider's Lesson Led to Scotland's Independence

In 1306 Robert Bruce, or Robert the Bruce, was crowned king of Scotland. Soon afterwards, relates a writer in the Indianapolis News, his forces were routed by the English and he fled from the country, taking refuge on the island of Rath-

lin off the coast of Antrim, Ireland. One day, while in hiding, Bruce observed a spider trying to fix its web to a beam on the ceiling. The spider failed six times in succession. "Now shall this spider," said Bruce, "teach me what I am to do, for I also have failed six times." In the seventh attempt the spider succeeded in fixing its web to the beam.

Bruce emerged from his hiding place, gathered a handful of followers, returned to Scotland and after a series of successful campaigns won the battle of Bannockburn in 1314, after which England acknowledged the complete independence of Scotland. It is regarded almost as a crime for a person named Bruce in Scotland to kill a spider.

Snowflakes Don't Copy

It is an accepted fact that one snowflake never duplicates another. According to the laws by which it is formed, a snowflake may assume any one of a number of possible forms, running into billions of billions.

Distilled Liquor Old
The Chinese distilled liquor long before the Christian era and "arrack" was made in India as early as 600 B. C.
