Severed Finger Leads to Conviction of Robber

Nairobi.—A severed finger has resulted in a four-year labor sentence being passed on a man for a crime near Zanzibar. The finger, preserved in a pickle jar, was the only clue which the Zanzibar police had in their investigation of a case of burglary with violence. An isolated Arab shop in a country district had been entered by four men, who attacked the proprietor. The Arab used a knife to defend himself and next morning a finger was found on the floor by the police. A print was carefully taken from it and the finger preserved. The police then discovered a man with a very swollen hand who had a finger missing. His identity was proved by the fingerprint bureau.

Many Seven-Toed Cats Arouse Science Interest

Santa Ana, Calif.—Science is interesting itself in the cats of Santa Ana, which commonly have six or seven toes instead of the regulation number.

J. Russell Bruff, head of the Junior college science department, insists they are not freaks, but descendants of some extra-toed feline which came to town some years ago and left many offspring.

TOWNSEND YOUTHS PRESENT PROGRAM

A snarling villain, a collapsible policeman, a blushing and somewhat forgetful heroine, a youthful mystery woman and several other excellently-costumed actors put on a riotous rhymed play, "Curses! Foiled Again!" for the edification of the Cascade Locks Townsend club Friday in the I. O. O. F. hall.

The play climaxed a full program of skits, tap dancing, singing and instrumental selections arranged entirely by the young folks of the club.

Howard Harrison, with a laugh that sounded like a Model T getting up steam on a frosty morning, acted in the best tradition of the villain of the '30's, even to twirling his grease-paint moustache. Beth Manchester was the inevitable heart-interest and heiress-to-be, playing opposite dapper John Hill, the be-whiskered dandy who wanted her for his own.

Bob Morgan went great guns as the infallible copper, although his climactic tailspin was a bit hard to grasp. Jean Orvis did beautifully as Madame X, and Eileen Sprague created a fine mother role for herself.

Preceding the play Jean Hardy gave a black-face reading. Mrs. James Rasmussen and Beth Manchester sang, and several other numbers were presented. Mrs. Gertrude McKinnon, delegate to the convention at La Grande, gave a report. Dancing and refreshments followed the program.

Dove and Pigeon

The words "dove" and "pigeon" are practically synonymous, but in ordinary usage "pigeon" is a somewhat broader term and is applied to all birds belonging to the family Columbidae. Both terms are applicable to the domestic pigeon and to various wild species, but some of the smaller species of the family are specifically called doves, such as turtledoves, mourning doves, ground doves, to distinguish them from the larger species more commonly called pigeons.
